17TH JULY 1882, No. 1821 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.  
Civil Works.

No. 107.

READ—the following letter from R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepauk, 5th July 1882, No. 267:—

I have the honor to forward, herewith, for your perusal and sanction, an estimate for providing ventilators to the roofs of the Senate House.

One Estimate.  
One Letter.

2. The building is in such an exposed position that I thought it advisable during construction to leave eaves ventilation only. Experience has shown this to be insufficient, and I now propose, with some degree of reluctance, to add ventilators at the ends of the ridges. The quantity of moisture condensed after heavy rain is unusually large.

No. 108.

ORDER—dated 17th July 1882, No. 1821 W., Public Works.

The estimate, amounting to Rs. 723, for providing ventilators to the roof of the Senate House, Madras, is sanctioned.

2. The Accountant-General will be instructed in the Financial Department to place the sum of Rs. 900\* at the disposal of the Public Works Department from the University Fee Fund to enable the Consulting Architect to carry out the work.

3. This sanction has been registered as Excluded Local No. 9 W. of 1882-83 and classified as Civil Buildings, Original Works.

(True Extract.)

Under Secy. to Govt., P.W.D.,  
Irrigation Branch.

No. 267

The Consulting Architect

to the Government of Madras.

The Chief Engineer, P. W. D.

Roads and Buildings.

I have the honor to forward herewith for your perusal and sanction an Estimate for providing Ventilators to the roofs of the Senate House.

The building is in such an exposed position that I thought it advisable during construction to leave bare ventilation only. Experience has shown this to be insufficient, and I now propose with some degree of reluctance to add Ventilators at the ends of the ridges. The quantity of moisture condensed
