Madras 11th July 1882.

My dear Colonel Sankey

The Stables & outhouses that I meant are Van Derwarte's, and those of the two houses adjoining his North & South. The one on the North we rebuilt with the compound wall after the storm of November last. Your Letter to Colonel Prendergast in wh: you say Government have decided to purchase the lands as recommended by Mr. Parkes settles the point. This was not clear from G.O 698, W. of 17th March, in fact I presume the Government had not decided to purchase then, hence my doubt. Col. Prendergast visited the spot with me but of course we understand, now that we hear the Govt have decided to

purchase, that the land is to be allowed
to go. The Railway reaches now to within
600 ft of the first stable, and 600 ft further would
bring it to the last stable at the point B. a quantity
of stone had been placed along there by us before the
storm of last November, so I thought it was worth
while to raise the question of continuing the road
by my remarks in my Letter No 13 W. of 8th June 1882.

I am

My dear Colonel

Yours truly

Walter B. Beadmore

Sp. 1889 W. 8/18/7/8

For order

In § 0 17th March 1882
No. 698 W para 4 it
was decided on the report
of Mr. Parker (Engineer in
chief in the Harbour works)
that it would be best to
stop to acquire all the
property along the shore
to the north of the Harbour
extending from a certain
point A beyond the Police
Station & as far as a
point north of a house
owned by a Mr. Vander-
-water

Having on the 8th instant
received a telegram from
the Sup^t of the Harbour
works asking authority
to continue the railway
in the western works
north of the Harbour and
to defend the stables
(belonged to Mr. Vander-
-water) which were built

encroached on by the
Sea I wish to Colonel
Pendergast to consider
such measures as might
be urgently necessary with
the Supl. of the H. Works and
report: at the same time
writing off to Col. Pendergast
to see that the arrangements
fall in with the proposal to
acquire all property on
above mentioned north of
the point A

From the telegram herewith
sent also it seems that as
the encroachment now in
progress is taking place within
the portion which it is intended
to purchase an immediate
decision it is thought should
be arrived at as to acquiring
on the part of Government at
least the property which is
being attacked

In this case I venture to
recommend that the Collector
of Madras be authorized to
proceed to either acquire the
property or arrange by such
compensation as may be
eventually necessary

11-7-82 Att

Should be directed to
C. A. W.

It would be as well in
order to make sure about
this point to have Mr.
Pendergast's plan forwarded with
his report of 4th Feb. 1882
(See P.O. 698 W 17/3/82)
carefully examined to
see that the ~~encroachment~~
area which he proposed (in
advance of the point A) to
buy up & give over to Sea
Canton does include
Mr. Vandermate's house &
Compound — I have attached

entertained no doubt
of this myself

to make sure that
all mail to him
be delivered in
time of the day

which is forward
of the point A
to be put over to sea

of some

C.A.

The plan attached
to L.P. W 698 W 17.3.82
did not show clearly
the situation of the
Vanderwants property
& we had to send it
to the Harbour Office
to have the site
marked

As it is now
clear that the property
is within the area
to be purchased, i.e.
beyond the point A,
the L.P. just read from
Acty. & authorising
its immediate ac-
quisition has been
issued.

The plan is here
with set up as
ordered - The L.P.
has been sent to
Gen. C.

Submitted 18/7/82
for information
21.7.

The point is now quite clear

To W

The G. O. has
not yet issued.
It assumes that
the locality thera-
tised is within
the purchasable
area. and on this
assumption orders
the acquisition of
the land. The G. O.
might issue at
once from Madras
if on examination
of the plan there
the assumption is
found to be
correct?

The plan might
afterwards be sent
up here for
information?
