

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

9th December 1881, No. 3054 W.

General.
Establishment.

Read the following paper :—

No. 23. Endorsement of the Chief Engineer for Irrigation, dated Chepauk, 19th November 1881, No. 52 E.W.

From the late Superintendent of Works, Godáviri, dated 21st July 1881, No. 1050.

From the late Superintendent of Works, Godáviri, dated 1st September 1881, No. 1382.

FORWARDED to the Chief Engineer, Public Works Department, for consideration and disposal.

2. These papers contain the views of the local officers as to the establishment required in the Godáviri District and the data on which the proposals are based.

3. The formation of an additional sub-division (Rajahmundry) in the Eastern Delta Division is considered to be essential. Even the emergent work rendered necessary by the cyclonic storm and rainfall of 1878, now three years ago, has not been nearly fully carried out, and it will not be practicable to attend to these outlying, and some of them important, Irrigation works without this additional sub-division.

4. The total cost of the establishments proposed will, even supposing the two divisions to be held by officers of higher rank than those whose salaries are entered in the statements, not exceed $1\frac{1}{2}$ lakhs, including conservancy establishment, and the percentages on works, outlay, and revenue will be considerably within those, viz., 20 per cent. for the former, and 4 per cent. for the latter, which have been deemed reasonable :—

	RS.
The works outlay is estimated at	4,95,693
The revenue due to irrigation at	18,22,523
And $17\frac{1}{2}$ per cent. on the works outlay would be	86,745
$3\frac{1}{2}$ per cent. on the revenue	63,787
Total	1,50,532

(Signed) JOHN MULLINS, Col., R.E.,
Chief Engineer for Irrigation.

No. 24. ORDER THEREON, 9th December 1881, No. 3054 W.

IN the endorsement recorded above the Chief Engineer for Irrigation recommends the formation of an additional sub-division* (Rajahmundry) in the Eastern Godáviri Division. The necessity for strengthening the hands of the Superintending Engineer is admitted, but it is not deemed advisable to permanently alter the scale of

* Present No. 3.

establishment so recently sanctioned. Further experience may show that it is practicable to provide the requisite establishment by rearrangement within the sanctioned scale, but meanwhile the number of sub-divisions of the Eastern Godáviri will be increased to four, the cost of the additional sub-divisional office establishment being met from the grant for temporary establishment.

2. It is understood that South Arcot also requires an additional sub-division, making the number up to two.

* Cost of two sub-divisional establishments at Rs. 31 = ...	Rs. 62	3. An appropriation of Rs. 183* is now made from the grant for temporary establishment to meet the additional cost sanctioned in these Proceedings during the remainder of the current official year.
For three months ...	186
