2. *Regular Estimate*, 1881-82.—The regular estimate for 1881-82 shows the Land-cess collections as Rs. 1,80,000 against Rs. 1,89,000 realized in 1880-81, and allows for nearly 20 per cent. of the year's demand being left uncollected at its close. This is rather a high percentage and might have been considerably reduced by a little more attention to the progress of collections. The increase under Endowment receipts is fully explained; but the nature of the works for which contributions were made is nowhere stated. Under Charges the outlay on Public Works, according to the regular estimate, is in excess of the budget provision by Rs. 42,399 owing to the subsequent allotments sanctioned by the Board of Revenue. The Road Fund reserve having been only Rs. 7,620 and the unallotted Road Fund balance in the budget having been *nil*, the Board's allotments must have been made either from the amount (Rs. 52,330) kept in reserve on account of the famine debt or from the increase in the opening balance of 1881-82. Either of these sources could be made available only by order of Government, the Board of Revenue being restricted by the rules to sanction allotments only from the reserve and unallotted balance of the budget. The provision for the Nazareth Orphanage should be revised with reference to G.O., 14th March 1882, No. 290, Financial.

3. *Budget Estimate*, 1882-83.—In the Budget Estimate of receipts for 1882-83, the Land-cess collections are estimated at 83·4 per cent. of the demand against 80 per cent. in 1881-82; but it is not clear why the current demand should be less than that of the latter year by Rs. 6,000.

	RS.
Current Demand for 1881-82 ..	1,76,991
Do. for 1882-83 ..	1,70,991

4. The provision for Public Works, Grant I, appears to have been carefully considered. The maintenance allotments for the roads have been revised with reference to the width of metal required for each road. The saving thus effected is proposed to be utilized towards the maintenance of twelve village roads at a cost of Rs. 845. The sum set apart in 1881-82 is repeated in the budget for payment on account of the famine debt. It is passed subject to orders on the general question of famine liabilities to be separately brought forward by the Board of Revenue.

5. The provision for Results Grants should be raised to Rs. 20,000 with reference to the remarks of the Director of Public Instruction. The Government await report on the two other important matters noticed by him, viz., the provision for Inspection and that for a Training School. The other items do no not call for remark except that a contribution of Rs. 215 should be inserted for the Nazareth Orphanage.

6. With these remarks the Right Honorable the Governor in Council passes the Budget Estimates of the Tinnevelly Local Fund Circle for 1882-83.

READ—the following letter from J. B. PENNINGTON, Esq., President of the Local Fund Boards, Tinnevelly, to the Secretary to the Board of Revenue, dated 27th May 1882, No. 68 :—

I have the honor to forward a revised list of roads passing along channel and tank banks and which are to be maintained by the Department of Public Works, and to request you will be good enough to obtain the sanction of the Board and arrange for placing the sum of Rs. 3,007 at the disposal of the Public Works Department.

2. The other roads which were referred to in the original list and were transferred to the Department of Public Works are now given up by the Executive Engineer as they are small bits of roads and can easily be managed by the Local Fund Engineering Department. So I have arranged with the Local Fund Engineer to maintain them in their usual course. I therefore request you will be good enough to obtain the formal sanction for their retransfer from the Department of Public Works and to order to correct the budget accordingly.

2. *Regular Estimate*, 1881-82.—The regular estimate for 1881-82 shows the Land-cess collections as Rs. 1,80,000 against Rs. 1,89,000 realized in 1880-81, and allows for nearly 20 per cent. of the year's demand being left uncollected at its close. This is rather a high percentage and might have been considerably reduced by a little more attention to the progress of collections. The increase under Endowment receipts is fully explained; but the nature of the works for which contributions were made is nowhere stated. Under Charges the outlay on Public Works, according to the regular estimate, is in excess of the budget provision by Rs. 42,399 owing to the subsequent allotments sanctioned by the Board of Revenue. The Road Fund reserve having been only Rs. 7,620 and the unallotted Road Fund balance in the budget having been *nil*, the Board's allotments must have been made either from the amount (Rs. 52,330) kept in reserve on account of the famine debt or from the increase in the opening balance of 1881-82. Either of these sources could be made available only by order of Government, the Board of Revenue being restricted by the rules to sanction allotments only from the reserve and unallotted balance of the budget. The provision for the Nazareth Orphanage should be revised with reference to G.O., 14th March 1882, No. 290, Financial.

3. *Budget Estimate*, 1882-83.—In the Budget Estimate of receipts for 1882-83, the Land-cess collections are estimated at 83·4 per cent. of the demand against 80 per cent. in 1881-82; but it is not clear why the current demand should be less than that of the latter year by Rs. 6,000.

	RS.
Current Demand for 1881-82 ..	1,76,991
Do. for 1882-83 ..	1,70,991

4. The provision for Public Works, Grant I, appears to have been carefully considered. The maintenance allotments for the roads have been revised with reference to the width of metal required for each road. The saving thus effected is proposed to be utilized towards the maintenance of twelve village roads at a cost of Rs. 845. The sum set apart in 1881-82 is repeated in the budget for payment on account of the famine debt. It is passed subject to orders on the general question of famine liabilities to be separately brought forward by the Board of Revenue.

5. The provision for Results Grants should be raised to Rs. 20,000 with reference to the remarks of the Director of Public Instruction. The Government await report on the two other important matters noticed by him, viz., the provision for Inspection and that for a Training School. The other items do no not call for remark except that a contribution of Rs. 215 should be inserted for the Nazareth Orphanage.

6. With these remarks the Right Honorable the Governor in Council passes the Budget Estimates of the Tinnevelly Local Fund Circle for 1882-83.

READ—the following letter from J. B. PENNINGTON, Esq., President of the Local Fund Boards, Tinnevelly, to the Secretary to the Board of Revenue, dated 27th May 1882, No. 68 :—

I have the honor to forward a revised list of roads passing along channel and tank banks and which are to be maintained by the Department of Public Works, and to request you will be good enough to obtain the sanction of the Board and arrange for placing the sum of Rs. 3,007 at the disposal of the Public Works Department.

2. The other roads which were referred to in the original list and were transferred to the Department of Public Works are now given up by the Executive Engineer as they are small bits of roads and can easily be managed by the Local Fund Engineering Department. So I have arranged with the Local Fund Engineer to maintain them in their usual course. I therefore request you will be good enough to obtain the formal sanction for their retransfer from the Department of Public Works and to order to correct the budget accordingly.
