From The Executive Engineer
Layone Du

To The Superintending Engineer
6th Circle

Sir,

In reply to your endorsement
N^o $\frac{292-T.J.}{5-8-82}$, on Chief Engineer's Memo
N^o $\frac{1456.C}{2-8-82}$ herewith returned, I have
the honor to inform you that the
reason why the course prescribed
in the Code was not followed appears
to have been due to an oversight,
as my predecessor in his letter N^o
 $\frac{1845}{4-7-82}$ when reporting the matter to
you states "I would have reported
the matter earlier, but on some mis-
-understanding that it had been re-
-ported already, I lost sight of the matter."

As the work in this office is,
as

As you are aware, very heavy, I
trust that this ^{and} explanation may be accepted.

I have recd.
