READ—the following paper:—

From Colonel H. D. CLOETE, Officiating Inspector-General of Police, to the Chief Secretary to Government, dated Madras, 28th July 1882, No. 3832.

With reference to G.O., dated 30th November 1881, No. 2464, Judicial Department, sanctioning Colonel Hearn's proposal that the four Station-houses and forty-four huts required for the Police in South-East Wynaad should be built of wood, and calling for a revised estimate accordingly, I have the honor to report that the Superintendent of Police, Coimbatore, consulted the Local Fund Engineer, Nilgiri District, and has procured from him approximate estimates of the cost of the proposed buildings varying according to the materials to be used as specified below:—

	RS.
1. Walls, brick-in-chunam. Teak timber throughout iron covered with tiles	8,100
2. Walls and roof, jungle-wood. Roof as in Colonel Hearn)	34,760
3. Walls, brick-in-clay. Teak timber throughout	47,100
4. Walls, brick-in-clay. Doors and window. Roof as in No. 1	36,900

2. An addition of about 20 per cent. for above estimates, but the figures as they stand cannot be recommended on the ground of economy. Hearn appears to have been misled by the information he received as to the supposed cost of Mr. Severn's house at Devallah of which the Local Fund Engineer, Mr. O'Shaughnessy, states "that if all the labor and materials spent upon it were charged directly to it the bill would amount to thousands instead of hundreds of rupees."

3. Under these circumstances, I have the honor to request that the Government will reconsider their decision, and permit me to obtain from the Public Works Department detailed estimates for buildings of brick-in-clay pointed with chunam and plastered, with teak timber throughout and roofed with corrugated iron covered with tiles.
