Military Works.

No. 22.

READ—the following paper:—

No. 341.

REPORT on the accompanying estimate of Rs. 1,822 for reconstructing the Masonry Drain of the married quarters at Wellington in the new Nilgiri Division.

This estimate was prepared in February last in lieu of one that was sanctioned ten years ago in G.O., No. 1748, dated 23rd July 1872, amounting to Rs. 860.

The work has been entered in the schedule of Imperial Military Works circulated with G.O., No. 2292 W., dated 16th September 1881.

2. The section of the drain and estimate have met the approval of His Excellency the Commander-in-Chief, but he remarked as follows:—"The amount seems to be very high especially as the necessity for the work is caused apparently by a want of care in original construction, and requests to be informed whether the estimate cannot be reduced."

3. On receipt of the above the Executive Engineer reported in his letter No. 1 of 28th July 1882, that the estimate in question cannot be reduced as the drain is very bad, and having a very slight fall it requires constant attention to keep it in any thing like order, the cut-stones of which it is formed only rest on the earth with no cementing material, so that through constant leakage earth round the drain is soaked with filth. I therefore consider it necessary to reconstruct the drain of 1,116 feet long with a bed of concrete 6 inches thick below masonry and 9 inches at each side of the side walls of the drain, giving with proper fall of 1 in 300 as shown in the accompanying section. The estimate of Rs. 1,822 should be sanctioned, and funds allotted as early as possible.

4. The Executive Engineer has been ordered to proceed with the work in anticipation of sanction to the estimate.

Married Quarters at Wellington.

Estimate amounting to Rs. 1,822 for
Masonry Drains to the —, sanctioned with
remarks.

Public Works Department, 1882-83.

Current No. 5585.

Letter No. 341.

Dated the 15th August 1882.

From the Supg Engr. Fourth Circle.

NOTE OF REMARKS.

The Estimate with Plan,
Report & specification for R.
Constructing the masonry
Drains of the Married Quarters
at Wellington. Nilgiri Division.
Amounts to Rs. 1822.

The Estimate now submitted
was prepared in February last
in lieu of one that was con-
tained in G.O. No 1748 of 23rd July
1872. Amtg to Rs. 860.

The Supg Engr. in his letter
quoted above. Explains the Cause
of the excess of Rs 962 over the
Original Estimate.

The Pabis Entered more or
less agree with the District
Schedule.

The Work has been ordered
to be proceeded with in Antici-
pation of sanction to the Es-
timate.

The Estimate has been
approved of by His Excellency
the Commander-in-Chief &
Counter-signed by the Offs. D.
Mr. Jnl. Madasa.

Report on the accompanying
Enclosures 2 estimate of Rs 1822 for reconstructing
the masonry Drain of the Married
1 Plan & Quarters at Wellington in the new
1 Estimate Nilgiri Division.

This estimate was prepared in
February last in lieu of one that was
sanctioned 10 years ago in G. O. No 1748
dated 23rd July 1872 amounting to
Rs 860 the work has been entered
in the schedule of Imperial Military
works circulated with G. O. No 22720
dated 16th September 1881.

2. The section of the drain and
estimate have been met with the
approval of His Excellency the
Commander-in-Chief but he remarked
as follows:—the amount seems to
be very high especially as the necessity
for the work is caused apparently by
a want of care in original construction,
and requests to be informed whether
the estimate cannot be reduced."

Om

3. On receipt of the above the Executive Engineer reported in his letter No. 1 of 28th July 1822 that the estimate in question cannot be reduced as the drain is very bad and having a very slight fall, it requires constant attention to keep it any thing like order; the cut stones of which it is formed only rest on the earth with no cementing material so that through constant leakage earth round the drain is soaked with filth. I therefore consider it necessary to reconstruct the drain of 1116 feet long with a bed of concrete 6 inches thick below masonry and 9 inches at each side of the side walls of the drain giving with proper fall of 1 in 300 as shown in the accompanying section; the estimate of Rs 1822 should be sanctioned and funds allotted as early as possible.
