No. 322.

NOTES of Inspection by the Superintending Engineer, Fourth Circle, for the month of August 1882.

*North Arcot District, North Arcot Division, North Sub-Division, Wálaipet Taluk, Wálaipet Cutcherry.*—This work has only just been begun, the old houses on the site are being removed and the foundations are nearly excavated, the soil at a depth of 7th August 1882.

6 feet below present debris is good gravel, but in places there is made earth. Care must be taken that good foundations are laid not less than 9 inches out in the solid gravel. The present level of the ground must be lowered at least 2 feet; it is believed that this can be done with no expense as the people will gladly take away the debris. Bricks for more than half the foundations are reported ready; there should be no difficulty in completing the foundations before the north-east monsoon.

2. The plans allow for a new Registration Office to be built upstairs. I find there is a very good Registration Office already existing. Reference to the Registrar-General will be made as to whether this new office is required or not.

G.O., dated 5th September 1882, No. 879, Judicial.

Read—the following letter from G. HAMNETT, Esq., Inspector-General of Registration, to the Chief Secretary to Government, dated Madras, 29th August 1882, No. 1912:—

With reference to endorsement No. 791, dated the 21st August instant, herewith returned, I have the honor to state that the Sub-Registry office at Wálaipet

consists of two rooms, one of 20' x 16' and the other of 20' x 8', giving an area of 480 square feet against 504 in the standard design.

2. This accommodation is sufficient if the following additions are made, viz.:—

- (a) a verandah as in the standard design,
- (b) weather-boards over the window; and,
- (c) the flooring paved with granite slabs.

Order—dated 5th September 1882, No. 879, Judicial.

Transferred to the Public Works Department, with reference to endorsement in that Department, dated 16th August 1882, No. 587 (returned).

(By Order.)
