From the Officiating Quartermaster-General, to the Secretary to Government,
Public Works Department, dated Ootacamund, 12th October 1882, No. 1189.
—(Through Military Department.)

With reference to the Orders of the Government of India, embodied in Proceedings of Madras Government, Public Works Department, No. 758 E., dated 15th September 1882, to the effect that all works entered as not commenced in the Madras Military Works Budget for the current year and which have not been begun nor actually contracted for be held in abeyance until further orders, with a view to its being ascertained what amount can be relinquished on this account, I have the honor, by order of the Commander-in-Chief, to request a reference to the orders as per margin,† in which funds have been re-allotted to the extent of Rs. 21,500 for constructing stables for a Field Battery at Bellary, and the collection of materials for the work ordered to be taken in hand at once.

Do. No. 1610 W. (Military Department, No. 3457), dated 27th June 1882.

2. His Excellency is not aware whether this work has been contracted for or not, but, being anxious that it should be carried out as soon as possible, he hopes that as the provision of the sum mentioned has been already sanctioned, Government will make an effort to get it provided from the current year's budget.

P.S.—It is understood that the Public Works Department was collecting materials for the above work, but that it has since ceased to do so owing to the supposition that the work would not be proceeded with. The present proposals for the construction of stables being a corrugated iron roof with stone-pillars, it is probable that some change in the description of material generally will be necessary, but whether it will affect those to be erected at Bellary will be best known to the Public Works Department.
