No. 144.

READ—the following letter from Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 31st August 1882, No. 2013 :—

With reference to G.O., No. 1306 W., dated 21st May 1881, I have the honor to forward plans and estimate of Rs. 9,386 for constructing a revetted bank on the north side of the river bar at Cuddalore, to prevent the bar from shifting northwards. The Master Attendant, to whom the plans and estimate were sent for approval, writes, "considering the limited

resources of the Port Fund at Cuddalore and that the whole of the expenses of the port have to be borne by it, it is deemed advisable, before incurring so large an expenditure as Rs. 9,386 to fix the bar at Cuddalore, to wait and see whether any benefit is derived from dredging a channel to the Custom-house." As there is no pressing need of the stone revetment, I think the work may be deferred till the result of the dredging is seen.

No. 145.

ORDER—dated 18th September 1882, No. 2422 W., Public Works.

The work will accordingly be deferred as proposed.
