20TH SEPTEMBER 1882, No. 2439 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

No. 156.

READ—the following letter from G. T. WALCH, Esq., Officiating Superintending Engineer, First Circle, on Special Duty, to the Chief Engineer for Irrigation, dated Camp, Cuddapah, 1st September 1882, No. 31:—

In accordance with instructions in paragraph 7 of G.O., No. 448 I., dated 6th June 1882, the working of the navigation of the Kurnool Canal is being carried on by the canal officers as heretofore, and in G.O., No. 582 I., dated 27th July 1882, sanction was given to the arrangements which I proposed.

2. As when the transfer to Government took place the canal was rapidly filling with water and, relying on the advertised notice that traffic was about to be resumed, shippers had already commenced to bring goods to the canal stations, no time could be lost in the appointment of the different station-masters and navigation subordinates, indeed in a few cases they had been necessarily appointed before the date of transfer.

3. The appointments are all of course temporary, merely for the navigation season, and it was quite out of all possibility getting for them men who had passed the Uncovenanted and other examinations; the men who were appointed were in almost all cases men who had done the work well in last year.

4. The Examiner of Public Works now enters in his disallowance list the whole of the Inspectors, Station-masters, and Clerks, and calls for reference to the "Gazette declaring these men to have passed the General Test and other examinations qualifying them to the post, and state the appointments held by them previous to joining their present appointments," and I would ask that orders may be issued to him to withdraw the objection and not again make it.

5. I have already in my letter No. 25 E.I., dated 17th ultimo, about employment of S. Ponnarungam Moodelliar, asked that similar orders may be issued with reference to all appointments to temporarily fill vacancies in the establishments of this division till 6th January, for I foresaw the waste of time and labor and the annoyance that would otherwise be caused by the inevitable flood of "objectionable item" statements. It is certain that if the Examiner allows this division during the present transition period to be treated as regards accounts and forms as rigidly as is the case with other divisions, trouble will be heaped on trouble, whilst a little judicious elasticity would smooth the way and by no means retard the eventual complete introduction of the new system.

6. In the "detail of navigation establishment" sanctioned in G.O., No. 582 I., the rates put down for station-masters and others were, as always before, the average rates, but in actual working it is advisable to give salaries which vary according to the importance of the stations, to this the Examiner objects, but I trust he may be instructed not to do so provided for that the total sums paid per mensem the different grades or classes do not exceed the sums* entered in this sanctioned scale.

P1
Superintending Engineer's Office
P. Single, on special duty
No. 21. Camp, Madras.
1st September 1882

From
The Offg Superintending Engineer
P. Single, on special duty
To The Chief Engineer
for Irrigation
Chennai.

Madras.

In accordance with
instructions in P. S. of
G. O. No. 448 S, dated 6
June 1882, the working of
the Navigation of the
Kurnool Canal is being
carried on by the Canal
Officers as heretofore and
in G. O. No. 682 S, dated
24th July 1882, sanction
was given to the arrange-
ments which I proposed.

2. As when the transfer
to Government took place
the Canal was rapidly
filling with water and,
relying on the advertised
notice that traffic was
about to be resumed, shippers
had already commenced to
bring goods to the Canal
stations, no time could be
lost in the appointment of
the different Station Masters
and Navigation Subordinates,
indeed in a few cases they
had

had been necessarily appointed before the date of transfer.

3. The appointments are all of course temporary, merely for the navigation season, and it was quite out of all probability getting for them men who had passed the Unconvinced and other examinations. The men who were appointed were in almost all cases men who had done the work well in last year.

4. The Examiner of Public Works now enters in his disallowance list the whole of the Inspectors, Station Masters and Clerks and calls for reference to the Gazette declaring these men to have passed the General Test and other examinations qualifying them to the post and state the appointments held by them previous to joining their present appointments and I would ask that orders may be issued to him to withdraw the objection and not again make it.

5. I have already in my letter No. 25 dated 17th Ult^o about employment of S. Ponnarungam & Mordy

x not at hand to report to

vide No. 94 500 transferred to E.W. with endorsement No. 41. E.W. 27
