No. 199-A.

From Lieutenant-Colonel W. H. BURTON, R.E., Officiating Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 2nd June 1882, No. 771.

With reference to G.O., No. 1831 W., dated 26th July 1881, I have the honor

- 1 Original Plan of the lower-storey with revised section.
- 1 Plan of upper-storey.
- 1 Detail and Abstract Estimate.
- 1 Report.
- 1 Specification with a tracing of the iron girder.
- 1 Comparative Statement.
- 1 Detached Abstract Estimate.

to forward plans and revised estimate with comparative statement amounting to Rs. 53,341, for the construction of Agricultural College at Saidápet including two upper-rooms for the office of the Superintendent.

2. In returning the plan and estimate countersigned, the Superintendent remarks that "the estimate does not provide for the erection of the tower which formed a part of the original sanctioned design, and that G.O., No. 1831 W., dated 26th July 1881, calls for estimates for the completion of the whole building." His remark is not understood, as it is clear to me by G.O., No. 1831 W., of 26th July 1881, that only two upper-rooms are intended to be provided.

3. The total amount of the revised estimate, viz., Rs. 53,341, is made up as follows:—

Amount of estimate sanctioned in G.O., No. 1180 W., dated 10th May 1881	Rs.
Public Works supervision and Tools and Plant	32,190
Cost of out-houses sanctioned in G.O., No. 1947 W., dated 8th August 1881	8,850
Cost of two upper-rooms	1,141
Additional outlay consequent on the use of iron girders for the lecture hall instead of wooden beams	12,040
Excess on certain items	1,084
	1,125
	56,430
Deduct savings on other items.	3,089
Amount of Estimate	53,341

4. The existing roof of the lecture hall which has proved defective, owing to the small bearing given to the joists over the iron girders, will be taken down and rebuilt with new joists of greater scantling and length, placed as proposed in inspection note No. 764, dated 15th April 1882. It has been arranged to have this work carried out by the contractor for the construction of the upper-rooms free of extra cost, hence no provision has been made in the estimate for this item.

No. 252 E.

MEMORANDUM.

Referred, in continuation of this office memorandum No. 879 C., dated 19th April 1882, to the Revenue Department for decision whether the estimate may be sanctioned as it stands, or whether, with advertence to G.O., Revenue, No. 268, dated 7th March 1882, the completion of the entire upper-storey is desired.

2. The total of the present estimate is Rs. 42,023, exclusive of charges on account of establishment and tools and plant. Of this sum Rs. 31,928 was expended to the end of the last official year, leaving Rs. 10,095 as outlay to be incurred during the current year. Including charges on account of establishment at 23 per cent. (Rs. 2,322) and tools and plant at $1\frac{1}{2}$ per cent. (Rs. 151) the total amount to be provided from the Cattle Pound Fund would be Rs. 12,568. If it be decided that

the whole upper-storey shall be completed, the additional cost, as already reported by the Superintending Engineer, would be approximately Rs. 14,000, to which would be added the usual percentages account of establishment and tools and plant.

 to forward Plans and Revised
 Estimate with Comparative State-
 ment for the construction of Agricultural
 College at Saidapet including two

 Superintendent.

On returning the Plans and
 Estimate countersigned, the
 Superintendent remarks that
 "the Estimate does not provide
 for the erection of the Tower which
 formed

"formed a part of the original
 "sanctioned design and that G. O.
 "No 1831 of dated 26 July 1881 calls for
 "estimates for the completion of the

 not understood, as it is clear to me
 by G. O. No 1831 of 26 July 1881,
 that only two upper rooms were in-
 tended to be provided.

3. The total amount of the revised
 estimate viz: Rs. 53,341 is made up
 as follows.

Amount of Estimate sanctioned in G.O. No. 1180 of dated 10 May 1881	32,190

 of greater scantling and length
 placed as proposed in Inspection
 Note No 764 dated 15 April 1882. It
 has been arranged to have this work

 construction of the upper rooms free

 has been made in the estimate for
