for the staff, who are five in number, and for office records, work having increased since April last. With a view to enlarge the room, I asked the Superintending Engineer to furnish me with a plan and

estimate, and he has accordingly sent the accompanying estimate and plan, proposing to terrace the roof and widen the room by $9\frac{3}{4}$ feet, which will give good accommodation. The estimate amounts to Rs. 1,160 and does not therefore come under "Petty Construction and Repairs" now in charge of Revenue Department.

2. The Superintending Engineer has expressed his inability to carry out the work in his Department as he has no funds at his disposal. As the proposed addition is an urgent necessity under the existing circumstances, I have the honor to request that the Board will be pleased to obtain the sanction of Government in view to the work being carried out this year.
