Order—dated 3rd May 1882, Judicial.

The Department of Public Works is requested to state approximately what saving would be effected by providing the necessary accommodation for the Sub-Registrar under the roof of the Taluk Cutcherry, proposed to be built in place of erecting a separate Registration Office.

(By Order.)

No. 66 E.

Referred to the Superintending Engineer, Sixth Circle, for report.

4th May 1882.

(Signed) R. H. SANKEY, Colonel, R.E.,
Secretary to Govt., P.W.D.

From Colonel J. BEATTY, R.E., Superintending Engineer, Sixth Circle, to the Chief Engineer, Public Works Department, dated Palamcottah, 14th September 1882, No. 530 T.C.

With reference to your No. 66 E., of 4th May 1882, I have the honor to report that if the Sub-Registry Office be built in accordance with the standard design, under the same roof as the Taluk Cutcherry, it would occupy a space of 1,113 square feet, and if it be a separate building on the standard plan it would only cover a space of 684 square feet. The Executive Engineer estimates the additional cost by enlarging the Taluk Cutcherry at Rs. 3,300, and the cost of a separate building at Rs. 3,000. It will therefore be cheaper to have a separate building as desired by the Inspector-General of Registration.

No. 785 E.

Transferred to the Judicial Department and the referred papers returned.

The Superintending Engineer, C.E.
Trichinopoly

Sir,

In reference to your No. 14332 dated
No. 14332 (returned herewith) calling for a
report as to what saving there would be
by providing the necessary accommodation
for the Sub Registrar under the roof of the
Taluk Cutchery proposed to be built at
Perambalur, I have the honor to inform
you that instead of a saving the proposal
will cost 300 Rs. more.

2. The approximate cost of building the
Sub Registrar's Office under the roof of the Taluk
Cutchery is Rs. 3500 and that of building it
separately is Rs. 3000. The excess cost of the former
is due to additional superficial feet of accommoda-
tion that has to be given unavoidably by building

the Sub Registrar's Office under the roof of the
Tahung Butcher.

3. The particulars of accommodation as
per 2 plans are herein noticed for your
information.

(1) Under the roof of the
Tahung Butcher. (2) As per standard
plan.

Room	$20 \times 18 = 360$	$24 \times 12 = 288$
	$12 \times 18 = 216 = 576$	$24 \times 9 = 216 = 576$
Verandah	$59\frac{1}{2} \times 6 = 537$	$27\frac{1}{2} \times 6\frac{1}{2} = 180$
Total Supt. feet	1113.	654.

Sir,

With reference to your
indentment No 236 T.C. of the
10th Inst. hnt. herewith returned,
I have the honor to state that
one of the rooms attached to
the Tahung Butcher at Peram-
balur has to be 20×18 in ac-
cordance with the standard
design -

The measurement of the
Verandah is $59\frac{1}{2} \times 6 = 537$. By
mistake $9\frac{1}{2}$ has been copied
instead of $59\frac{1}{2}$.

Sir,

The Registrar of Trichinopoly reports
"that arrangements are being made to
construct a new building for the Office
of the Tahsildar of Perambalur in
this district," and requests that "a set
of rooms" be attached to the new
building for the Sub-Registrar.

2. I am in correspondence with the
Collector of the District for transferring
the registration work at Perambalur
from

from the ex-officio Sub-Registrar
to a special officer. Upon this trans-
fer taking place it would, for many
reasons, be better to have a separate
building on the Standard design,
for the Sub-Registry Office, and
I have the honor to request that
you will be pleased to obtain
the sanction of Government for the
construction of a separate office
close to the Taluk Cutcherry.
