Extract, paragraphs 1 and 3, from a letter from the Secretary to the Government of India, Home Department, to the Secretary to the Government of Bombay, dated Simla, 8th September 1882, No. 388.

I am directed to acknowledge the receipt of your letter, No. 4508, dated the 24th July 1882, recommending that who returned from furlough on the 7th July 1882, and was appointed by the Bombay Government to act as the 25th idem, during the absence on privilege leave of should be allowed to draw full pay during the interval between the expiry of his subsidiary leave on the 16th of the same month, and the date on which he took charge of his new appointment.

On the case generally the Governor-General in Council desires to remark that an officer on return from furlough cannot be held to be entitled to claim that the Government shall at once provide him with a suitable appointment. In such cases the public convenience must be consulted, and the officer concerned must, if necessary, submit to such delay as may be required in the interests of the public service. If, for instance, it is possible to avoid the inconvenience of a transfer by requiring the officer to wait a reasonable time for some appointment which is about to fall vacant, it appears to the Governor-General in Council that the Government is fully entitled to require him so to wait, the subsidiary leave of the officer concerned being, if necessary, extended, subject to the limitations prescribed by the rules.

From the Hon. V. RAMIENGAR, c.s.i., Inspector-General of Registration, to the Acting Chief Secretary to Government, dated Pullampet, 25th November 1879, No. 282.

The annual supply of Chubb's patent cupboard locks required for the use of this department has hitherto been obtained on indent from England through the India Office. But, as under G.O., 9th December 1878, No. 2179, it is now necessary to procure it by local purchase or direct from the manufacturers without the intervention of the Store Department of the India Office, I addressed Messrs. Chubb and Son, inquiring whether they would supply the

gul who made locks of a superior kind. I have since ascertained, as you will see from the accompanying papers, that this Smith, named A. Sankaralingam Achari, is willing to make and supply the number of locks annually required by this department, at the rate of 6 rupees a piece. The price demanded by Chubb and Son is 12s. each, but this is "for delivery in London only, exclusive of the cost of packing, freight or any transit expenses," and exclusive, of course, of the loss by exchange.

2. I send a specimen lock with duplicate keys made by Sankaralingam at my request for the inspection of Government. It seems to me that it will answer our purpose quite as well as the locks obtained from England, and as it is cheaper, I am willing to let him have a trial. The terms on which he is prepared to undertake the supply are—

- (1) That one-fourth of the total price of the locks required each year should be paid to him in advance.
- (2) That the balance should be paid on delivery of the locks.
- (3) That he should be allowed a period of six months in the first year and four months in every subsequent year for delivering the locks.

No. 2313.

Referred, through the Chief Engineer, to the Superintendent, Public Works Workshop, for his opinion, whether the lock, as per pattern, is substantial and worth the price asked for.

From Lieutenant W. L. C. BADDELEY, R.E., Acting General Superintendent, Presidency Public Works Workshops, to the Deputy Chief Engineer, Public Works Department, dated Madras, 6th December 1879, No. 3610 W.

With reference to your Memorandum, No. 3669, dated 4th instant, I have the honor to state that the lock is of first-class make and finish.

2. I do not think the man will be able to supply locks of this quality at Rs. 6 each.
