## GOVERNMENT OF MADRAS.

## PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

No. 7[illegible]

Read—the following papers :—

Circular from the Government of India, Public Works Department (Military Works), dated Simla, 13th November 1879, No. 78 P.W. :—

The following rules for the annual inspection of fortified places, having been approved by the Government of India in the Military Department, are circulated to the Local Governments, Administrations and officers noted in the margin for information and guidance. Also to the Foreign Department for communication to the Chief Commissioner of Mysore and Coorg.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department.
The Chief Commissioners, Central Provinces, British Burma and Assam.
The Resident at Hyderabad.
The Agents to the Governor-General for Central India and Rajputana.
The Superintendent of Port Blair and Chief Commissioner, Andaman and Nicobar Islands.
The Accountant-General, Public Works Department.
The Inspector-General of Military Works.

(By Order.)

(Signed) G. F. L. MARSHALL, Captain, R.E.,
Asst. Secy. to the Govt. of India.

### Enclosure.

*Rules for the inspection of fortified places.*

The General Officer Commanding a division, a district or a brigade, and under him the Officer Commanding the station or garrison or fort as the General Officer may direct, is held responsible for the condition of the forts situated within his command. Annual inspections of fortified places will be held under the following regulations :—

*Rule I.*—The senior officer of Royal Artillery of the station (not being the Officer Commanding the Royal Artillery of divirion or district) and the Executive Engineer of the division (if a Royal Engineer, and, if not, a Royal Engineer deputed by the Superintending Engineer) in which the fort lies will each make an annual inspection as soon after 1st January as may suit his convenience. The reports of the Royal Artillery officers (on the armament) will be submitted to the Officer Commanding the Royal Artillery of the division or district, and that of the Executive Engineer (on the defences) will be submitted to the Superintending Engineer, if a Royal Engineer; both reports for transmission to the General Officer Commanding the division or district with such remarks as may be considered necessary.

*Rule II.*—The report of the Royal Artillery Officer will relate only to the armament, and will describe the condition of the guns, ammunition, platforms, embrasures, &c.

The annual report of the Royal Engineer Officer will treat only of the defensive work and buildings, and will be in two parts.

Part I will consist of a plan and sections through the most important parts of the work on suitable scales. Upon the plan will be given in a tabular form the following information :—

Details of armament.
Capacity and identification of the magazines.
Cubical contents of stores and tanks.
Accommodation of barracks and casemates, with the cubical and superficial space per man.

All underground drains are to be indicated, and every detail the knowledge of which is likely to be useful should be shown.

Part II will contain a detailed description of every part of the defences in consecutive order, a statement of work in progress on the defences, and of work considered necessary, and an approximate estimate of the money required for their completion.

To avoid the cost and labor of preparing the plan and detailed description of the defences every year, the plan should be lithographed or photozincographed and the description of the defences printed. The local Executive Engineer will be responsible that the copy of the plan accompanying the Annual Report is corrected up to date, and includes all additions to, or alterations of, the defences made up to within one month of the annual inspection.

*Rule III.*—The above-described reports should be submitted to the General Commanding the division or district not later than 15th February. He will examine them, and then not later than 15th March arrange to inspect the fort or forts, accompanied by the Officer Commanding Royal Artillery of the division or district, by the Superintending Engineer of the Command (if a Royal Engineer, if not, by a senior officer of Royal Engineers deputed by the Superintending Engineer), and by the Deputy Quartermaster-General of the division or district, and the reports and proposals contained therein will be thoroughly considered on the spot.

*Rule IV.*—A report embodying those described in Rule II and also the results of the General Officer's inspection, will then be drawn up in the office of the Deputy Quartermaster-General of the division or district, and submitted not later than 1st April to the Quartermaster-General for the consideration and orders of the Commander-in-Chief and ultimate submission to the Government of India. This report will be signed by the General Commanding, and also by the Artillery and Engineer officers who accompanied him on his inspection. These two officers may, if they think it necessary, append to the report their opinions when they differ from those contained in the report.

*Rule V.*—After the report of the General Officer has been despatched to Army Head-quarters, the original reports submitted under Rule I will be returned to the officers who sent them in; that of the Royal Engineer officer will be transmitted to the Executive Engineer of the division in which the fort lies, and will be in his office for reference.

*Rule VI.*—The officers in whose charge the plans of fortifications remain are held responsible for their safe custody and due preservation. They will also be responsible that no unauthorised person has access to, or means of knowledge concerning, them.

*Rule VII.*—In the case of forts in charge of the civil authorities, they shall be subject to supervision by the Inspector-General of Military Works, or by the Superintending Engineers of the Commands in which they are situated, the reports being submitted for the information of the Commander-in-Chief and of Government.

Sir

With reference to your No 52 dated 7th January 1880. I have the honor to request that you will favor me with the names of all the Forts of which plans are required in Memo No 710 of 20th December 1879 from the Secretary to Government Military Department.

It is believed that suitable plans of Fort St George and St Bangalore Fort are in the hands of the D.P.W. and it is probable that other plans of fortified places may exist.
