8TH MAY 1882, No. 1164 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

No. 50.

READ—the following letter from Major J. PENNYCUICK, R.E., Superintending Engineer, Third Circle, to the Chief Engineer, Public Works Department, (through Chief Engineer for Irrigation), dated Bellary, 25th April 1882, No. 131:—

With reference to Colonel Mullins' Memorandum, No. 5 M.D., of 29th July 1881, directing me to undertake the revision of the designs and estimates for the Perryaur Project, I have the honor to state that, although I have had the papers by me for nearly eight months, I have been able to do next to nothing towards the completion of the work.

2. You will remember that in former notes on the subject I said that I did not think it possible for me to work out this project as long as I had current work to attend to, and experience has shown that this opinion was correct.

3. I think that, if I could be relieved of other work for three months, I could submit the papers required in a complete form, and would suggest that this course be adopted.

4. Mr. Nordmann (if no other officer be available) could, I think, take charge of the Circle during my absence, and I should propose to hand over to him towards the end of May; Mr. Garrett, who is about to proceed on privilege leave, will return in the first week of June and might take charge of the Bellary Division, Mr. Nordmann retaining charge of it, in addition to the Circle office, during the few days that might elapse between my departure and Mr. Garrett's return.

5. Mr. Garrett has completed inquiries into, and submitted reports on, two projects (Roddum and Hindupur), and, while in charge of the Bellary Division, would gain information as to the wants and capabilities of the district which could not fail to be of use to him on resuming his regular work.

6. If these proposals be sanctioned I should propose to go to Bangalore while employed on the Perryaur work; it will, of course, be for Government to decide whether the journey will be considered as on duty or not.

7. As far as I can judge at present I shall require two Draftsmen, as there will be a large amount of drawing to be got through in a short time, and a Copyist who should be an intelligent man, as there will be a considerable mass of figures to be copied.

8. I therefore request permission to employ two First-class Draftsmen, a Clerk, IV. Class, 1st Grade, and two Messengers, for the whole of the three months, or for such portion of it as I may consider necessary, the total monthly cost being—

	RS.
1 Clerk	40
2 Draftsmen	100
2 Messengers	14
Total ...	154

8TH MAY 1882, No. 1164 W., PUBLIC WORKS.

9. I do not think it likely that the work will take more than the three months named, but if it should, I will devote to the completion of it the month's privilege leave to which I shall then be entitled.

No. 51.

ORDER—dated 8th May 1882, No. 1164 W., Public Works.

Major J. Pennycuik, R.E., Superintending Engineer, Third Circle, will be specially employed on the revision of the designs and estimates for the Perryaur Project, and will be authorised to entertain the temporary establishment specified below to aid him in the duty:—

1 Clerk on ...	...	...	...	...	...	...	...	RS.
2 Draftsmen on Rs. 50	...	...	...	...	...	...	...	40
2 Messengers on " 7	...	...	...	...	...	...	...	100
	...	...	...	...	...	...	...	14
Total ...								154

2. During the currency of the work, Major Pennycuik is authorised to establish his head-quarters at Bangalore, and to join that station and return to Bellary at the public expense.

3. The special duty is calculated to last for three months, and the temporary establishment will be engaged for this period. An appropriation of Rs. 462 to meet the cost is now made from the grant for temporary establishments.

4. During the absence of Major Pennycuik the office of the Superintending Engineer will be placed in charge of Mr. Nordmann, who will also hold the Bellary Division till relieved by Mr. Garrett on return from privilege leave.

5. The sanction accorded in paragraph 1 above is registered as Provincial No. 7 W of 1882-83 and classified as Establishment.

Bellary, 15th Sept. 1882.

From

THE SUPERINTENDING ENGINEER,

IIIrd CIRCLE,

To

THE Chief Engineer.
P. W. D.
Madras.

SIR,

Enclosures.

I have the honour respectfully to request that the fact of my having officiated as Superintending Engineer from the 30th May may be notified in the Fort St. George Gazette.

2. I also beg to ask whether any officiating allowance will be paid to me. I addressed the Examiner on the subject, who replied that "there are no vacancies in the Superintending Engineers class, to admit of your appointment as officiating Superintending Engineer, to enable you to draw any increased allowances." But perhaps the Government may be able to sanction such allowances from Savings under

Entd. in Receipt Reg.

"Establishment".

3. I held charge of three offices from the 30th May to the 24th July, namely, the Superintending Engineer's Office, the Bellary Executive Engineer's Office, and the C. Project Division Office. From the 24th July I held charge only of the Superintending Engineer's Office; but during the whole time I had, besides the ordinary departmental work, to attend to the Maps, Reports, Accounts &c in connection with my late Reconnoissance of the country between Vijayapatnam and Raipur. So that I really had bona fide extra work to do, and often had to work at night; in consideration of which I hope the Government will be pleased to grant me some extra allowance,

I have the honour to be
Your most obed^t servant

J. R. Montague

No. 1059.

Mr. Nordmann
 Requesting that Govt.
 will grant him some
 extra allowance for
 having officiated as Superin-
 tending Engineer

To W

H. M.'s suggestion.

Judging by rulings
 in analogous cases
 the Govt. of India
 would probably say
 that when Major
 Pennycook gave over
 charge of the Circle
 he was no longer
 Suptg. Engr. and
 thus reverted to his
 permanent grading
 of 1st grade. As
 such he was employed
 on special duty.
 And as an officer
 has no claim for
 extra remuneration
 for doing Govt. work,
 Major Pennycook
 would be entitled to
 no extra allowance.
 The H. M.'s object in
 referring the case
 would thus be defeated.

R. S.
 S. P.

I am sorry to
 hear of the
 ...

It will be seen from the
 annexed No. of 18th Aug
 1882 that Mr.
 Nordmann on being
 appointed to frame
 the Pennycook Project
 assumed charge of
 the Superintending
 Office 3rd Circle, but
 as the latter office was
 at the time officiating
 as Supt. Engineer &
 continued to draw the
 pay as such, no allowance
 was available to Mr.
 Nordmann

Mr. Nordmann - and
 represents his case
 there is no restriction
 with justice as to
 fact that he has
 did the whole duty
 of Superintending of the
 Circle throughout the
 Pennycook's absence

As I am afraid
there is no doubt that
this would be the view
taken by the S. P. I, there
is no other course
open than to adopt
the ruling at end of
the note by the H. C.
- Government regret that
they are precluded by
the rules &c.

Ally

6/10

Handwritten notes at top of right page, mostly illegible.

It will be seen from the
annexed S.O. of 18th Aug
1884 that Mr.
Nordmann on being
Pennycook's Special
Assistant to frame
the Pennycook Project
assumed charge of
the Superintending
Office 3rd Circle, but
as the latter office was
at the time officiating
as Superintending Engineer &
continued to draw the
pay as such, no allowance
was available to Mr.
Nordmann

Mr. Nordmann - and
represents his case &
there is no question
with justice as to the
fact that in practice
did the whole duty
of Superintending of the
3rd Circle throughout the
Pennycook's scheme

Entd. in Receipt Regd.
12/10

A reference to the
 Sd/ would I fear be
 more than useless as it
 is not altogether impossible
 that they might declare
 Mr. Nordmann and sub-
 Supt. Perrywick entitled
 to the allowances - This
 however would clearly be
 a great injustice (1) as
 Supt. Perrywick was
 specially selected to work
 up the Perryman project
 and no doubt worked
 even harder at it than
 probably he would have
 been called on to do if he
 had continued to act
 as Supt. Engineer, and
 (2) as to all intents &
 purposes he was guaranteed
 his allowances

On the whole I fear
 there is no other course
 open to me for Government
 to enforce their rule
 but the rule do not
 admit Mr. Nordmann
 having extra allowances
 while assisting as Supt.
 Engineer - He has
 lately been relieved by Supt.
 Perrywick

2/10 Altt

Could it not be pointed out
 to India that to enable Perry
 Wick to work up the Perryman
 project it was necessary to
 relieve him from his duties
 as Supt. Engineer and to
 put another officer in charge
 of the Circle and on the principle
 that the labourer is worthy
 of his hire ask for a special
 allowance for P. whilst engaged
 in investigation Perryman
 so as to set free the funds
 for a change allowance for
 the man who relieved him
 of the work of the Circle. I
 may suggest this but if
 Col. Sanderby thinks it is pro-
 posed to be rejected we
 must tell Nordmann
 that he can't have what
 he asks for.
