2. *Regular Estimate for* 1881-82.—The President's opening balance is Rs. 2,83,810, that being advised by the Accountant-General as the correct figure, after the submission of the annual report for 1880-81. The last column of the present budget shows, however, the actuals for 1880-81 according to that report. It should have been revised with reference to the latest advices from the Accountant-General. Had this been done, the difference of Rs. 7,124 shown between the closing balance of the actuals for 1880-81 and the opening balance of the regular estimate for 1881-82 would have been avoided. The increase of Rs. 1,67,350 in the opening balance of the regular estimate over the sanctioned budget is ascribed to increased receipts and short outlay on works in 1880-81. This should be more fully explained in the report for the year. The omission of the foot-note, showing particulars of Demand, Collection and Balance of Land-cess has been already noticed by the Board of Revenue and should not occur again. The variations of the regular estimate, compared with the sanctioned budget, are explained and duly noticed in the remarks passed by the Board of Revenue.

3. *Budget Estimate for* 1882-83.—The Land-cess demand for 1882-83 is taken at Rs. 1,76,000, and there is also a demand of Rs. 14,000 for arrears belonging to previous years. The estimated collections amount to 93 per cent. of the entire demand. The provision for new roads is far in advance of the regular estimate for 1881-82 and the actuals for 1880-81, ample funds being available for expenditure. Nearly twenty unsanctioned works have been provided for; no expenditure should be incurred on these until the estimates have been duly sanctioned.

4. The supervision of the Public Works Department will be confined to the roads on river embankments as proposed in the papers recorded in G.O., 5th January 1880, No. 23.

5. The revised scheme of Local Fund Engineering Establishment, providing for a separate Engineer for the circle and involving an additional cost of Rs. 8,080, is sanctioned as recommended by the Board of Revenue; but the Government observe that, in the opinion of the President, the scheme should be subject to further revision and settlement of details on a mature consideration of the wants of the two circles, Tanjore and Negapatam. The provision for Tools and Plant, at $2\frac{1}{2}$ per cent. on the outlay, is Rs. 4,940, not Rs. 5,200 as shown in the budget. The Road Fund share of the amount is Rs. 4,690. The refund of cess should be apportioned between the Road and General Fund as decided in Board's Proceedings, dated 14th April 1882, No. 1046.

6. The Government sanction the opening of an Elementary Normal School and the entertainment on its account of the establishment recommended by the Board of Revenue. Should the Local Fund Board agree with the Director, provision should be made for an additional Deputy Inspector of Schools. This will obviate the supposed necessity for an increase in the present Deputy Inspector's Office establishment. The increased provision for Local Fund Schools is satisfactory. The Board of Revenue do not notice the Director's recommendation regarding an additional teacher for the Mudikondan School.

7. The Revenue Board's revision of Grants III and IV is approved, and the increase of pay recommended for the Circle Board's Clerk and Attender is sanctioned.

8. With these remarks the Right Honorable the Governor in Council passes the Budget Estimate of the Negapatam Local Fund Circle for 1882-83.

RESOLUTION—dated 16th September 1882, No. 2302.

The Local Fund Budget of the Negapatam Circle for 1882-83 is herewith circulated to all officers concerned.

2. *Paragraphs* 3 *and* 4 *of the Government Order.*—The attention of the President is called to the remarks of Government contained in these paragraphs.

3. *Paragraph* 5 *of the Government Order.*—The Board beg to state that, as the provision for tools and plant required by the Local Fund Engineering Establishment is based on the actual requirements of the year and not upon a fixed percentage, and as the allotment provided therefor by the Circle Board did not much exceed the old Public Works rate of $2\frac{1}{2}$ per cent., it was considered undesirable to alter the figure entered in the original budget. It is also observed that Government have, in Government Order, Public Works Department, dated 5th June 1882, No. 1398, directed that the rate payable to the Public Works Department for tools and plant should in future be $1\frac{1}{2}$ per cent. of the outlay.

4. *Paragraph* 6 *of the Government Order.*—The President will report the views of the Circle Board on the points noticed by Government in this paragraph.

5. The total allotment for Communications is Rs. 1,87,630, of which Rs. 20,540 are to be expended by the Public Works Department. In Board's Proceedings, dated 5th May 1882, No. 1250, the Accountant-General was requested to place Rs. 20,426 at the disposal of the Public Works Department, pending final issue of the budget. He is now requested to place to their credit the difference—viz., Rs. 5,144—as shown below :—

2. *Regular Estimate for* 1881-82.—The President's opening balance is Rs. 2,83,810, that being advised by the Accountant-General as the correct figure, after the submission of the annual report for 1880-81. The last column of the present budget shows, however, the actuals for 1880-81 according to that report. It should have been revised with reference to the latest advices from the Accountant-General. Had this been done, the difference of Rs. 7,124 shown between the closing balance of the actuals for 1880-81 and the opening balance of the regular estimate for 1881-82 would have been avoided. The increase of Rs. 1,67,350 in the opening balance of the regular estimate over the sanctioned budget is ascribed to increased receipts and short outlay on works in 1880-81. This should be more fully explained in the report for the year. The omission of the foot-note, showing particulars of Demand, Collection and Balance of Land-cess has been already noticed by the Board of Revenue and should not occur again. The variations of the regular estimate, compared with the sanctioned budget, are explained and duly noticed in the remarks passed by the Board of Revenue.

3. *Budget Estimate for* 1882-83.—The Land-cess demand for 1882-83 is taken at Rs. 1,76,000, and there is also a demand of Rs. 14,000 for arrears belonging to previous years. The estimated collections amount to 93 per cent. of the entire demand. The provision for new roads is far in advance of the regular estimate for 1881-82 and the actuals for 1880-81, ample funds being available for expenditure. Nearly twenty unsanctioned works have been provided for; no expenditure should be incurred on these until the estimates have been duly sanctioned.

4. The supervision of the Public Works Department will be confined to the roads on river embankments as proposed in the papers recorded in G.O., 5th January 1880, No. 23.

5. The revised scheme of Local Fund Engineering Establishment, providing for a separate Engineer for the circle and involving an additional cost of Rs. 8,080, is sanctioned as recommended by the Board of Revenue; but the Government observe that, in the opinion of the President, the scheme should be subject to further revision and settlement of details on a mature consideration of the wants of the two circles, Tanjore and Negapatam. The provision for Tools and Plant, at 2½ per cent. on the outlay, is Rs. 4,940, not Rs. 5,200 as shown in the budget. The Road Fund share of the amount is Rs. 4,690. The refund of cess should be apportioned between the Road and General Fund as decided in Board's Proceedings, dated 14th April 1882, No. 1046.

6. The Government sanction the opening of an Elementary Normal School and the entertainment on its account of the establishment recommended by the Board of Revenue. Should the Local Fund Board agree with the Director, provision should be made for an additional Deputy Inspector of Schools. This will obviate the supposed necessity for an increase in the present Deputy Inspector's Office establishment. The increased provision for Local Fund Schools is satisfactory. The Board of Revenue do not notice the Director's recommendation regarding an additional teacher for the Mudikondan School.

7. The Revenue Board's revision of Grants III and IV is approved, and the increase of pay recommended for the Circle Board's Clerk and Attender is sanctioned.

8. With these remarks the Right Honorable the Governor in Council passes the Budget Estimate of the Negapatam Local Fund Circle for 1882-83.

RESOLUTION—dated 16th September 1882, No. 2302.

The Local Fund Budget of the Negapatam Circle for 1882-83 is herewith circulated to all officers concerned.

2. *Paragraphs* 3 *and* 4 *of the Government Order.*—The attention of the President is called to the remarks of Government contained in these paragraphs.

3. *Paragraph* 5 *of the Government Order.*—The Board beg to state that, as the provision for tools and plant required by the Local Fund Engineering Establishment is based on the actual requirements of the year and not upon a fixed percentage, and as the allotment provided therefor by the Circle Board did not much exceed the old Public Works rate of 2½ per cent., it was considered undesirable to alter the figure entered in the original budget. It is also observed that Government have, in Government Order, Public Works Department, dated 5th June 1882, No. 1398, directed that the rate payable to the Public Works Department for tools and plant should in future be 1½ per cent. of the outlay.

4. *Paragraph* 6 *of the Government Order.*—The President will report the views of the Circle Board on the points noticed by Government in this paragraph.

5. The total allotment for Communications is Rs. 1,87,630, of which Rs. 20,540 are to be expended by the Public Works Department. In Board's Proceedings, dated 5th May 1882, No. 1250, the Accountant-General was requested to place Rs. 20,426 at the disposal of the Public Works Department, pending final issue of the budget. He is now requested to place to their credit the difference—viz., Rs. 5,144—as shown below :—

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

Despatch from the Most Honorable the MARQUIS OF HARTINGTON, Her Majesty's Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India Office, London, 24th August 1882, Financial (Stores) No. 10.

My Despatch, Financial (Stores), dated 13th April 1882, paragraph 6, directed that "when it was considered advisable that stores which have been lost or damaged should be at once replaced, a special indent should be submitted, as otherwise steps will not be taken to re-supply such stores."

2. As some misconception regarding the object of this paragraph appears to have arisen, I have to explain that it was intended specially to deal with cases of loss, or damage detected after the arrival of the ship, which it was necessary to make good at once. But in all instances where, as in the recent case of the *Flamingo*, losses occurring on the voyage are known in this country, steps will at once be taken to replace the stores.

3. Should any loss, however, be reported in India, which may be thought not to be already within the knowledge of this office, a special indent should, when necessary, be submitted, care being taken to specify the reason of the fresh demand, in order that the possibility of a duplicate supply may be avoided.

ORDER—dated 28th September 1882, No. 1348, Financial.

Communicated to the Departments of the Secretariat and to Heads of Departments for information and guidance in continuation of G.O., dated 11th May 1882, No. 364.
