20TH OCTOBER 1882, No. 2740 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

No. 126.

READ—the following letter from Lieutenant-Colonel JOHN EWING, Officiating Quartermaster-General, to the Secretary to Government, Public Works Department, dated Ootacamund, 17th October 1882, No. 1222 :—

I have the honor, by order of the Commander-in-Chief, to forward the accompanying copy of letter * from the Officer Commanding Bangalore Division, and, with reference to it, to request that, as the work of shifting a stand-pipe at the north station hospital at Bangalore, from its present position where the waste causes much damp, to a site contiguous to a masonry drain which will carry off all overflow, is one the execution of which at an early date is most desirable, the necessary orders may be issued for the provision of the required funds as early as possible.

2. The "maintenance" grant to the Ulsoor Water Works not being a Public Works Department one, His Excellency thinks it should not be drawn upon for any extension of these works.

3. The other work mentioned, viz., that of laying on of water to a cook-room of the Cavalry Barracks at Agram, not being of an emergent nature, might be allowed to stand over until funds are available.

ENCLOSURE.

From Lieutenant-General W. PAYN, C.B., Commanding Bangalore Division, to the Quartermaster-General, Fort St. George, dated Bangalore, 7th October 1882, No. 443.

I have the honor to request that I may be informed by what department the cost of alteration or extension of the system of piping, in connection with the Ulsoor Water Supply, should be met.

Two instances of these necessities are now pending, viz. :—(1) the laying on water to a cook-room of the Cavalry Barracks at Agram, and (2) the shifting of a stand-pipe at the north station hospital, from its present position where the waste causes much damp, to a site contiguous to a masonry drain which will carry off all overflow.

The Executive Engineer states there are no funds with him to carry out these works, and suggests that they be charged to the "maintenance" allotment of the Ulsoor Water Works, which has a usual annual balance of some Rs. 3,000 unexpended.

No. 127.

ORDER—dated 20th October 1882, No. 2740 W., Public Works.

Communicated to the Superintending Engineer, Fifth Circle, who will arrange for the stand-pipe at the north station hospital being shifted as required, the work being done on emergency. Estimates will in due course be prepared for both works recommended by His Excellency the Commander-in-Chief.
