Rev. Board's Proc No 5831
submitting two estimates
for graveling roads.

To Dr. W.

For orders with
reference to para 2 of
the note by the Technical
Section.

In Ch. Engr's memo
No 2620 of 9.11.81, the opinion
was expressed that over
a layer of metal 6 inches
thick, a screening of not
more than 1 inch of gravel
is required.

The present estimates
provide for graveling
only to a depth of four
inches, & no ^{separate} provision
is made for metalling.
In such case it would
not apparently be desirable
to reduce the depth of gravel
to one inch.

Instructions solicited
whether

whether any explanation
shall be called for, or
whether the estimates may
be sanctioned -
