GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

No. 144.

READ—the following paper :—

From J. C. LARMINIE, Esq., Executive Engineer, in charge First Circle, to the Examiner, Public Works Accounts, dated Ellore Canal, 25th September 1882, No. 1462 G.D.

I have the honor to inform you that I have appointed an office establishment for the new Central Division. Of course it would not do to appoint new untried young hands to the higher clerks' posts, so consequently it has been necessary to fill these appointments by promotions from this office and from the Eastern, Western and Ganjam Division offices. To fill the vacancies so formed other promotions have been made, and young men have been appointed to fill the junior posts only.

The Central Delta Division is to be a temporary one, so the position of the permanent clerks transferred from other offices has to be definitely settled. While employed in the Central Delta they will rise in scale in the usual course, but should the Central Delta Establishment be at any time done away with will they, as I think they should, revert to the regular establishment in the grade *they may have attained to* in the Central Delta at whatever time it may be discontinued?

Again, should any of these transferred men become eligible for pension whilst employed in the Central Delta, the fact of being so employed on a temporary establishment must not be allowed to count in any way against their claims for pension. Both the above points should now be definitely settled, otherwise it will not be possible to obtain competent men to remain in the new appointments. The *newly* appointed men will be given to understand that their appointments are only temporary and carry no claim to pension.

No. 144-A.

No. 789 S.E., 1st.

Endorsement on the above.

Forwarded to the Secretary to Government, Public Works Department, for favor of early orders of Government.

2. The cases of the clerks transferred from other divisional offices to the Godavari Central Division may, it is thought, be brought under the provisions of Section 71 of the Civil Pension Code; the men newly appointed either in that division or in other offices in the places of clerks transferred, being considered temporary.

3. The salaries of appointments to which the men in the new division are appointed or transferred will be fixed, and they will not be entitled to annual increments of pay. Should the division be abolished there appears no objection to these clerks reverting to their substantive appointments on salaries they would have drawn in their *respective grades* had they continued in their appointments.

4. The men so transferred will count their services in the Central Division for pension, but not the additional allowances drawn by them, *vide* Section 123, Rule 1 of the Civil Pension Code.
