No. 26.

Read—the following papers :—

No. 178.

Report on the estimate, Rs. 1,290, for improvements, &c., to the abandoned District Munsif's Court-house at Karikal.

This old Court-house has been unoccupied for, it is believed, thirteen years, and to place it in proper repair the roof, floorings, doors and windows require almost entire renewal.

One Abstract Estimate for Rs. 1,290.

The Educational and the Registration Departments are anxious to have the use f this building, and the Judge of South Canara has proposed to the High Court that he Munsif's Court from Barcoor should be moved to Karikal occupying the building.

3. There has been correspondence regarding the dis[illegible]al of this building, but as et nothing is settled, and it is feared that it will be some time before anything is ecided as so many Departments have been consulted.

4. The Judge is of an opinion that the repairs (or improvements classed as new orks) should be carried out, leaving the question of occupation for the future.

5. The Superintending Engineer considers that nothing should be done until his point is settled, as the Department that obtains it is sure to require alterations.

EAD—G.O., dated 21st August 1882, Mis. No. 1046, Judicial.

ead—the following letter from the Registrar of the High Court of Judicature at Madras, Appellate Side, dated 1st August 1882, No. 1504 :—

Adverting to your letter, dated the 26th July 1882, forwarding for the observation f the High Court the Proceedings of Government, No. 151, dated 25th May 1882, Judicial Department (Buildings), I am directed to state that the High Court is of opinion that the old Court-house at Karikal should not be made over except temporarily to any other Department as, it may, at any time, be required again. This decision the Court conveyed to the District Judge of South Canara in the terms indicated in the 3rd paragraph of its letter, dated 17th November 1881, No. 2400, as noted in the margin.

"As regards the building formerly occupied by the Court of the District Munsif at Karikal, I am to state that the High Court would not approve of any step being taken which might render the building unavailable if hereafter required for Judicial purposes."

The High Court considers, therefore, that the necessary repairs to the old Court-house should be carried out without further delay as suggested by the District Judge.

Order—dated 21st August 1882, Mis. No. 1046, Judicial.

Communicated to the Public Works Department with reference to endorsement in that Department, dated 19th May 1882, No. 1101 C.

2. The necessary orders will be issued for the requisite repairs to the old Court-house at Karikal.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

8th November 1878, No. 4,305 W.

Buildings and Roads.
Civil Works.

Read the following paper :—

No. 135. From Captain R. R. E. BROCKMAN, R.E., District Engineer, Tanjore, to the Chief Engineer, Public Works Department, Buildings and Roads, dated Tanjore, 3rd October 1878, No. 2,325.

I HAVE the honor to forward, for the sanction of Government and for the necessary allotment of funds, the enclosed plan and estimate (approved by the Collector) amounting to Rupees 6,030 for restoring the old record-room adjoining the Deputy Collector's Office in the Tanjore Fort and providing an upper story and a verandah in front of the building.

2. The plan and estimate were prepared at the special request of the Collector for the accommodation of the English and Vernacular records of his office, which are annually increasing in bulk and for which the present provision is much limited.

3. The Collector desires that these alterations and improvements should be completed as early as possible, as much inconvenience is experienced at present for want of proper accommodation. I request that you will move the Government to accord their early sanction to admit of the work being commenced immediately after the monsoon is over.

No. 136. ORDER THEREON, 8th November 1878, No. 4,305 W.

BEFORE sanctioning this large expenditure and great extension of record-room accommodation, the papers will be referred to the Revenue Department in view to inquiry being made as to how far the retention of this bulk of records is needful or useful.

Chief Engineer, P.W.D.

Sir,

Enclo: 2

With reference to the accompanying copy of telegram, I have the honor to report that it is expected the revised plans and estimates of the Tanjore Jail will be ready within a week, but as there may be further delays before sanction is obtained, the Executive Engineer thinks it best to reduce the allotment of the year to Rs 30,000. The site has been occupied, wells sunk, timber, firewood and limestone collected, but without sanction to the estimate work is delayed.

2. I take this opportunity of

not received 6/10

sending you copy of my letter No. 203 T.N of 19 June 1882, of which no notice has been taken. The sum of Rs 10,000 surrendered on Palamcottah Jail would be in addition to the surrenders made in the statement which accompanied my letter No. 1110 T.J of 21st September 1882.

I have the honor to be

Sir

With reference to your telegram dated 26th September asking what sums can be surrendered from Provincial Funds I have the honor to report that Rs 23,000 can be given up from the Grant for Calicut Court house, item No 27 of the Provincial Grant.

2. The Grant for this work is Rs 28,000 but mission tiles to the value of Rs 5000 were odered for the Mullaparam Barracks; when orders came (see your telegram dated 16 Septr) to stop Military works I proposed to utilise these tiles on the Calicut Court house and therefore a sum of Rupees 5000 is retained to meet

this charge.

I have the honor to be

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

No. 93.

Read—the following letter from Colonel H. D. CLOETE, Officiating Inspector-General of Police, to the Secretary to Government, Public Works Department, dated Madras, 3rd July 1882, No. 3347 :—

I have the honor to forward, for the consideration and orders of Government, the accompanying revised plan, with a supplemental estimate, amounting to Rs. 2,000, for the construction of a school-room in connection with the proposed Head-quarter Office at Rajahmundry in 1882-83.

2. The original sanctioned estimate for the Head-quarter Office (without the school-room) amounts to Rs. 14,060,* and the supplemental estimate increases it to Rs. 16,060. In G.O., No. 104 W., dated 12th January 1882, Public Works Department, an allotment of Rs. 14,060 was made on account of this work in 1882-83, but as Rs. 2,500 were expended on this work in 1881-82, so much less is required this year, and the Superintending Engineer has surrendered the amount as not being required. If this money has already been transferred to the Reserve, I request that sanction may be accorded for the allotment of Rs. 2,000 from that head for the supplemental estimate for the Head-quarter Office, Rajahmundry.

16060
2500
13560

3. The work is to be carried out by the Public Works Department, but the papers are forwarded *direct* to save delay, the first quarter of the official year having already elapsed.

---

* *Vide* G.O., No. 2648 W., dated 26th June 1878, Public Works Department.

No. 94.

Order—dated 13th July 1882, No. 1778 W., Public Works.

The estimate for constructing a school-room in connection with the Head-quarter Office at Rajahmundry, approved of by the Officiating Inspector-General of Police, is sanctioned for Rs. 2,000 as supplemental to the estimate for Rs. 14,060 sanctioned in G.O., No. 2648 W., of the 26th June 1878.

2. Rs. 11,560 are provided for expenditure during the current official year for constructing Police Head-quarter Offices at Rajahmundry, and the Superintending Engineer will apply for further funds, if required, later in the year.

3. This sanction has been registered as Provincial No. 54 W. of 1882-83 and classified as Original Works, Civil Buildings.

Rec. 7/10

For orders

Having learned indirectly that Provincial Funds are likely to be curtailed I should be glad to be put in possession as soon as possible of the intentions of Government in this respect it being of urgent importance with reference to the progress of works in the current year

Statements of requisitions of assignments have now been received from all the Superintending Circles showing that the unappropriated Reserve at the present moment amounts to about 2½ lakhs of Rupees – From this I am anxious to make early assignments to the total of Rs 2,13,776 and otherwise follow – For the works on the Potinghey Thand – it is most essential that the additional funds asked for by the Executive Engineer Rs 50,000 should if possible be assigned without delay as with great exertions over 3000 labourers have been collected and all is in full swing. Looking to the great un-healthiness of this work I have pressed it on to the utmost in the hopes of saving life, and any cessation now owing to deficiency of funds would only entail continued exposure of the Establt. and would on this account be greatly to be deprecated

Present allot Rs 75000
[illegible] in 1882/83
expended 41640
Balance 33360

Sir,

I have the honor to request that you will apply for an additional allotment of Rs 70,000 for expenditure during the Current year on the Potinghy Ghat.

The present expenditure per mensem on the work is about Rs 12,000 I expect that this amount will gradually increase to Rs 14,000, during the 4 ensuing months and that from thence to the end of march it will remain at the later figure.

The balance thus remaining will be required for dynamite &c. to be paid for from the Divisional office. Labour is now Coming in very rapidly from the whole of Jeypore and I request that you will apply for the whole amount noted above in order that there may not be a deficiency of funds for this most important work

P. W. D. Madras.
Form No. M. 16.

P.W.C. No 64 31

NOTES.

Reference to Madras P. W. D. Code.

Chapter XV.—Para. 2147.

1. This form should be used by the Executive Engineer in any of the following cases:—

   a.—When he requires a grant, or an addition to an existing grant for carrying on a sanctioned Major work.

   b.—When he is unable to utilize the grant at his disposal for any work, and wishes to resign it either wholly or in part.

   c.—When he wishes to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed New Grant" or for "Proposed Reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for current year" would of course be the amount less such reduction.

4. In the case of Irrigation Works the entries in the column "Departmental and Service Head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the capital or Revenue Account of which the charge is debitable, and the class of Service to which the charge is debitable thus:—

——————— Project.

(1)—Head works.
B. Land.
K. Buildings.

In cases of Productive Public Works the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by Executive Officers, and this form employed the moment the facts are sufficiently known.

The present state of the
rovincial reserve with Govern-
ent will not admit of the
arge demand being fully
rovided for.

No 1440.

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

The Expenditure on the Polinghy Ghat up to end of August last Rupees 41640 and there is a sum of Rupees 4802 due which makes the expenditure to the end of August Rs 46442 and leaves a balance of (75000 - 46442) only Rs 28558 available for expenditure. The present expenditure per mensem on the work is Rs 12000, which is expected to be increased to Rs 14000, and at this rate the grant now available will not be sufficient for more than a couple of months. The work now in vigorous progress and unless the grant is supplemented the work will have to be stopped and it would be a great pity to do so. The undersigned therefore trusts that the Superintending Engineer will adopt prompt measures and secure the additional grant applied for, as otherwise if the Coolies are dispersed it will be difficult to get them together again, and all the Camps which are only temporary will deteriorate. The great object [illegible] get this Road open with the least possible delay so as to

overcome the difficulties and the Malarious fever prevalent on the Ghât.

Copy of a letter from the officer in charge of the Ghât is sent herewith for information. He asks for Rs70000 but I will be able to manage with Rs50,000 provided the balance of the Estimate is granted next year.

No 1471 46/2775

From,
The Executive Engineer
Madura Division

To
The Superintending Engineer
6th Circle
Trichinopoly

Sir,

In reply to your No 69. C. dated 19th Instant calling for a fuller report than those already submitted regarding the surrender of Rs 4000 on the Tiruvadanai Cutchery I have the honor to state as follows:-

Enc—1. 2. The Preliminary issue of the Budget was received in this office on the 31st January/82 and my No 90 dated 17th April/82 (copy enclosed) shows that I was under the impression that as a Final issue was to be made, the appropriations in the Preliminary Issue were not to be taken as final; for having waited till the 17th April I became anxious & wrote to you for orders as to whether the work was to be commenced or not. In your reply No 29. M. D. dated 20th April/82 you stated that no further orders were necessary than those contained in the Preliminary Issue & that the plans & estimates should be searched for.

The

The re-arrangement of the old records had not been quite completed & it was not till the 12th May (My No 318) I was able to report that the Plans, Estimates & Contract documents were in your own office. These papers were received on the 25th May with your No 107. M.D. dated 22nd May/82 and two days afterwards the notice inviting tenders was forwarded to the Deputy Collector in charge of Treasury for insertion in the District Gazette.

3. Six weeks were allowed to parties wishing to tender & on the 8th July the only tender which had been received was opened & a report made to you on the same day that as the amount of tender exceeded amount of Estimate I could not recommend your acceptance of it. Your No 214. M.D / 12.7.82 authorized me to carry out the work departmentally.

4. Arrangements were at once made with petty Contractors & suppliers for supplying bricks and timber, but the brick supplier after inspection of the locality, its long distance from Madura (59 miles) and the utter want of skilled labour there refused to proceed with the work - another man was induced to take up the brick work on petty contract,

but

but the almost constant rain during the last 2 or 3 weeks of August prevented the manufacture of bricks. The land is all Zemindari & our people were thwarted & opposed when they wished to enter upon waste land for the manufacture of bricks. I went to Tiruvadanai towards the end of August & made arrangements for land & ordered the erection of sheds both for the moulding & burning of bricks.

5. Skilled labour has to be obtained from Madura, timber can be obtained from Sondi, 8 miles distant but it has to be carted through 8 miles of black cotton soil which during the rains is a sea of mud. I saw that a commencement had been made, but the continual rain had temporarily stopped further carting.

6. Under these circumstances I consider it likely that my expenditure on the work this year will not exceed Rs 6,550-

I have the honor to be

1. Statement.
1. Execr Engr's
No. 1471 / 20-9-82
with an En-closure –

Sir,

I have the honor to forward herewith a statement of surrenders and additional grants now required.

2. The principal work on which surrender is necessary is the Tanjore Jail. A complete estimate with plans was furnished by the Executive Engineer in July last but at the request of the Inspector General it had to be returned for revision and Colonel Tennant's final instructions on some points are still awaited, so that there seems no possibility of being able to –

spend more than half the allotment.

3. The work on which additional funds can with advantage be spent is the restoration of Tirumal Naick's Palace at Madura; the allotment of which at present stands at Rs 25,600, and this may be increased to Rs 40,600. The Tanjore Divisional officer has also proposed commencing the Division office and the Kodavassel cutcherry, two works that will be found in List B of the Provincial Budget.

I have the honor to be
Sir
Your most obedient servant.

E Beatty Col RE.
Supd. Engineer. 6 circle.

True

P.S. The Collector of Tanjore has sent me two estimates, which appear urgent, for work required at his Treasury and Record Room, amounting to Rs 1995 and 3,730, respectively. These might be sanctioned from the balance now surrendered. I have requested the Collector to submit them himself for sanction with explanation of the necessity for the works.

Sir,

With reference to para 2 of this office letter No 1188 T.J. of the 30th Ultimo, I have the honor to surrender a further sum of Rs 4,000 being the anticipated saving on Palisading in the District Jail at Palamcottah.

Chq 6707 sent to Ooty on the 4th Inst.-

2. There has been no expenditure on the work of Sub Magistrate's Cutcheri at Virdupatty for which a sum of Rs 7,300 has been granted. A revised Estimate for Rs 9,536 has been prepared for this work and submitted to the Collector for countersignature. As probably

G.O. No 1190 W of 10 May/82

it will be some time before this is sanctioned, I would propose that Rs 5,000 should be surrendered leaving Rs 2,300 for the preparation of materials this official year.

Sir,

At Ooty

with W. in file on statement of [illegible] & [illegible]

No 1668 E of 17/9/82

With reference to your Memorandum No 828 E dated 30th Ultimo I have the honor to inform you that the Plan and Estimate for the New court house at Calicut, for the District Judge and the Munsiff, were forwarded to you with my Report No 359 dated 24th August from which it will be observed that the design for the building and the site have to be definitely settled by the Consulting Architect and the Collector respectively; the settlement of which I anticipate would necessarily cause some delay in obtaining sanction for execution of the work. In the meanwhile as Government required large Provincial funds, Rs 23,000 have been surrendered in compliance with your Telegram of the 26th September and Rs 5,000 only retained out of the Budget grant.

2. Should sanction to the Estimate be given and the site definitely fixed within the end of this month about Rs 15,000 could be utilized during the next 5 months of the current official year.

I have the honor to be

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

No. 57.

Read—the following papers :—

From Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, Fourth Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 20th July 1882, No. 286.

With reference to paragraph 6 of G.O., No. 1705 W., of 7th July 1882, I have the honor to state that the necessity for construction in the current official year of the District Munsif's Court-houses at Coondapoor and Tellicherry, Item Nos. 42 and 43 of Class B works of the Provincial Budget for 1882-83, is great as may be seen from the following extracts taken from the District Judge's letters.

2. As regards Item No. 42, the District Judge writes that "The District Munsif's Court-house at Coondapoor is unquestionably the first work necessary to be undertaken in the ensuing official year.* The inconvenience experienced in the present building has long been complained of by the Munsif, and the necessity of taking up the work of construction of the new building was urged so far back as in 1880."

* 1882-83.

3. In respect of Item No. 43, the District Judge writes that "The present Court-house of the Tellicherry District Munsif does not afford requisite accommodation either for the Clerks or Vakils or suitors; the space is so very confined that the establishment has for want of other rooms to do their work in the Court-room itself, which is not only of small dimensions but is always over-crowded by parties, especially during Small Cause Court days. The building is altogether unfit for a Court-house."

4. Under these circumstances I request that funds to the extent of Rs. 8,000 for Item No. 42 and of Rs. 10,000 for Item No. 43 may, if possible, be provided in the current official year.

No. 57-A.

G.O., dated 8th August 1882, No. 902 A, Judicial.

Read—the following letter from the Registrar of the High Court of Judicature, Madras, dated 7th August 1882, No. 1566 :—

In the Deputy Registrar's letter, dated 3rd instant, No. 1537, Government were requested, for reasons stated, to sanction the construction of a new District Munsif's Court-house at Tellicherry by an early date.

2. The accompanying copy of a telegram requesting the High Court to sanction the renting of a private house for the Tellicherry Munsif's Court, owing to the insecurity of the Court-house building, has just been received; and as the sanction applied for is very urgently required, I am to request that the same may be granted at once, and may be communicated by telegram to the Court.

Copy of Telegram from the District Judge of North Malabar, dated 5th August 1882.

"Tellicherry Munsif's Court unsafe; sanction requested rent hired house twenty-five rupees monthly; please telegraph answer."

Order—dated 8th August 1882, No. 902 A, Judicial.

Ordered that sanction be communicated by telegram to the District Judge of North Malabar.

2. Telegram :—

"Sanction accorded to renting private house for Tellicherry Munsif's Court."

(True Extract.)

(Signed) G. S. FORBES,
Acting Under Secretary.

No. 57-B.

G.O., dated 10th August 1882, No. 700, Judicial.

Read—the following letter from T. WEIR, Esq., Registrar of the High Court of Judicature at Madras, to the Chief Secretary to Government, dated Madras, 1st August 1882, No. 1500 :—

I am directed to forward a copy of a letter received from the Acting District Judge of South Canara, and to express the hope of the Court that necessary funds may be provided for the work therein mentioned at an early date. It will be seen from the copy of the letter enclosed that the construction of new Courts for the District Munsifs of Coondapoor and Puttur may be regarded as works of an emergent character.

Enclosure.

From J. A. DAVIES, Esq., Acting District Judge of South Canara, to the Registrar of the High Court of Judicature, Appellate Side, Madras, dated Mangalore, 10th July 1882, No. 44.

I have the honor to request that the High Court will be pleased to address Government to make an allotment of funds for the construction of the new Court-house sanctioned* for the District Munsif at Coondapoor.

The estimate was sanctioned nearly three years ago (G.O., 8th August 1879, No. 2068 W.). The Udipi District Munsif's Court, which was sanctioned with the one under reference, has long been completed.

Application for the allotment was several times made through the Department Public Works, but without success, and although the Executive Engineer stated in May 1880 that the whole of the amount of the estimate was conditionally available, and the then Acting District Judge, Mr. Knox, clearly made out the necessity for taking up the work at once (in 1880-81), the Executive Engineer now informs me that no funds have as yet been allotted for the work.

The Court in question is badly required. The Munsif complains that he is seriously inconvenienced in the present building for want of sufficient light (the roof being low) and also of accommodation.

Except the fixing of a lightning conductor in the District Court-house, the cost of which is only Rs. 575, no allotment has it appears been made on account of Judicial buildings in this District for the current official year, so that I trust it may be considered that this Department has some reasonable claim to funds being provided for the work in question, if available, from savings or otherwise *during the current year*, and, if no provision can be made this year, that it may be made for certain in the next year's budget.

I should add that next to the above mentioned Court at Coondapoor, the one sanctioned* for Puttur is also a work of great necessity. I beg to request therefore that Government may also be moved to provide funds for this work in the next official year if possible.

---

* Rs. 9,800.

* In G.O., dated 23rd April 1881, No. 1050 W.

Order—dated 10th August 1882, No. 700, Judicial.

Transferred to the Public Works Department for consideration.

(By Order.)

Ootacamund,

Ag. Under Secy. to Govt., P.W.D.

18th August, 1882.

No. 57-C.

G.O. dated 16th August 1882, No. 760, Judicial.

Read—the following letter from T. WEIR, Esq., Registrar of the High Court of Judicature, to the Chief Secretary to Government, dated Madras, 3rd August 1882, No. 1537 :—

I am directed to forward a copy of a letter from the District Judge of North Malabar, and to invite the attention of Government to the necessity for a new Munsif's Court at Tellicherry being built at an early date. It seems that some correspondence passed between Government and the District Judge on the subject, the result of which was that by G.O., No. 104 W., dated 12th January 1882, (which order however was not communicated to the Court,) Government sanctioned the erection of the Court, the funds for which were to be made available should the necessity of the undertaking be established.

2. The reasons of the District Judge for applying for a Court, which are the present insanitary condition and inconvenient form and site of the building, have already been laid before the Executive Engineer concerned; but hitherto with no result. I am therefore to express the hope of the Court that, for the reasons given by the District Judge, in which the High Court concurs, the necessary funds may be allotted and the work completed as early as possible.

3. The Court also agrees with the District Judge that in view of the proposed introduction of changes in the constitution of the process serving and copying systems throughout the Courts in the Presidency, the best site for the new building would be somewhere in the same compound as that in which the District Court is located, and I am therefore to request that sanction may be accorded to the change in the plan.

Enclosure.

From J. W. REID, Esq., District Judge of North Malabar, to the Registrar, High Court of Judicature, Appellate Side, dated Tellicherry, 21st July 1882, No. 233.

The District Munsif of Tellicherry now holds his Court in a very incommodious building half a mile from this Court.

2. The building is very confined. It is situate on the *maidan* where detachment of troops encamp. The smell from the mules, elephants and bullocks of the troops is offensive, not to speak of the noise which accompanies the smell.

3. In contemplation of the establishment of a central Nazarat and central office for copyists proposed as the High Court know, it is necessary that the Munsif be located in a building in the same compound as this Court.

4. As early as the 22nd June 1874, by letter of mine, No. 148 to the Acting Chief Secretary to Government, I brought the unsuitability of the building where the Munsif now sits to the notice of Government, and enclose a copy of my letter with which I submitted an approximate estimate.

5. The Government of Madras in their Order No. 1216, dated 3rd July 1874, approved and sanctioned the erection of the new Court-house proposed, but directed that the plan and estimate be revised in the Public Works Department with reference to G.O., dated 26th May 1874, No. 961, Judicial Department.

6. On the 16th January 1875, by my letter No. 10 to the Acting Chief Secretary to Government, I submitted an estimate called for in G.O., No. 961, and another plan and estimate for constructing two sheds for sheltering witnesses coming to the District and Session's Court, the Sub-Court, and the projected Munsif's Court.

7. In Order No. 426, dated 15th February 1875 (Civil Works No. 23), the Government sanctioned the construction of the Munsif's Court-house at a cost of Rs. 10,475, and the witnesses' sheds at a cost of Rs. 810, and directed the District Engineer to apply for the necessary funds after 1st April 1875.

8. On the 2nd October 1880, by letter No. 260, to the Acting Chief Secretary to Government, I again brought before Government the necessity of construction of the Munsif's Court, and as the standard plan for Munsif's Courts was revised on the 20th July 1879, suggested the necessity of a fresh estimate being made. In this letter I recommended that the new Court-house be built on the present position; a recommendation which, in view of the newly proposed central Nazarat and central office for copyists, I think should not be followed, but my original one to build in this Court's compound should be followed.

9. On 24th December 1880 I countersigned an estimate prepared by the Executive Engineer, West Coast Division, amounting to Rs. 13,200, for the District Munsif's Court proposed.

10. By G.O., No. 1050 W., dated 23rd April 1881, Civil Works, Government sanctioned an estimate for construction of a District Munsif's Court at Tellicherry at a cost of Rs. 12,700.

11. On the 15th February 1882, the Executive Engineer, West Coast Division, informed me that the above work appeared in Class B of the Provincial Budget for 1882-83, and that G.O., No. 104 W., of the 12th January 1882, sanctioning it at a cost of Rs. 13,200 stated that funds will, as far as possible, be made available hereafter should the necessity for undertaking it be established. He therefore requested full information regarding its necessity that he might apply for the requisite funds.

12. To this I replied giving the information on the 18th February 1882.

13. In a letter, dated the 29th June 1882, the Executive Engineer, West Coast Division, informed me that no funds have been allotted for the District Munsif's Court of Tellicherry. I have therefore, in view of the desirability of having the District Munsif's Court in the same compound as this one, for the convenient carrying of the proposed central Nazarat and copyist arrangements, the honor to request that the High Court may be pleased to press on Government the necessity of the immediate carrying out of the estimate sanctioned for the Munsif's Court.

Order—dated 16th August 1882, No. 760, Judicial.

Transferred to the Public Works Department for early consideration.

(By Order.)

(Signed) G. S. FORBES,
Acting Under Secretary.

G.O., dated 17th August 1882, No. 1016 (Mis.,) Judicial.

Read—the following letter from the Registrar of the High Court of Judicature at Madras, Appellate Side, dated 12th August 1882, No. 1618:—

In continuation of my letter, dated 7th August 1882, No. 1566, I am directed to transmit to Government the accompanying copy of a letter from the District Judge of North Malabar applying for sanction to a monthly rent of Rs. 25 for the accommodation of the Tellicherry District Munsif's Court owing to the insecure condition of the building hitherto occupied by that Court.

In the urgent circumstances of the case, I am again to request the favor of early orders on the subject.

From the District Judge of North Malabar, to the Registrar of the High Court of Judicature, Appellate Side, Madras, dated 8th August 1882, No. 258.

I have to apologise for not sooner following up my request of the 5th instant by wire for sanction [illegible] hire a house for the Munsif of Tellicherry to hold his Court in, at Rs. 25 per mensem; but yesterday my sessions commenced and my time was fully occupied.

2. The Munsif's Court consists of a hall in which he sits and at the back and sides are verandah rooms where his copyist department and Vakils sit and where his retiring room and record room are.

3. The hall is supported by two wooden pillars, one of which has at its base and about a third of the way up been quite hollowed by white-ants. At the base the pillar is simply a shell and the white-ants have penetrated up to one-third, as I ascertained by piercing the pillar, the tool going into a hollow in the centre.

4. The post also seems leaning a little outward and at the entrance, to the Munsif's room, the wall has cracked, so that the side posts of the door are about three-fourths of an inch out of the perpendicular.

5. Besides this the corner rafter beam which slants downwards at one corner of the building is quite rotten and eaten away by decay and damp, and also two other rafters in the same portion of the roof are rotten.

6. We are having very heavy rains this year, and the roof being loaded with moisture is additionally heavy. Fearing lest some heavy and continued rain might make the faulty pillars and rafters give way, which would, if it occurred in the day time, with the Court full, cause a dreadful catastrophe, I have taken on myself the responsiblity of allowing the Munsif to remove his Court and records (yesterday) to a building in the town, which the owner lets us have for the hire, sanction for which I applied, viz., Rs. 25 per mensem.

7. The Munsif has estimated that to replace the faulty pillar and rafters will cost Rs. 71-12-0.

8. I think that it is a pity to waste money on these repairs when, as I hope on the strong reasons I urged in my letter, dated 21st July 1882, No. 233, a new Munsif's Court is about to be built. I only venture to reiterate my recommendations in that letter with still greater force in consequence of the unsafe condition just now discovered of the present Court-house.

9. I enclose a copy of the Munsif's letter bringing the unsafe state of the Court-house to my notice.

10. Your telegram of the 7th arrived this morning.

Order—dated 17th August 1882, No. 1016 (Mis.), Judicial.

The rent will be sanctioned.

2. Copy of the correspondence will be communicated to the Public Works Department in continuation of endorsement, dated 8th August 1882, No. 902 A.

(True Extract.)

(Signed) E. S. LAFFAN,
for Chief Secretary.

No. 57-D.

From Lieutenant-Colonel H. R. MEAD, R.E., Superintending Engineer, Fourth Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 22nd August 1882, No. 349:—

With reference to your endorsement No. 595 E., dated 18th August 1882, I have the honor to report that the following allotments might with advantage be given for the current year for the works referred to—

	RS.
District Munsif's Court at Coondapoor Item No. 42, Class B, Budget 1882-83. Estimate Rs. 9,800—proposed grant	5,000
District Munsif's Court at Puttur, Item No. 44, Class B, Budget 1882-83. Estimate Rs. 14,700—proposed grant	7,000

I need not add that if these proposed grants are to be fully utilised this official year it is necessary that they should be given at once.

No. 58.

Order—*dated 7th September 1882, No. 2299 W., Public Works.*

The liabilities requiring to be met from the balance of Provincial Funds at the disposal of Government do not admit of immediate allotments being made for the works brought forward in the papers above recorded.

2. The demands will however be noted for early grants as soon as funds become available.

No. 198.

Read—the following letter from G. T. WALCH, Esq., Officiating Superintending Engineer, First Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 5th June 1882, No. 631 G.D. :—

1 Plan.
1 Estimate.

With reference to G.O., No. 1348 W., dated 8th June 1880, I have the honor to forward, herewith, plan and estimates for Taluk Cutcherry at Bhadráchalam. They were sent to the Government Agent in May 1881, and were only returned by him in February with a change of proposed site, which further delayed the submission; and then, again, it having been found, just as they were being despatched, that the Collector had omitted to countersign the plans, they were sent to him to make good the omission on 26th April, and they were received back only on 2nd instant.

2. The site now decided on by the Revenue authorities is that of the present "Kutcha" building.

No. 199.

Order—dated 28th June 1882, No. 1642 W., Public Works.

With the above the Superintending Engineer submits for sanction an estimate for constructing a Taluk Cutcherry and out-houses at Bhadráchalam, in the Godávari District. The construction of a Taluk Cutcherry in this station was approved of by Government in the Judicial Department in G.O., No. 1254, dated 25th May 1880, and the estimate now submitted for Rs. 7,500, approved by the Government Agent, is sanctioned for that amount.

2. An appropriation of Rs. 5,000 is granted from the Reserve at the disposal of Government for the current official year, and if the building can be completed before the close of March 1883, the Superintending Engineer should hereafter apply for the balance of the estimate.

This sanction has been registered as Provincial No. 46 W. of 1882-83 and classified as Original Works, Civil Buildings.

No. 27.

Read—the following papers:—

From the Inspector-General of Jails, dated 16th June 1881, No. 103.

No. 27-A.

Read—the following letter from Colonel T. E. Tennant, Inspector-General of Jails, to the Secretary to Government, Public Works Department, dated Vizagapatam, 20th February 1882, No. 34:—

With reference to Judicial Proceedings of Government, dated 25th August 1880, No. 2088, and in continuation of my letter, No. 103, dated 16th June 1881, I have now the honor to submit, for the approval and sanction of Government, the accompanying plans and revised estimates for completing the new District Jail at Palamcottah.

2. As explained in previous correspondence the original plans for this jail were designed for keeping the convicts in association, but it was ultimately determined that the new prison should be constructed on the cellular system, and the present estimates now provide for constructing 250 separate cells instead of eight association wards, each ward to contain 26 prisoners.

3. The general arrangement and disposition of the blocks of cells have been determined in communication with the Superintending and Executive Engineers, and will be carried out without interfering with existing buildings. The blocks of cells diverge or radiate from a common centre, and are so arranged that the front of one block of cells looks on the back of the other, thus effectually preventing a convict seeing another fellow-prisoner in the opposite cell. Weather boards have been provided where required.

4. With regard to the construction and size of the cells much consideration has been given to the subject. The result has been that a cell $13\frac{1}{2} \times 7\frac{1}{2} \times 10$, providing $101\frac{1}{4}$ square feet and $1,012\frac{1}{2}$ cubic feet for each prisoner, is considered sufficiently large for prisoners undergoing lengthened sentences of separate confinement without injury to health. Verandahs to the blocks of cells are not required. The open iron-grated doors of the pattern shown in the plan are placed rather to one side, so as not to subject the occupant of the cell to a draught or to rain that might be prejudicial to health. Iron-grated windows are provided in the back wall of each cell, and a small iron-barred ventilator to close with a shutter from outside is provided for each cell; by this means active ventilation is secured and can be properly regulated. A basement of 2 feet has been allowed and the floors of the cells will be asphalted. In order to decrease the expense, instead of providing stone steps for each cell, a platform along the front of the cells with a ramp from the outer edge will suffice. This will enable the prison officials to walk along the platform whilst visiting each cell without constantly ascending and descending steps before each cell door. The food, &c., will be

passed into the cells by means of iron trays of the same design and pattern as those used in the Penitentiary, which work satisfactorily.

5. The plans, as now revised, have been carefully prepared in consultation with the Superintending and Executive Engineers, and I beg the early sanction of Government may be accorded for proceeding with the work. Funds have been provided in the budget for this work. It is estimated that the value of convict labor will amount to Rs. 8,986.

6. I may mention that the buildings colored lake in the block plan have already been completed, so that if the blocks of cells are now sanctioned the jail ought to be completed in a few months.

G.O., „ 1558, „ 5th August 1881.
G.O., „ 205, „ 18th February 1882.

With reference to your letter, No. 23 E., dated 19th April 1882, I have the honor to refer you to the correspondence noted in the margin, from which you will perceive that the subject of the separate system has been a topic of earnest consideration during the last few years. I need not go through the various arguments in favor of the cellular system; it will suffice to say that the conclusion arrived at is that the individual separation of one prisoner from another is the only basis on which any sound system of prison discipline can be formed.

2. If the cellular system was purely of an experimental character, I agree with you that it would be prudent to proceed with great caution, but we possess knowledge, and have had sufficient opportunity of judging of the suitability of the cellular system in this Presidency.

3. The cellular system has been in force for several years in the Penitentiary at Madras, and the results carefully watched not only by the prison authorities but by the Medical and Sanitary Officers, and experience has shown that the adoption of the cellular system is not only highly expedient for purposes of jail discipline, but is not objectionable on sanitary grounds.

69/2285

4. To construct a portion of the new jail at Palamcottah on the cellular system, and keep the rest of the prisoners in association wards, would obviously leave the great evil of unrestricted social intercourse untouched. If the separate system is to be carried out, the separation should be complete, and I earnestly hope the Government will sanction the construction of this cellular prison as recommended by me. The subject has been under anxious consideration for years, and I am satisfied that the separate system of discipline will, by its own merits, eventually bear down all opposition; or at least, that the principle of separation will be recognized as the basis upon which all the discipline will be founded. Hence I think it would be a great mistake to continue to construct in new jails association wards, and so continue a system which we know to be wrong.

No. 27-C.

READ—the following letter from Colonel T. E. TENNANT, Inspector-General of Jails, to the Secretary to Government, Public Works Department, dated 25th April 1882, No. 102:—

I have the honor to acknowledge the receipt of your letter, No. 33 E., dated 22nd April 1882.

G.O., No. 1046, dated 18th May 1878, J.D.
G.O., „ 325, „ 10th February 1881, J.D.
G.O., „ 1086, „ 1st June 1881, J.D.
G.O., „ 205, „ 18th February 1882, J.D.

2. As you will perceive from the documents alluded to in the first paragraph of my letter, No. 86, dated 20th instant, the size and construction of cells has been a subject to which much consideration has been devoted, and as a large number of cells have been continuously occupied in the Penitentiary for the last four years, we have valuable experience as to the space and ventilation required; and, further, it has now been practically demonstrated that native prisoners can be kept continuously for eight months, without detriment to health, in cells constructed as those in the Madras Penitentiary.

3. The cellular space and proper ventilation requisite demand the most serious consideration, and I should not have presumed to have advised this large outlay for cellular accommodation had we not had practical experience to guide us.

4. The building of the Palamcottah Jail has been under discussion for years, and rather than run the risk of further opposition and delay I am quite willing to consent to your proposal to construct only four blocks out of the eight, and to allow these to be occupied for one hot season before commencing the construction of the remaining blocks.

5. In selecting the four blocks to be constructed I would choose every alternate block shown on the plan.

6. As the average population of the jail is about 180, the rest of the prisoners who cannot be accommodated in the cells will have to remain in association in the present temporary wards.

No. 28.

ORDER—dated 3rd May 1882, No. 1123 W., Public Works.

The revised estimate, amounting to Rs. 2,08,000, for completing the new District Jail at Palamcottah, is sanctioned.

2. As suggested by the Inspector-General of Jails, only four of the radial blocks of buildings should be constructed in the first instance, alternate blocks being selected for the purpose. After these have been in occupation throughout a hot season, the result should be reported by the Inspector-General for the information and further orders of Government.

3. A sum of Rs. 50,000 has been provided in the current year's Provincial Budget for the work.

4. This sanction has been registered as Provincial No. 13 W. of 1882-83 and classified as Civil Buildings, Original Works.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

No. 136.

Read—the following papers :—

From Lieutenant-Colonel W. H. BURTON, R.E., Officiating Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 29th May 1882, No. 696.

With reference to G.O., No. 1190 W., dated 10th May 1882, in which an additional appropriation of Rs. 5,000 is granted for the current year for the Collector's Cutcherry at South Arcot (Budget Item No. 3), I have the honor to observe that the estimate of Rs. 19,770 sanctioned for this work in G.O., No. 2667 W., dated 3rd October 1876, was, owing to certain alterations subsequently suggested by the Collector, apparently set aside in G.O., No. 91, dated 6th February 1877, and the Consulting Architect was therein ordered to report, after inspecting the existing office, on the question of providing a new building. In the current year's budget the remark "Revised estimate under consideration" is entered against this work, but this revised estimate does not appear to have been yet sanctioned. At any rate nothing concerning it is known in this circle, therefore the work cannot be commenced.

No. 136-A.

From R. F. CHISHOLM, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepauk, 13th June 1882, No. 215.

I have the honor to return Colonel Burton's letter forwarded to me with your No. 698 D., dated the 1st instant.

I kept the papers connected with the Cuddalore Cutcherry by me intending to consult you on the subject, as it appears to me that we are working in a circle.

The last plan, you will remember, was objected to by the Collector as encroaching too much on the grounds of the old Residency. I explained that this encroachment was not a necessity, and inquired if the building would otherwise suit. To this the Collector replies :—

> "The proposed new buildings cannot be placed further back on the old site without curtailing the accommodation provided for my subordinates, which is all required. The new rooms will have to be built, the one over the other, as the rooms for the Assistant Collector and Magistrate will have to be built at the south-east corner opposite the Subsidiary Jail.
>
> "Considering the styles of the present buildings, it would be well if a new Cutcherry was built for the whole of the Collector's establishment."

The question which I wished to consult you about was whether it would not be better, under the circumstances, to plan a new building instead of adding to the existing row of rooms.

No. 137.

ORDER—dated 19th June 1882, No. 1540 W., Public Works.

The Consulting Architect to Government is directed to submit as soon as possible a plan and estimate for a new Collector's Cutcherry at Manjakuppam.

2. Meanwhile the additional allotment of Rs. 5,000 made to this work in G.O., No. 1190 W., dated 10th May 1882, will be resumed and credited to the Provincial Reserve.

3. The Superintending Engineer, Fifth Circle, will report later on whether it is likely that the whole of the current year's budget grant of Rs. 15,000 will be utilised, and if not, what portion can be surrendered.

No. 24.

Read—the following letter from Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 19th August 1882, No. 1888:—

1 Estimate in duplicate.
2 Plans.

With reference to G.O., No. 2493 W., dated 11th October 1881, I have the honor to submit for sanction a plan and estimate of Rs. 4,885 for constructing a wall along the western boundary of the compound of St. Andrew's Kirk, similar to the wall on the north side, Rs. 3,730, and a plain wall on the eastern boundary Rs. 1,155. The eastern wall is included in the estimate as the Government are the proprietors of the School of Arts premises.

No. 25.

Order—dated 4th September 1882, No. 2273 W., Public Works.

The plans and estimate, amounting to Rs. 4,885, for constructing a wall along the western boundary of the compound of St. Andrew's Kirk, similar to the wall on the north side, and a plain wall on the eastern boundary, are sanctioned.

2. Funds will be allotted as soon as they become available.

3. This sanction has been registered as Provincial No. 90 W. of 1882-83, and classified as Civil Buildings, Original Works.

With reference to G. O. No. 1540 W dated 19th Ultimo, I have the honor to report that in the letters as per margin, it has been proposed that funds to the extent of Rs. 11,692 should be transferred to the undermentioned works from the Budget grant of Rs. 15,000 for the Collector's Cutcherry at South Arcot. If these appropriations of funds be made there will be left a balance of Rs. 3308 which I think may probably be sufficient for expenditure in the year.
