24TH OCTOBER 1882, No. 2762 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

No. 158.

READ—the following papers:—

From D. C. GORDON, Esq., Examiner, Public Works Accounts, to the Chief Engineer, Public Works Department, dated Madras, 18th September 1882, No. 24 E.W.

I have the honor to forward a copy of letter No. 2273 of 27th January last, from the Superintending Engineer, Second Circle, to the Executive Engineer, Kistna Western Division, on the subject of certain land required for excavation, for about two years, regarding which it is proposed, you will see, to come to terms with the ryots direct.

2. In a former (1870) edition of the Public Works Department Code, arrangements for land wanted only temporarily, as in the case under reference, were provided for,* it being ruled that in such

* Paragraph 6, of Section III of Chapter XIII of Government of India Public Works Department Regulations (1870). case a reference to the civil department need only be made when direct negotiations failed, but no such provision is made

in the present edition, which (please see paragraph 1,152) seems to me only to contemplate transactions for the acquisition of land *permanently*, but which enjoins reference to the civil department in every case.

3. Under these circumstances, I have the honor to inquire whether the intervention of the civil department is necessary when land is needed for a temporary purpose, such as for the digging of kunkur, or pits, or the like.

ENCLOSURE.

From the Superintending Engineer, Second Circle, to the Executive Engineer, Western Division, Kistna, dated 27th January 1882, No. 2273.

Please inform me, with reference to your letters Nos. 2282 and 2480, dated the 27th December and 18th January, respectively, whether the ryots concerned agreed to give up the land required for excavating pits above Chebrole bridge for two years. I have already informed you that where land is temporarily required, and for a short time, it is better for you to make arrangements with the ryots, and the Sub-Collector in charge stated that there was no objection to your doing so.

2. I think therefore it would be better for you to disburse the sum you may have agreed upon with the ryots, rather than we should trouble the Collector in this matter.

No. 798 E.

Referred to the Revenue Department for opinion, whether there is any objection to the course suggested by the Superintending Engineer.
