READ—the following letter from W. R. CORNISH, Esq., F.R.C.S., C.I.E., Surgeon-
General with the Government of Madras, to the Secretary to Government,
Public Works Department, dated Ootacamund, 5th June 1882, No. O/191:—

I have the honor to report, for the information of Government, that it was
recently suggested to me by a paying patient in the General Hospital that the punkahs
in the officers' quarters might be connected with the machinery for moving the
punkahs in other parts of the hospital at no very great expenditure.

2. Up to this time the punkahs in the officers' quarters have been pulled by
coolies as required, and on account of the considerable expense entailed on the General
Hospital by this arrangement I recently directed that punkah-pulling should not be
included in the daily charges to paying patients, but that each patient of this class
should provide his own punkah-pullers as required.

3. I referred the question of moving the punkahs in these rooms by machinery
to the Medical Officers of the hospital, who approve of the arrangement if discon-
nection can be made so as to admit of hand-pulling at times and seasons when the
machinery is not worked.

4. Under these circumstances I have the honor to recommend that an estimate
be called for of the cost of the work, and that Government may be pleased to approve
of the same being carried out. This measure will be a benefit to patients of limited
income, whose payments to the hospital for diet and attendance, though small, are
as much as they can afford.

No. 54.

ORDER—dated 10th June 1882, No. 1442 W., Public Works.

The work is approved for execution by the Public Works Department.
