GOVERNMENT OF MADRAS.

MILITARY DEPARTMENT.

12th October 1882, No. 5457.

Military Buildings—Native Lines.

Read the following papers :—

No. 222. *From Lieutenant-Colonel J. EWING, Officiating Deputy Quartermaster-General to Colonel E. L. HANKIN, Acting Secretary to Government, Military Department, Ootacamund; dated Fort St. George, 20th September 1882, No. 7563.*

In anticipation of the withdrawal of troops from certain stations in the approaching relief season, I have the honor, by order, to submit, for the approval of Government, the measures which His Excellency the Commander-in-Chief proposes to order in connection with the public military buildings and lines at each.

Stations.	Public Military Buildings.	Lines.
Mangalore, French Rocks.	To be made over to the Public Works Department for disposal under orders of Government (Madras) in Public Works Department.	To be sold for the benefit of Government under provisions of para. 2308—2319 M.A.R.
Mercara	To be made over to Public Works Department, Coorg, for disposal under orders of Chief Commissioner, Coorg.	
Chanda, Sironcha.	To be made over to Public Works Department, Central Provinces, for disposal under orders of Chief Commissioner, Central Provinces.	To be made over to the Public Works Department, Central Provinces, for disposal under orders of Chief Commissioner, Central Provinces.

No. 223. *From Lieutenant-Colonel J. EWING, Officiating Quartermaster-General, to Colonel E. L. HANKIN, Acting Secretary to Government, Military Department, Ootacamund; dated Fort St. George, 3rd October 1882, No. 7904.*

With reference to this office No. 7563, dated 20th September 1882, I have the honor, by order, to report that as the 33rd Regiment, Native Infantry, is under orders to leave Mangalore on the 15th October 1882, in anticipation of the approval of Government, orders have been issued to the Officer Commanding, Western District, that the military buildings at that station should be made over to the Public Works Department for disposal, the lines being dealt with as directed in paras. 2308 and 2319 of the Madras Army Regulations.

EXTRACT from the Madras Army Regulations, 1876.

Para. 2,308. When huts are abandoned and the owners receive the value from Government, the huts are to be immediately put up to auction or disposed of to best advantage by local authorities and sold for the benefit of Government. All parties on the strength of the regiment drawing hutting money, as also recruit and pension boys actually possessing huts in the lines, together with schoolmasters, barbers and dhobies, who suffer by the abandonment of lines, are to receive compensation. Compensation cannot be allowed for schools, but Government will take into consideration, application for assistance to meet expenditure on such account.

Para. 2,319. When the lines of a corps or detachment are ordered to be removed to other ground or on any occasion of authorised abandonment, the huts should first be valued by a committee and the amount of such valuation drawn and disbursed to the men, as laid down in the preceding paragraph. The huts will then be sold by public auction and the value realized remitted to the Quartermaster-General by a cash receipt accompanied by an account sale showing the value of each hut, and prepared exactly in the same form as the proceedings of the committee, with the addition of two columns, one for the amount realized by the sale of each hut by auction, and the other for the difference between this amount and its valuation price. The insertion in the list of the names of purchasers is not necessary.

No. 224. ORDER THEREON, 12th October 1882, No. 5457.

The measures proposed by His Excellency the Commander-in-Chief for the disposal of the public military buildings and Native lines at Mercara, French Rocks, Chanda and Sironcha, are approved.

2. The buildings and lines at Mangalore will remain in military charge until further orders.

13TH OCTOBER 1882, No. 1466, FINANCIAL.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. P. CHENTSAL RAO PANTULU GARU, Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 29th September 1882, No. 957.

I have the honor to forward a letter I have just received from the Deputy Registrar of the High Court, complaining against the quality of certain articles of stationery supplied to the High Court during the current year. The articles condemned by the High Court were all obtained on indent from England, and have to be so obtained in future as they are not of Indian manufacture. I presume that the Home Department orders purchases with reference to the values mentioned in the indent, for which probably better articles cannot be obtained. It therefore seems to me that either intimation should be given to the Secretary of State that the values given in the indent need not be adhered to, and that articles of the quality generally used in Government Offices at home should be sent, or we must send samples of the various articles which we require. The latter course seems preferable, and I beg to suggest that a Committee consisting of the officers noted in the margin be appointed to consider the standard of the quality of the various English and country articles which ought to be supplied to the several Government Offices. When the standards are fixed, samples of English articles may be sent to England, those of the country articles being kept in the office in view to similar articles being purchased in future. Without some such plan, I do not think that complaints can be avoided.

1. Chief Engineer, Public Works, or some other officer to represent the Department Public Works.
2. Superintendent of Public Works Stores.
3. Secretary, Board of Revenue.
4. Accountant-General.
5. Salt Commissioner.
6. Registrar of the High Court.
7. One officer to represent Government Secretariats.
8. Superintendent of Stationery.

ENCLOSURE.

From S. ORR, Esq., Acting Deputy Registrar of the High Court of Judicature at Madras, Appellate Side, to the Superintendent of Stationery, dated Madras, 27th September 1882, No. 2258.

I regret to have to bring to your notice the bad quality of many of the articles now supplied from the Stationery Office. The blotting-paper as represented in my predecessor's letter, dated 17th July 1880, No. 1038, is simply useless, and it has been found necessary to supply the Court with a superior quality purchased in the local market.

2. The Judges also complain that the quill pens supplied are of so inferior a quality that it is impossible to write more than two or three lines with one pen.

3. The royal paper is also stated by the Judges to be of so greasy a character that it will not take the ink.

4. In view of these complaints, I am to ask if quills of a superior quality and paper free from grease cannot be supplied.

5. Perhaps the worst of all the articles last supplied are the lead pencils, three dozens of which I have the honor to return, and to request that you will be pleased to exchange them for a similar number of a better description, as they are found utterly unfit for office use.

Order—dated 13th October 1882, No. 1466, Financial.

The suggestion to form a Committee to determine the standard of the quality of the various English and country articles which should be supplied to the several departments of Government commends itself to His Excellency in Council.

2. The officers named below will accordingly be requested to associate themselves into a Committee for the purpose :—

The Chief Engineer.
Accountant-General.
Commissioner of Salt Revenue.
Secretary, Board of Revenue.
Deputy Registrar, High Court.
Under Secretary to Government, Public Department.
Superintendent of Public Works Stores.
The Superintendent of Stationery.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

15th October 1878, No. 4,011 W.

General.

Account.

Read the following paper :—

No. 194. From Major L. CONWAY-GORDON, R.E., Examiner of Public Works Accounts, to the Secretary to Government, Public Works Department, General Branch, dated Chepauk, 3rd October 1878, No. 297 W.

In my letter No. 2 W, dated 3rd April 1876, I promised to submit to Government a report on the type-writing machines, the purchase of which was sanctioned in G.O., No. 967, of 11th April 1876. I have purposely delayed sending in this report, for it appeared to me that an approximate estimate of the life of the machines would be a point in the report, on which Government would naturally look to receive some information.

2. Two type-writing machines were received in July 1876. The cost of each machine delivered in this country with all duplicates, printing tapes, &c., complete, was Rupees 280. Since July 1876 both machines have been in continuous use. I find them very useful in disposing of office correspondence, and not liable to get out of order if reasonable care be taken of them.

3. They can be easily worked by a person of ordinary intelligence after about a month's practice. Enclosed is a copy of a memorandum I have drawn out for the guidance of operators.

4. The ratio of work done by the machine as compared with hand-copying is as near as possible 2 to 1. Accurate statistics were kept for a month, and it was found that the work done by two men at the type-writers compared with that of four men at hand-copying as 127·631 to 127·558, the *two* type-writers doing a fractional amount of work more than the *four* manuscript copyists.

5. For all purposes in connection with rough drafting and fair-copying the machines answer admirably; with practice, figured statements of account can be turned out; but, as might be expected, the machine is of no use for filling in figures in blank forms. It might perhaps be made use of for this purpose were the forms drawn out specially to suit the machine, but as a matter of fact we have never used it for this purpose.

6. One excellent use has been made of these machines in connection with the Lithographic Press. Circulars or any other documents, of which a number of copies are urgently required, are now type-printed on transfer paper, transferred to the stone and copies taken off by the ordinary lithographic process. The whole process of obtaining as many as 100 printed copies of a circular can be completed in the course of a few hours. I enclose a specimen of typo-lithography for the information of Government, a process I trust soon to further improve upon.

7. The two machines are now, after two years' incessant wear, in perfect order, and, as far as can be seen, are likely to remain so. This report itself is a fair specimen of the work the machine turns out daily.

8. On the whole I am able to report very favorably on the machines. I think that they might with advantage to Government be introduced in all *large* public offices.

MEMORANDUM ON THE USE OF THE TYPE-WRITER FOR OFFICIAL LETTERS.

Take care to keep the machine always properly cleaned, especially the rod on which the carriage slides, and carefully avoid as far as possible all dust falling on the machine.

The rod and other working parts should be kept slightly oiled with good kerosine oil.

2. Strike the keys as in playing *staccato* on a piano-forte, and with sufficient force to obtain the required impression. In damp weather less force will be found to be required.

3. Take particular care not to strike two keys at a time and to keep good time, for it will be found that the more regularly and mechanically the keys are struck, the more even will the printed writing be.

4. To get a quarter margin on foolscap, place pin in second hole from right of carriage bar.

5. Adjust the paper properly, and see that it is quite straight by lifting the carriage.

6. DEFINITIONS. *A space.*—A *horizontal* space *across* the paper, represented by moving the carriage through one division on the index or scale in front of the machine either by the hand or by pressing down the bar.

A Tick.—A *vertical* space *down* the paper, represented by turning the printing cylinder one tooth on the ratchet wheel.

7. INSTRUCTIONS FOR CORRESPONDENCE CLERKS. *Stops.*—Leave a *space* after each stop.

8. *Paragraphs.*—One *tick* between each paragraph in excess of the usual distance between lines.

9. *Numbering Paragraphs.*—After numbering a paragraph leave six *spaces* thus :—

"2. It is also to be observed that the Accountant."

10. *Brackets.*—Use the colon with a *space* on each side and prolong *by hand* each dot of the colon thus :— :< Excluding interest >:

11. *Quotations.*—Give a margin wider by eight *spaces* (about) and give only one *tick* between the lines, thus :—

> "2. In March 1878 the Government of India remarked that the practice of notifying in the Official Gazette the appointment and subsequent events in the service of Members of Office Establishments should be henceforth discontinued, unless they hold the specifically and officially recognised position of Assistant to the Secretary under a Local Government."

12. *Commencing Official Letters.*—Begin the heading "*From the Examiner*" at Index 13.

Begin the next line "*Public Works Accounts*" at Index 25.

Give an extra *tick*; begin the next line "*To the Superintending Engineer*" at Index 13.

Begin the next line "*First Circle*" at Index 25.

Give three extra *ticks*, commence "*No.*" at Index 7.

Put *date* on the same line as "*No.*" but commence at Index 35.

Give two extra *ticks*, commence "*Sir*" at Index 7.

13. *Concluding Official Letters.*—Give an extra *tick*, commence "*I have the honor to be*" at Index 25.

Commence "*Sir*" at Index 35.

Commence "*Your most obedient servant*" at Index 30.

Leave a space of five *ticks* for signature.

Commence "*—Examiner of Public Works Accounts*" at Index 35.

14. *Dockets.*—On letters folded lengthways commence at Index 31.

15. *Figured Statements.*—Calculate number of figures in each column of statement and then mark off on Index the point at which the line of units of each column is to commence, so as to get the figures exactly one under the other.

16. *Enclosures.*—Copy consecutively after letter. The words "*Enclosure No.* 1" at Index 24 thus :—

ENCLOSURE No. 1.

Copy of a letter from..to...........

ENCLOSURE No. 2.

Copy of a letter from..to............and so on.

Public works Department
Simla, 17th October 1882

Sir,

I am directed to invite your attention to Chapter XV Section iii para: 71 of the Public works Code and to request the punctual submission of the first revised estimate of Public works transactions for the year 1882/83.—

I have the honor to be,
Sir,
Your most obedt Servant
A. H. Gale
Lieut Col R.E.
Dy Secy to Govt of India

NOTES.

REFERENCE TO MADRAS P. W. D. CODE.

CHAPTER XV.—PARA. 2147.

1. This form should be used by the Executive Engineer in any of the following cases:—
   - a.—When he requires a grant, or an addition to an existing grant for carrying on a sanctioned Major work.
   - b.—When he is unable to utilize the grant at his disposal for any work, and wishes to resign it either wholly or in part.
   - c.—When he wishes to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed New Grant" or for "Proposed Reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for current year" would of course be the amount less such reduction.

4. In the case of Irrigation Works the entries in the column "Departmental and Service Head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the capital or Revenue Account of which the charge is debitable, and the class of Service to which the charge is debitable thus:—

———— Project.

(1)—Head works.

B. Land.

K. Buildings.

In cases of Productive Public Works the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by Executive Officers, and this form employed the moment the facts are sufficiently known.

The transfer proposed may be sanctioned by the Local Government.

Dowlaishweram 28 Septr. 1882

Despd 30th 30—

Sir,

With reference to Code para No. 420 C S.O No. 210 of 1881 I have the honor to request your approval of the purchase by the Honorable Rajah of Pittapur of a dog cart and horse, my property, which, with reference to my approaching transfer to the Nilgiries I have been obliged to offer, to insure their sale, at the low price of Rs. 500 the turn out cost me over Rs 900 three years ago, & is now fully worth Rs. 700, so under these circumstances & as I am leaving the District I presume there will be no objection to the sale.

2. I take this opportunity to request your sanction of my taking to

to Ootacamund at the public expense. One horse and one pony the animals are suitable ones and there is no market here for their sale except at much further loss to me. Tents I have succeeded in disposing of.

I have the honor to be,
Sir

Madras, 19 October 1882

Sir,

I have the honour to inform you that of the two Lakhs of rupees sanctioned for expenditure on these Works for the current year I have now a balance of about Rs 20,000. Not all of the sum spent viz Rs 1,80,000 has been spent on Blockmaking, but some on the Beach Protection Works and other matters as described in my Letter to Government dated 30th June 1882 and covered by G. O. No 1720 W. of 8th July 1882. In Paragraph 8 of that Letter I mentioned my fear that the two lakhs of rupees would not be sufficient for the year

2 As I am now spending about

Rs 30,000 each month, unless I have a further grant of money I must prepare to stop all work at the end of this present month of October. I may add that the Chief expenditure during the next few months will, if Cement arrives from England as expected, be on blockmaking.

Chapter XV.—Para. 2147.

1. This form should be used by the Executive Engineer in any of the following cases:—
   - *a.*—When he requires a grant, or an addition to an existing grant for carrying on a sanctioned Major work.
   - *b.*—When he is unable to utilize the grant at his disposal for any work, and wishes to resign it either wholly or in part.
   - *c.*—When he wishes to utilize the grant for one work upon some other.
2. Either of the columns for "Proposed New Grant" or for "Proposed Reduction," or both, may be used as required.
3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for current year" would of course be the amount less such reduction.
4. In the case of Irrigation Works the entries in the column "Departmental and Service Head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the capital or Revenue Account of which the charge is debitable, and the class of Service to which the charge is debitable thus:—

   ——————— Project.

   (1)—Head works.

   B. Land.

   K. Buildings.

   In cases of Productive Public Works the fact of their being so should be noted against the entries.
5. It being of the utmost importance that early intimation of possible lapses, or of excesses in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by Executive Officers, and this form employed the moment the facts are sufficiently known.

The Financial Department should be asked to provide for the amount applied for together with the charges for Establishment and Tools and Plant from the balance of the Port Fund.

Explanation of necessity for Modification of Allotments.

The allotment of the Trichinopoly Division under Imperial, Military, minor original works is Rs. 200, whereas the amount of Estimates sanctioned up to date comes to Rs. 503, and further Estimates are likely to be called for. Hence an additional allotment of Rs. 400 is required.

The allotment under Provincial, Repairs, Civil Buildings is Rs. 1292, the sanctioned Estimates amount to Rs. 1720, and further Estimates are likely to be wanted. Consequently an allotment of Rs. 500 is now applied for

Simla, 12th October 1882.

Sir,

With reference to correspondence ending with your letter No. 2396 W. of the 16th September 1882 I am directed to state that the Govt. of India does not consider that sufficient grounds exist for the grant of a compassionate allowance to the widow of the late Mr. Gibbs, temporary Overseer, and that the rules and practice of Govt. in such cases do not justify an
