India Office
19 August 1880

Sir,

The satisfactory completion of your course of study at the Royal Indian Engineering College having been duly reported to this office, the Secretary of State for India has been pleased to appoint you to the Engineer Establishment of the Indian Public Works Department as an Assistant Engineer, 2nd Grade, with effect from the 23rd September 1880.

Your further employment and advancement in the service of the Government will be determined according to the usages and regulations of the Public Works Deptt in India; to the rules and regulations of which Department, for the time being, as laid down by the Indian Government, you will be subject.

Your claims to leave, furlough, and pension will be determined by the regulations laid down by the Government of India, and made applicable to their Civil Engineers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. Your service for furlough and pension will be held to begin from the date of your appointment viz:

Viz, 23d September 1880

In the event of misconduct on your part, you will render yourself liable to dismissal from the service, with forfeiture of all claims to pension, or other penalty, in accordance with the usages and regulations of the public service.

In the event of your being compelled by ill health, certified to the satisfaction of Government, to quit the service of the Govt. of India within the period of 10 years from the date of your first appointment to the service you will be furnished with a first-class passage back to England at the public expense, provided that you avail yourself of it within three calendar months of your leaving Government employment.

I am &c

PROCEEDINGS of the MADRAS GOVERNMENT.

READ the following letter

from the Government of India, Public Works Department dated 21 September 1882 No 1307. Q.

Order thereon 17 October 1882 &c

Inferior servants accompanying the Government are provided with free quarters at Ootacamund so far as accommodation is available, and as none could be found for the peons referred to in the foregoing correspondence the Examiner P. W. Accounts was authorised in the P. W. Department to pass house-rent to them as a special case.

2. The case might have been met by a modification of the Ooty Travelling Allowance Code; but, being so isolated and not likely to recur, the Government did

did not consider any action in that direction called for.

3. The orders passed in the Public Works Department are therefore confirmed.

NOTES.

Reference to Madras P. W. D. Code.

Chapter XIV.—Paras. 1829 to 1832.

1. The object of this Return is to place before Government an analysis of all shortcomings in matters of financial regularity in the operations of each month with a view to their being remedied. It should be submitted to Government on the first day of the third month succeeding that to which the accounts relate.

2. There should be a separate statement for each separate Fund—Imperial, Provincial, Local, and Irrigation.

3. The Provincial statement will be posted from the Divisional Statements of Objectionable Expenditure. The statement need not be delayed in order to embody the remarks of the Superintending Engineers if these do not reach the Examiners Office in time. It is desirable, however, that the Superintending Engineer's opinion should be recorded as far as may be practicable, and, in order to ensure this being done, the Divisional Statement of Objectionable Items should be checked immediately on receipt and sent to the Superintending Engineer for his remarks before the audit of the other accounts is proceeded with.

4. All Executive Officers who have failed to submit their Divisional Statements of Objectionable Items with their Monthly Accounts, as well as those whose statements are *generally incomplete*, should be specially brought to the notice of Government under "General Remarks" at the end of the statement.

5. Items of irregular expenditure which are left unincluded by Executive Engineers in their Divisional Statements [illegible] Objectionable Items should be distinctly noted as such either in a separate supplementary statement or in the original statement in red ink.

6. Columns under all the heads should be filled up in each case so as to bring out clearly where estimate or appropriation exists and where it does not.

7. In the case of large projects such important features as the following should be stated with precision:—

A. Lump sum estimate. B. Abstract detail estimate by sub-heads, and so on.	1. Submitted to Chief Engineer. 2. Submitted to Superintending Engineer. 3. Not yet submitted.

8. A large work which is proceeded with on merely a lump sum sanction is still objectionable till an abstract and detail estimate by sub-heads is submitted and sanctioned for it by competent authority.

9. Special mention should be made of works being carried out in portions by authorities, beyond whose powers of sanction it would be to sanction the expenditure as a whole.

10. An important point to notice is the duration of a serious irregularity.

11. Voluminous masses of detail, when their practical significance could be given in a few lines, should always be avoided as a rule. If, for instance, the state of matters as to sanction in one month does not materially differ from that of a preceding month, it will answer all practical purposes to say so, instead of sending another full report.

12. Too much stress can never be laid on the fact that this statement is not to take place of, special reports, then and there, of works on which serious irregular expenditure is being largely incurred, either without estimate or appropriation.
