27TH SEPTEMBER 1882, No. 1325, FINANCIAL.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

From R. LOGAN, Esq., Officiating Under Secretary to the Government of India, Department of Finance and Commerce, to the Chief Secretary to Government, dated Simla, 9th September 1882, No. 3664.

In reply to your letter, No. 534, dated the 21st June 1882, I am directed to state that the Governor-General in Council is pleased to sanction the recoveries from the South Indian Railway on account of work done by famine labor on the Chingleput-Conjeeveram Railway as well as any similar recoveries being credited to Provincial Revenues.

2. As regards the contribution of Rs. 5,67,000 from Local Funds on account of the Imperial expenditure incurred on Local Fund works during the famine, I am directed to refer you to my letter, No. 3601, dated the 7th instant, from which it will be seen that it has been decided to credit this amount to Imperial in the accounts of the year and to add a corresponding sum to the Public Works grant to Madras on account of the Madras Harbour Works.

Copy forwarded to the Accountant-General, Madras, for information.

ORDER—dated 27th September 1882, No. 1325, Financial.

Recorded; and communicated to the Public Works Department. It is observed that the actual recoveries from the South Indian Railway came to Rs. 60,045-11-9. and were credited to Provincial Services by the Examiner of Public Works Accounts. But as the Accountant-General doubted the correctness of the orders passed by this Government, it is possible that the credit may have been cancelled. The Accountant-General will report whether this is the case, and in what year's accounts the credit will appear.

SIR,

Enclosures

I have the honor to report that I have received an offer of 900 Rupees for one of the Boilers at the General Hospital and a 12 H.P. Horizontal Engine lately returned by Messrs. McC Dowell & Co. The Boiler, is not required as it will be replaced by one of those recently made in the Workshop for the General Hospital. The Engine also is not required and as the price offered is in excess of that which the Machinery would realize if sold by auction, I would recommend that the offer be accepted. The Boiler and Engine have been worked for many years.

I have the honor to be
