SIR,

The Accountant General, Public Works Department, having brought to notice that it is a general practice with Local Governments and Administrations to alter the amounts of their Regular Estimates for Provincial Services and Incorporated Local Funds by additions or reductions after those estimates have been accepted by the Government of India, the attention of Local Governments and Administrations is invited to the fact that the figures of the Regular Estimates advised by the Government of India are those which have been adopted by the Department of Finance in the general estimates of the empire, and that it is with those figures that the actual outlay incurred during the year is required to be compared. The figures passed in Budget orders must therefore be invariably recorded as the final grants of the year in all the books and accounts of the Department.

2. Local Governments and Administrations may, however, after the receipt of the Regular Estimates from the Government of India, vary the expenditure at will, under Provincial and Local Funds, by the issue of additional grants, or by the reduction of the grants passed in Budget orders; but these additions and reductions can be brought to notice only in explanation of the differences between the estimated and the actual figures.

From the Superintending Engineer, Third Circle, dated 12th July 1882.

Certificate and report from the Examiner of Public Works Accounts, to the Acting Under Secretary to Government, Pension Department, dated Madras, 27th September 1882, No. 737-A.R.

Certified that, should Government be pleased to treat the period of the applicant's services, from 1st January 1863 to 10th May 1879 and from 12th November 1879 to 2nd September 1880, as qualifying on the strength of his affidavit, &c., as also on the specific opinion of the Head of the Office that the service claimed "should be admitted," qualifying service in inferior grades will amount to seventeen years, two months, and one day. But as the applicant's services appear to have been dispensed with on account of frequent absences from duty, and as he is reported by the Zillah Surgeon, Cuddapah, to be fit for further duty, he will not, it is thought, be entitled to retiring allowance of any kind.

2. With reference to Section 130, Rule 4, attention is solicited to Section 65 of the Civil Pension Code and to the remarks of the Superintending Engineer at foot of the fifth page of the gratuity application.

ORDER—dated 19th October 1882, No. 999, Pension.

Inasmuch as the applicant is declared by the Medical Officer to be in a good state of health and fit for further service in the department to which he belongs, he is ineligible, under the rules, for pension or gratuity. The Executive Engineer subsequently to dispensing with the applicant's services described him as a notorious malingerer, but this was not the ground on which he was removed from the service, and but for the gross and unexplained delay which has taken place in the submission of this application, the case might have been disposed of on the first medical certificate, dated the 3rd September 1880. In the present circumstances, the applicant must be provided with employment as a lascar.

Read the following:—

No. 96. Proceedings of the Government of India, Military Department; dated
Fort William, 26th September 1882, No. 1225-A.

Promotions—Warrant Officers.

Military Despatch from the Most Honorable the Secretary of State for India, to
His Excellency the Most Honorable the Governor-General of India in
Council; dated India Office, London, 27th July 1882, No. 247.

With para. 11 of your Military letter, No. 69, of the 10th April last, were
forwarded papers relative to the recommendation of the Government of Bombay,
that Conductor J. Wright, Bombay Barrack Department, should be granted the
honorary rank of Lieutenant, with an intimation that the recommendation had the
support of your Government.

2. Having considered these papers in Council, I caused them to be forwarded
to the Horse Guards, with the expression of a hope that the Field Marshal Com-
manding-in-Chief would see fit to submit the name of this warrant officer to Her
Majesty.

3. This His Royal Highness has done, and Conductor Wright's promotion to
the honorary rank of Lieutenant was duly notified in the *London Gazette* of the 4th
July.

4. I observe from the correspondence forwarded that Conductor Wright had
previously applied for the rank in 1878. The then Commander-in-Chief at Bombay,
however, declined to entertain the application, as there were at the time two senior
warrant officers in the Barrack Department who had not been promoted. One of
these has since obtained the honorary rank, but the other, Conductor Bather, is
still without it. I presume that the Government of Bombay were satisfied that
the claims of the latter were not so strong as those of Conductor Wright; but there
is nothing in the papers to show that he would not also have been recommended
had he applied.

5. It appears to me indeed that recommendations such as the present are
generally the result of applications from the warrant officers themselves. I do not
think that this should be the case.

6. Certain warrant grades carry with them honorary rank; but in other
cases honorary commissions should only be bestowed upon warrant officers of long
and meritorious service. It should not be left to them, when such service
undoubtedly exists, to bring it to notice, and claims of this nature should be so
dealt with, that warrant officers may not be encouraged to believe that honorary
rank may be obtained simply by the asking for it.
