Simla, October 3, 1882.

SIR,

The Accountant General, Public Works Department, having brought to
notice that it is a general practice with Local Governments and Administrations
to alter the amounts of their Regular Estimates for Provincial Services and
Incorporated Local Funds by additions or reductions after those estimates have
been accepted by the Government of India, the attention of Local Governments
and Administrations is invited to the fact that the figures of the Budget and
Regular estimates advised by the Government of India are those which have
been adopted by the Department of Finance in the General estimates of the
empire, and that it is with those figures that the actual outlay incurred during
the year is required to be compared. The figures finally accepted by the Gov-
ernment of India must therefore be invariably recorded as the final grants of
the year in all the books and accounts of the Department.

(2)

2. While Local Governments and Administrations cannot increase the total grants assigned under Provincial and Local services and accepted by the Government of India without the special sanction of that Government, they can increase or diminish the assignments to particular objects within the limits finally accepted by the Government of India, and thus vary the grants for Public Works Expenditure as accepted in the budget orders of the Department. Any such additions or reductions after the acceptance of the Regular estimate should be specially noticed in explaining the differences between estimated and actual results.

3. Circular No. IX P.W., dated the 23rd June 1882, is cancelled, and all copies of it should be destroyed.

I have the honor to be,

SIR,

Your most obedient Servant,

A. Fildes

Lieut.-Colonel, R.E.,
Deputy Secretary to Govt. of India.
