GOVERNMENT OF MADRAS.
MILITARY DEPARTMENT.

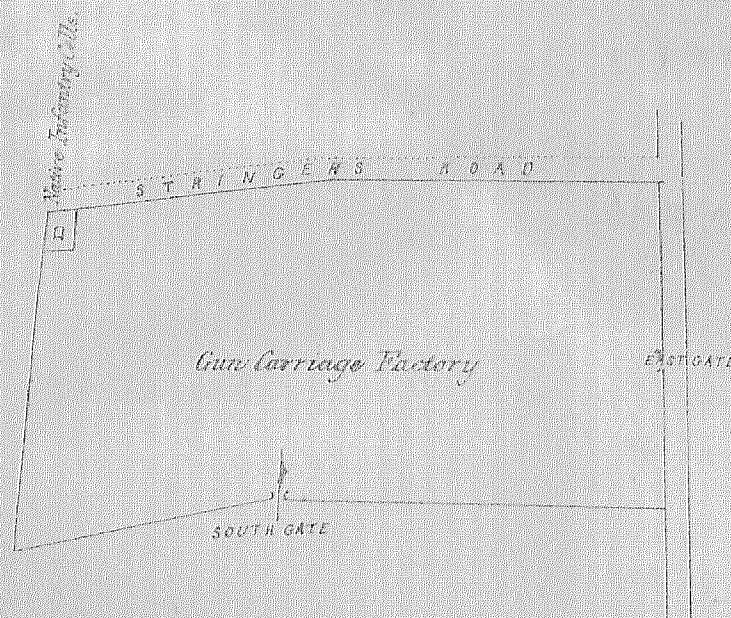

14th October 1882, No. 5534.

Military Buildings.

Read the following paper:—

No. 321. From Colonel S. CHAMIER, Inspector-General of Ordnance, to Colonel E. L. HANKIN, Acting Secretary to Government, Military Department; dated Fort St. George, 7th October 1882, No. 153-G.

I have the honor to state, for the information of the Right Honorable the Governor in Council, that the Superintendent of the Gun Carriage Factory has solicited that application may be made to Government for the transfer to the Gun Carriage Factory premises of the regimental cells of the Native Infantry usually (but now no longer to be) quartered in the Vepery lines. The cells are situated at the north-west angle of the factory and are in a manner a portion of the factory square, as will be seen by the small marginal sketch.

The building, if made over, would be very useful as a store-room, and would meet to some extent a difficulty which is at present experienced of finding sufficient storage accommodation in the factory for the stores which are required to be maintained there.

2. If the cells are not required by the Officer Commanding the Volunteer Guards, which I am informed is the case, and should they not be required by the Military Secretary to the Right Honorable the Governor in the event of the Vepery lines ever being occupied by the Governor's bandsmen, I would solicit the favorable consideration by Government of their proposed transfer to the Gun Carriage Factory premises. The expense which would be incurred in closing the doors of the cells on the north side and including the building in the factory premises would be very trifling and could be met departmentally.
