Account.

No. 428 W.

No. 248.

FROM

THE SECRETARY TO THE GOVERNMENT OF MADRAS,

TO

Public Works Department,

THE SECRETARY TO THE GOVERNMENT OF INDIA,

Public Works Department.

SIR,—I am directed to acknowledge the receipt, on the 21st September, of Public Works Circular No. 47, dated the 7th September 1877, on the subject of the adjustment between the several heads of service of the cost of *general* Tools and Plant.

2. In applying the principle indicated therein to this Presidency, it has been found that the cost of *general* Tools and Plant bears, even to the original grant, a considerably higher percentage than 1.5. By referring to the statement enclosed, showing the charges for Tools and Plant as compared both with the outlay on works and with the original grants for the past five years, it will be seen that the cost of *general* Tools and Plant amounts, on an average, under all heads of service to no less than 2.45 per cent. of the grant, and 2.78 per cent. of the outlay. His Grace the Governor in Council therefore considers that a percentage of 2.5 on the outlay or on the grant (whichever is greater) would be a fair charge to fix for the payments on account of *general* Tools and Plant.

3. In practice, it will be probably more convenient for the Provincial Fund to bear all the first charges on account of *general* Tools and Plant, the whole of the Public Works Divisions being considered, in an account point of view, as *Provincial*; and for all the remaining heads of service, viz., Imperial, Irrigation, Local, and Special, to pay for Tools and Plant in the same manner as they now do for Establishment, i.e., for Imperial and Irrigation to pay $2\frac{1}{2}$ per cent. on the outlay or on the grant whichever may be the greater, and for Local and Special to pay $2\frac{1}{4}$ per cent. on the outlay, whatever it may be.

4. It is understood that these arrangements will refer solely to *general* Tools and Plant, i.e., Tools and plant used, or likely to be used, on all heads of service indiscriminately. *Special* Tools and Plant, such for instance as the floating plant of a canal, will as heretofore be charged to the head of service concerned.

5. Subject to these remarks and conditions I am to state that the principle proposed by the Government of India of charging the whole cost of *general* Tools and Plant to one head of service, the remaining services paying a fixed proportion on the amount of the outlay, or of the grant (whichever is greater) is accepted generally by this Government.

6. On receiving the confirmation of the Government of India to these proposals the arrangement will be introduced from the 1st April 1877.

I have the honor to be,

Sir,

Your most obedient servant,

(Signed) E. A. FOORD, Colonel, R.E.,
Secretary to Government, P.W.D.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

No. 34.

READ—the following letter from Colonel W. S. TREVOR, R.E., Secretary to the Government of India, Public Works Department (Account—General), to the Secretary to the Government of Madras, Public Works Department, dated Simla, 16th May 1882, No. 206 A.—G.:—

In reply to your letter, No. 752 W., dated 22nd March last, I am directed to inform you that the Governor-General in Council has been pleased to rule that from 1st April 1882 the percentage charged to Imperial and Local Funds in Madras for the use of Provincial (General) Tools and Plant will be at $1\frac{1}{2}$ per cent. on the outlay. All Special Tools and Plant will be debited, as heretofore, to the actual Fund requiring such Tools and Plant; but I am to request that in making such charges the principles enunciated in your letter, No. 428 W., of the 25th January 1878, as to General and Special Plant may be strictly adhered to in future. It appears to the Government of India that many of the articles debited direct to Imperial Irrigation as Special should more properly have come under the head General Tools and Plant.

No. 35.

ORDER—dated 5th June 1882, No. 1398 W., Public Works.

In the paper now read the Governor-General in Council has sanctioned the percentage charged to Imperial and Local Funds for the use of Provincial (General) Tools and Plant being reduced from $2\frac{1}{2}$ to $1\frac{1}{2}$ per cent. on the outlay. The Budgets for 1882-83 have been drawn up and provide for the higher rate of contribution, and since the recent ruling is to take effect from the 1st April 1882, the Budgets for 1882-83 require correction.

2. Of the estimate of Rs. 1,07,697 for Tools and Plant, Rs. 99,697 had to be met by contributions, leaving Rs. 8,000 only to be charged against Provincial Funds, but by the reduced percentage of contribution lately sanctioned, Provincial Funds will now have to bear a sum of Rs. 49,678, while Rs. 58,019 only will be debited to other funds. One and-a-half per cent. on the Provincial Budget provision for works and repairs would amount to Rs. 21,543, and to bring the debit to Provincial Tools and

Plant to about this sum the estimate will have to be greatly reduced. The estimate for the present will be reduced by Rs. 20,000, and this sum will be taken from the item Reserve at the disposal of Government, which will now stand at Rs. 7,627. The difference between the Budget provision and that now corrected (Rs. 29,678), viz., Rs. 21,678, will be met from the reserve under Minor Original Works, Civil Buildings, which will be altered to Rs. 4,59,485.

3. The contributions will now stand as below :—

Estimate	Rs.
...	87,697

Distribution of the above.

Contribution from Imperial Military Works at $1\frac{1}{2}$ per cent. on grant for works	7,410
Do. from Imperial Other Services, at $1\frac{1}{2}$ per cent. on grant for works	3,785
Do. from Imperial Irrigation and Navigation and Agricultural Works	24,017
Do. from Imperial Capital Productive Public Works	11,269
Do. from Imperial Productive Public Works, Revenue Account	7,025
Do. from Incorporated Local Funds	761
Do. from Excluded Funds	325
Do. from Provincial Irrigation and Navigation Works	3,436
...	58,019

Balance to be provided from Provincial 29,678

4. In the Imperial Other Service Budget the provision for Tools and Plant, viz., Rs. 6,308, has been reduced to Rs. 3,785; the difference, viz., Rs. 2,523, has been added to the reserve under Minor Works, Civil Buildings, sub-head Salt, under which head funds are required.

5. The provision of Rs. 12,350 made in the Imperial Military Budget for Tools and Plant has been reduced to Rs. 7,410; the difference, viz., Rs. 4,940, has been added to the reserve under Original Minor Works.

6. In the Incorporated Local Fund Budget the provision for Tools and Plant will stand at—

Local Fund	Rs.
Canal and Ferry Fund	426
...	3,335
Total	3,761

The difference between these figures and those entered in the Budget, viz., Rs. 507, will be replaced at the disposal of the Financial Department.

7. The provision made in the Excluded Local Fund Budget has also been altered as follows :—

Port Fund	Rs.
Educational Fund	98
...	227
Total	325

and the sum of Rs. 215, being the difference between the Budget provision and these figures, will also be placed at the disposal of the Financial Department.

8. Ordered that a copy of these Proceedings be forwarded to the Government of India.

(Here enter No. $\frac{1398}{A}$ W., dated 5th June 1882.)
