I AM directed to acknowledge the receipt of your memorandum, No. 3072 W. of the 10th instant, submitting for sanction certain re-appropriations of grants for the current year, and in reply to return the re-appropriation statement duly sanctioned by the Government of India. I am, however, to observe that the Government of India is desirous that the work of the combined Post and Telegraph Offices at Madras should be pushed on as rapidly as circumstances will permit, and in this view is prepared to provide more funds, if possible, to meet further outlay in the current year on these buildings if an early application is made by the Madras Government for any amount that can be expended with advantage.

2. In the meanwhile, with reference to the sum of Rs. 53,422 which, you state, the Madras Government has surrendered from its grant for the current year under "Other Services," I am to say that the Government of India is pleased to withdraw this sum from Madras for outlay elsewhere.

cerned and the re-appropriations noted.

N^o 3072 W

Explanation of necessity for reappropriation.

As the Plan and estimate for the New Barracks for Royal Artillery at St. Thomas Mount (B.I. No 2) have not been sanctioned, it is proposed to utilise a portion of the grant on certain emergent repairs and minor works in the Presidency and Chingleput divisions.

2. Rupees 57,500 are surrendered from the grant for the Telegraph office at Madras and Rupees 3000 for minor works. Of the total sum Rs. 60,500; Rupees 27,500 are applied for the Post office at Madras and Rs. 10,000 for the new Telegraph office at Devulah. The Post office at Madras is from 20 to 30 feet below the level of the Telegraph office, and it is considered highly desirable that both buildings should be carried on together. The new Telegraph office at Devulah is a work of urgent necessity.

3. Under 'Other Services Satt'; Rupees 24097 including of charges on account of establishment and Tools and Plant are surrendered, in consequence of the Bars at Ennore and Coimbatore not closing so early as was anticipated.
