No. 76.

ORDER—dated 12th May 1882, No. 1209 W., Public Works.

With the papers read above the Superintending Engineers submit statements of the estimated requirements for the current official year in lump sums for Minor Works, Repairs and Tools and Plant for each division.

2. The sums available under Imperial Military and Other Services are as follows :—

		Imperial.	
		Minor Works.	Repairs.
		RS.	RS.
Military	...	19,911	2,75,000
Other Services	{ Postal	13,484	5,000
	{ Telegraph	6,452	3,000
	{ Salt	1,550	8,000

3. From these sums allotments are made as per statement marked A, leaving, as it will be observed therein, balances which will form the reserves with Government under the several heads concerned.

4. Under Provincial in the case of Repairs, and Tools and Plant it will be seen from the statement marked B that the distribution works up to the totals as entered in Parts II and IV of the Final Issue of the Budget.

5. Out of the reserve of Rs. 4,81,163 (Final Issue) under Original Works, Civil Buildings, Rs. 42,915 have now been allotted to the several divisions for Minor Works, leaving Rs. 4,38,248 still at the disposal of Government. Rs. 27,627 are also held as a reserve with Government under Tools and Plant, thus making a total reserve of Rs. 4,65,875.

G.O., No. 3082 W., dated 12th December 1881. of those shown in the different budgets
 " " 3120 W., " 16th " " circulated with the orders noted in the
 " " 104 W., " 12th January " margin.
 7 The events applied to

7. The grants applied for by Superintending Engineers have been reduced in several cases in order to keep within the totals allotted in the several budgets for Minor Works and Repairs.

8. No provision has been made in the Imperial Budget under Repairs, Miscellaneous Public Improvement, as all items connected with repairs to light-houses, &c., are transferred to Port Funds—*vide* G.O., No. 2452 W., dated 5th October 1882. Funds under that head must, therefore, be applied for separately.

9. The Consulting Architect will submit a separate estimate for the several budgets for

9. The Consulting Architect will submit a special application, naming the works for which funds to the extent of Rs. 2,000 applied for under Excluded Local are required, no funds being available under that head in the Public Works Department.

10. The reserves applied for by the Superintending Engineer, District, are not to be granted, but such reserves may be applied for separately.

10. The reserves applied for by the Superintending Engineer, Fifth Circle, have not been granted, but such requirements as may be found necessary will, on application, be met from the reserves at the disposal of Government.

11. The General Superintendent, Public Works Workshops, not having submitted a statement of requirements for Provincial Funds, the amount allotted to his division are the same as entered in the Preliminary Issue of the Provincial Budget.

No. 132.

READ—the following papers :—

From Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Stores, &c., to the Deputy Chief Engineer, Public Works Department, dated Madras, 29th September 1882, No. 1231 S.

With reference to G.O., 5th January 1882, No. 3 W., I have the honor to forward three lists of Public Works Stores, marked A, B, C; also a statement under sub-heads showing the probable loss to Government in the disposal of the stores at the reduced rates recommended.

2. Stock-taking was completed in March 1882, and the balance of stock on 31st March 1882, as examined and checked by the Account Office, was Rs. 4,71,839-14-9. The stores have however continued to be issued at the present book rates, with the exception of second-hand instruments, which are rated and supplied at 25 per cent. less than their original value, in accordance with paragraph 5 of the Government Order, so that the actual loss will not be so large as shown in the statement. If Government however direct that the entire difference between the opening balance or book value and the reduced rates recommended should be written off, the amount of the proposed value will be taken as the opening balance from 1st April 1882, and the difference realized by sale of stores at the present book rate up to the date of final orders being received will be adjusted at the close of the current official year.

3. The new forms of ledger proposed by the Examiner, Public Works Accounts, have been received, and will be opened on the 1st October next with the reduced rates if approved by Government.

4. It will be seen that the opening balance on 1st April 1882 was Rs. 4,71,839-14-9. By the reduced rates recommended there will be a *fictitious* loss of Rs. 84,754-10-0, leaving the opening balance of stock in store to commence with Rs. 3,87,085-4-9. I say fictitious, because until final orders are received articles will continue to be sold at their book value, and also the obsolete stores which in the statement are entered as *without value* must necessarily realize *something* when sold.

5. The following statement shows clearly the fictitious loss of Rs. 84,754-10-0 :—

	Book Value.			Proposed Value.			Loss. *		
	RS.	A.	P.	RS.	A.	P.	RS.	A.	P.
Statement A, Surplus Stores ...	2,63,471	2	6	2,24,928	14	6	38,542	4	0
Do. B, Stores to be retained ..	1,70,460	7	9	1,62,156	6	3	8,304	1	6
Do. C, Obsolete Stores ...	38,670	13	1	...			38,670	13	1
	4,72,602	7	4	3,87,085	4	9	85,517	2	7
Deduct.									
Net gain by sale of stores at rates higher than book value ...	762	8	7	...			762	8	7
	4,71,839	14	9	3,87,085	4	9	84,754	10	0
