READ—the following letter from Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 28th November 1882, No. 3061 :—

With reference to G.O., No. 1724 W., dated 8th July 1882, I have the honor to submit for sanction a plan and estimate of Rs. 2,355 for constructing an office for the Assistant-Superintendent of Police at Tirukoilūr, in the South Arcot District.

ENCLOSURE.

Report to accompany the Estimate of Rs. 2,355 for constructing an Office for the Assistant Superintendent of Police at Tirukoilūr.

On the sanction conveyed in G.O., Nos. 158, dated 20th March 1875, and 203 W., 13th December 1877, an office for the Assistant Superintendent of Police was built in the year 1878 at a cost of Rs. 1,120, and this building consists of two rooms, each 14 x 12 with a verandah in front of 6 feet broad. This is considered too small, especially the accommodation for the room intended for the Clerks; it is therefore proposed to build a new office consisting of two rooms, one 14 x 12 for Assistant Superintendent and the other 12 x 18 for Clerks with a verandah all round 8 feet broad and a small bath or retiring room at the end of the verandah behind the Assistant's room. As the existing building is said to be unbearably hot at times, the addition of a verandah all round is intended to make the new building much cooler.

2. The existing building was proposed to be transferred for use as Sub-Registrar's office, and this proposal has been approved of by Government and plan and estimate for the proposed new building called for in their Orders Nos. 1654 W., dated 30th June 1882, and 1724 W. of 8th July 1882.

3. The plan of the new building was proposed by the Superintendent of Police, and has met with the approval of the Inspector-General. The site selected, with the approval of the Collector, is the Government ground on the vacant space between the site taken up for Police hospital and Local Fund shed.

4. The Superintendent first proposed the new building might be erected of brick-in-mud with a view of restricting the cost to the value of the existing building; but this proposal is opposed to G.O., No. 596 of 24th February 1869, in which it is laid down that "all public buildings constructed by the Department Public Works, and intended to be of a permanent character, should be built with chunam." The present estimate provides accordingly for brick-in-chunam, and moreover the saving to be effected by omission of chunam is insignificant.

5. Early sanction to the estimate, together with appropriation of the amount, is necessary as the present building is very much required by the Registration Department.
