GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

ORDER—dated 1st December 1882, No. 1499, Public.

In its issue of Tuesday, November 7th, instant, the *Madras Times* Newspaper published at length the Minute recorded by His Excellency the Governor relating to his tour undertaken in July last—a confidential document which, as the Editor must have been well aware when the paper came to his hands, had not been placed by the Government at the disposal of the Press.

2. In reply to the inquiry made on the subject the Editor, the Rev. J. F. Spencer, expresses no regret for his conduct, but on the contrary takes credit to himself for having given publicity to a paper which he had irregularly obtained, refusing at the same time to explain how he became possessed of the same.

3. In the circumstances the only course open to Government is to give effect to G.O., dated 30th November 1865, on the subject, and to direct the removal of the *Madras Times* from the list of newspapers to which papers placed at the disposal of the Press are supplied.

4. Heads of Departments will cease to utilize the paper in question for the publication of their advertisements.

General.
Account.

the Secretary to Government, Public Works Department, and
February 1882, W.

I HAVE the honor to acknowledge the receipt of your letter of the 11th inst. for information and orders of Government, Inspection Notes by Mr. Godfrey of the office of the Executive Engineer, Godáviri Western Division.

PARAGRAPH 5. It is much better to prepare all work abstracts in the divisional office. Ten-day reports ought to be submitted regularly, and after scrutiny should be at once, as each is checked, posted into the work abstract. The extra labor would probably be no more than that already undertaken in making out the rough abstracts, and at the same time the sub-divisional officers would be better able to have the ten-day reports prepared, so that in the long run it is likely that trouble will be saved in the divisional office by the more correct submission of the initial returns.

PARAGRAPH 8. Special stock verification ordered by Government to 31st March 1882 will show stock value stands with reference to the limit for reserve stock at same date. The same should correspond as closely as possible with

PARAGRAPH 9.—Rates of outturn should correspond as closely as possible with rates of production as soon as operations are sufficiently advanced to permit any reliable estimate to be made of the cost of production.

PARAGRAPH 11.—Explanation should be given to the Superintending Engineer regarding the deficit, and the value must be charged off to the work, the quantity actually at site being brought on to current returns.

PARAGRAPH 12.—If the depositors cannot be found, the items can be credited to Government.
