12TH DECEMBER 1882, No. 3275 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works

No. 73.

READ—the following letter from G. T. WALCH, Esq., Officiating Superintending Engineer, First Circle, to the Chief Engineer, Public Works Department, dated Dowlaiswaram, 26th November 1882, No. 2015-G.D.:—

With reference to G.O., No. 2852, of 31st October 1882, I have the honor to enclose the estimate received therewith put into proper form and accompanied by copy of the Port Officer's specification, under the terms of which the tender referred to by the Master Attendant in his letter with the Government Order under reply was made.

2. I have added to the estimate the usual provision for "Petty Supervision" and "Contingencies."

3. I wish to place on record that I consider this work, which it is proposed to carry out, to be a very advisable one, as a step in the right direction; it is, however, only a step which will not in itself appreciably improve the present state of affairs till it is followed by an advance of the training walls or "groynes" for about the distance named in paragraph 28 of your note with Proceedings, Madras Government, No. 426, of 26th August 1880, to a point where the high-level mud flat ceases and the soundings deepen almost suddenly from 4 feet to 7 feet at low-water springs.

4. The chart and estimate received with the Government Order under reply are returned herewith.

No. 73.

ORDER—dated 12th December 1882, No. 3275 W., Public Works.

Recorded with reference to G.O., No. 3154 W., dated 30th November 1882, on Proceedings in the Financial Department, No. 1735, dated 20th November 1882.

Cocanada Groynes.

Extension of the — into the Bay.

Public Works Department, 1882-83.

Current No. 8364.

Letter No. 2015 L.D.

Dated the 26th November 1882

From the Supy Engr. Tuck Circle

3275 W

NOTE OF REMARKS.

The Estimate with Detail & Specification for Extending the Training Walls or Groynes from Cocanada River to the bay. Amount to Rs 56,300.

The North Groyne will extend 1900 ft. & the South Groyne to 2500 ft. the base to be 38 ft wide gradually coming up in a slope of 1 1/2 in 1 to a width of 6 ft at a height of 1 ft above high water mark. The total height of the groynes to be 11 ft.

The Estimate provides for Petty Supervision & Contingencies.

The Rate Entered is considered fair.

The Estimate does not bear the Counter signature of the Master attendant.

The Supy Engr. notes that this Estimate is merely the one signed by the Master Attendant - put into a regular form.

Sir,

With reference to G.O. No. 2852 of 31-10-82, I have the honor to enclose the Estimate received therewith put into proper form and accompanied by copy of the Port officers specification, under the terms of which the tender referred to by the Master Attendant in his letter with the G.O. under reply, was made.

(2) I have added to the Estimate the usual provision for "Petty Supervision" and "Contingencies"

(3) I wish to place on record that I consider this work which it is proposed to

Carry

carry out, to be a very advisable one as a step
in the right direction; it is however only a step,
which will not in itself appreciably improve
the present state of affairs till it is followed
by an advance of the training walls or
"groynes" for about the distance named
in Para 28 of your note with P.M. G. No. 426
of 26-8-80 to a point where the high-level
mud flat ceases and the soundings deepen
almost suddenly from 4' to 7' at low water
springs

(14) The Chart and Indicate re-
ceived with the G.O. under reply are returned
herewith

I have the honor to be

Sir
