GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

20th September 1879, No. 547 I.

Irrigation.
Establishment.

Read the following papers :—

No. 88. From Captain G. F. L. MARSHALL, R.E., Officiating Assistant Secretary to the Government of India, Public Works Department, (Civil Works—Irrigation,) to the Joint Secretary to the Government of Madras, Public Works Department, Irrigation Branch, dated Simla, 4th September 1879, No. 299 I.

REFERRING to Colonel Hasted's letter No. 742 I., dated the 27th September 1878, I am directed to inquire, now that all famine operations in Madras have ceased, when the revised estimate of the Survapalli Tank, called for in Public Works Department letter No. 442 I., of the 7th June 1872, may be expected.

No. 252 I.

Note by the Chief Engineer for Irrigation.

THE Nellore Division is, and has been for some time past, in charge of a young Assistant Engineer. An Executive Engineer is required for the division, and either an Assistant Engineer or a well qualified Upper Subordinate to aid him in revising the Survapalli Project Estimate. Until Government can officer the division properly there is no probability of the revision being taken up and completed.

OOTACAMUND, (Signed) JOHN MULLINS, Col., R.E.,
14th September 1879. Chief Engineer for Irrigation.
To the Joint Secretary to Government, Public Works Department, Irrigation Branch.

No. 89. ORDER THEREON, 20th September 1879, No. 547 I.

THE Government of India will be informed that His Grace the Governor in Council has been unable hitherto to post an Executive Engineer to the Nellore Division, the establishment of which is at present unequal to the satisfactory performance of the current duties of the department, and cannot therefore undertake the completion of the revision of the Survapalli Project Estimates. As soon as the changes in connection with the reductions of establishment have been carried out, an endeavour will be made to officer the Nellore Division efficiently.

(Here enter No. 548 I., dated 20th September 1879.)

Survapalli Project Estimates.—Inti-
mating that the Government of India will
be informed of the cause of delay in the
completion of — in the Nellore District.

A. 879 N.L.

Superintending Engineer's Office,
2nd Circle, Masulipatam
23rd November 1882.

From

The Superintending Engineer,
2nd Circle.

L

The Chief Engineer
for Irrigation.

Sir,

I have the honor to request that
an Officer may be temporarily sent to Nellore
to work under Captain Henderson's orders
in completing the revised Estimate for the
Suvapalli Project.

2. Mr. Laskey, Sub Engineer was employ-
ed on this duty from October 1880 to February
1882, and the field work has been com-
pleted but requires checking. There is a
considerable mass of papers, which only
require time to be worked into shape.

Captain Henderson has up to date been
unwilling that a special Officer should
be asked for, as he hoped to complete the
Estimate himself, but he finds when at
Head Quarters, that current work absorbs

all his time, while with many Buildings and important works in progress, he is not able to remain at Head Quarters for any length of time.

3. I think a young Officer and a Draftsman working under Captain Henderson's direction should be able to complete the Estimates speedily.

4. I would propose to send Mr. Mackenzie who has just completed his practical course, and who has been working in my Office lately in preparing revised Estimates for the Drainages in the Eastern Sections of the Kistna. If no other arrangements for this gentleman's employment have been made, I trust he may be posted to Nellore for this duty.

I have the honor to be,
Sir,

Your most Obedt Servant.

J. W. Ramsall
Superintending Engineer,
2nd Circle.

From

The Supr. Engineer,
2nd Circle.

To
W. N. 10383 of 21.12.82
Letter from Supg. Engineer
2nd Circle, No 879 N. L.
dated 23rd ultimo.

It is essential that
the Suvrapalli Project
should be completed
as early as possible,
and I support the
Supg. Engineer's recom-
mendation that
Mr. Mackenzie should
be posted to Bellore
to assist Capt. Henderson.

I should have made
some suggestion to this
effect earlier, but
Capt. Henderson told me
he was progressing with
the work and wished
to complete it himself.
