GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

8th February 1882, No. 352 W.

General Account.

Read the following paper:—

No. 28. From Major-General A. FRASER, R.E., Secretary to the Government of India, Public Works Department, (Account—General,) to the Secretary to the Government of Madras, Public Works Department, dated Fort William, 23rd January 1882, No. 48 A.—G.

THE Accountant-General, Public Works Department, in reviewing the abstract of reports of inspections of Divisional Offices carried out by the Examiner, Public Works Accounts, Madras, during the half-year ending 30th September 1881, has brought to the notice of the Government of India that (1) the operations of the Dowlaishweram and Presidency Workshops during the year 1880-81 resulted in a net loss to Government of Rs. 21,296 and Rs. 22,160 respectively, and (2), that the cost of the establishment employed in the Presidency Stores Division in 1880-81 was 40 per cent. on the value of the store issues and nearly 24 per cent. on value of receipts and issues taken together, accounted for during that year.

2. I am directed to invite the attention of the Government of Madras to these matters, and to say that the Government of India would desire to be favored with a report on the Workshop losses, and to inquire whether it is necessary to maintain such an expensive establishment in the Presidency Stores Division as compared with the value of the current transactions.

No. 29. ORDER THEREON, 8th February 1882, No. 352 W.

IT is remarked that the question of the heavy losses resulting from the operations of the Dowlaishweram and Presidency Workshops has recently engaged the serious attention of the Right Honorable the Governor in Council. Copies of the Proceedings of Government in which the matter has been reviewed will be forwarded for the information of the Government of India.

2. The General Superintendent, Public Works Stores, will report on the high percentage of establishment charges during 1880-81 noticed by the Government of India, and will state whether any, and if so, what reductions are feasible.
