Superintending Engineer's Office
2nd Circle, Masulipatam
22nd December 1881.

From

The Superintending Engineer,
2nd Circle.

L

The Chief Engineer,
Public Works Department.

Sir,

The Executive Engineer, Nellore Division has requested me to apply for permission to increase the value of Stock in his Division from Rs: 1,500, at which sum it was fixed in G.O. No 914.W. of the 4th April 1881, to Rs: 5,000.

2. Lieutenant Henderson bases his request on several grounds.

(1) That certain Cast Iron posts valued at Rs: 807 were ordered to be retained, but no extra margin was allowed for them. The sum outstanding on these has been reduced to Rs: 700 but will take many years before the whole of the posts will be used up.

(2) Since the Committee reported on the Stock of the Department, the Sangam Project has been sanctioned, and much more work is now being turned out than in previous years in the Kellore Shops. The Consumption of materials has increased and the working balance requires expansion also.

3. I recently inspected the Kellore Workshops and found that the balance of Iron of sizes most meagre, Rs. 68 being the Book value of the largest quantity of any one kind.

4. The present total value of Stock is Rs. 3900, and I beg to recommend that Rs. 5000 be fixed as the total amount, distributed as follows:-

- | | | |
|---|--------------------|--------|
| 1 | Small Stores | Rs 500 |
| 2 | Building materials | " 1000 |
| 3 | Lumber | " 1500 |
| 4 | Metals | " 2000 |

5. Lieutenant Henderson explains that neither Lumber nor metals can be procured locally, but that he has to arrange for the supply of whatever is required from Madras.

6. I consider there is every reason for acceding to the Executive Engineer's request and trust that sanction may be granted accordingly.

I have the honor to be,

Sir,

Your Most Obedient Servant.

L. W. Ramsdale
Superintending Engineer,
