No. 68. From Major-General A. FRASER, R.E., Secretary to the Government of India, Public Works Department, (Civil Works—Miscellaneous,) to the Secretary to the Government of Madras, Public Works Department, dated Fort William, 8th February 1882, No. 70 M.

In acknowledging the receipt of the letters marginally noted, referring to the damage done to the Madras Harbour Works by the cyclone in November 1881, I am directed to inform you that in order that the Government of India may be placed in a position to advise the Secretary of State as to whether the works should be continued or not, it is proposed to depute certain officers to inspect the works on behalf of the Government of India, to ascertain and report on the actual facts of the case in order that the Governor-General in Council may hereafter decide upon the action which may be necessary with regard to the required modifications and repairs.

Do. do. No 71/2855 W. of 28th November 1881, to the Secretary of State for India.

2. It is not intended that this inquiry should in any way hamper Mr. Parkes in whatever proposals and plans for reconstruction he may deem it necessary to make, but its object is merely to place the Government of India in possession of independent testimony of the facts.

3. Mr. Molesworth, the Consulting Engineer to the Government of India for State Railways, and Lieutenant Stiffe of Her Majesty's Indian Marine have been deputed therefore to make independent reports on the works.

4. It is probable that Mr. Molesworth's duties will allow him to proceed to Madras about the middle of this month, and the Government of India has no doubt that the Government of Madras will give every aid to the officers named in carrying out their inquiries.
