EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

The reduction in the case of the first work (Talug Cutcherry) is proposed because the work has been completed with a saving to the extent of the grant surrender caused by an error in the Estimate and alteration in the design ordered by the Superintending Engineer.

In the Case of the Hospital Assistants Quarters the grant sanctioned for the current year was Rupees 178 in excess of the actual requirement wh the application for grant was prepared by this office, it was intended to adjust the value of the Convict Labor employed on the work only in this year but the bill from the Jail Department having been received before the close of the supplemental accounts of last official year the necessary adjus-ment was made in those accounts to utilize the balance of appropriation of last year, hence the excess grant of Rs 178 to which is added Rs saving on the estimate thus making Rupees 264 the amount surrendered.
