No. 67. From Quartermaster-General, dated 11th May 1881, No. 539.

No. 68. ORDER THEREON, 17th June 1881, No. 1,519 W.

THE papers read above give cover to statements of requirements of Superintending Engineers and Superintendents of Works on account of incomplete works of 1880-81 and of new works sanctioned but not yet commenced and which are recommended for execution in 1881-82.

2. The sum of Rs. 10,000 required for renewing the roofs of the north and south blocks of the old barracks at Poonamallee, has, as recommended by the Superintending Engineer, Second Circle, been provided by transfer from the appropriation made in the budget for the barracks for European troops at Poonamallee subject to the approval of the Government of India. A further sum of Rs. 4,573 has also been transferred from the grant for budget item I to admit of the completion of the undermentioned works which cannot be provided for from the Reserve—

(*a*) Additions and alterations to new hospital at Poonamallee.
(*b*) Additions and alterations to old hospital.

3. Under Provincial it has not been possible to provide for any uncommenced works, the balance under Reserve being only Rs. 38,416, which sum is hardly sufficient to provide for the most emergent incomplete works.

4. The Government fully recognize the importance of carrying out several uncommenced works now brought to notice, but regret that for financial reasons they are compelled to postpone them.

5. The Financial Department will authorise the Accountant-General to place at the disposal of the Public Works Department the sum of Rs. 6,052, required for the following works, from the sum of Rs. 50,000 alluded to in G.O., No. 2,168, dated 22nd November 1880, Financial Department:—

	RS.
Sub-Registrar's Office at Kumbakónam...	747
District Registrar's Office at Tanjore	4,000
	4,747
Establishment charges	1,187
Tools and Plant	118
Total ...	6,052

By this arrangement the sum of Rs. 13,107 applied for in G.O., No. 366 W., dated 10th February 1881, on account of the Registrar's Office at Tanjore will not be wanted.

6. The Financial Department will further authorise the Accountant-General to place to the credit of the Public Works Department the amounts required from the following sources:—

	RS.	
Convict Labor Fund	14,874	By transfer to the credit of Provincial Funds.
Cattle Pound Fund	21,837	
Educational Building Fund	5,758	
Port Fund...	4,768	

7. The Revenue Department have already been requested by endorsement No. 1,257 of 20th May 1881 to authorise the Conservator of Forests to place Rs. 11,132 at the disposal of the Executive Engineer, West Coast Division, on account of the Deputy Conservator of Forest's residence at Manantoddy.

8. Column 10 of the annexed statement shows the amount that has been appropriated in 1881-82.

9. It should be distinctly understood that no works other than those for which appropriations are now made should be proceeded with in the absence of the special orders of Government.

10. The attention of officers of the department is called to Rule III under paragraph 1,757 of the Code, from which they will observe that when the amount required to complete a work of a previous year is less than Rs. 500, no appropriation is necessary to cover the unexpended balance in the current year. The statements should not therefore include works of this character. By a little additional exertion towards the close of each financial year, the number of these works should be small.

Statements of requirements.—Orders on—of Superintending Engineers and Superintendents of Works on account of incomplete works of 1880-81 and of new works sanctioned but not yet commenced and which are recommended for execution in 1881-82.

7

Public Works Departt

No 2534 dated 2nd November 1881

Circular.

It is observed from the Statement of grants and expenditure up to October that whereas the total grants under all heads to the end of the year stand at Rs 56.71 Lakhs, the total outlay for the first seven months is only 27.23 Lakhs, or at the rate of 3.6 Lakhs a month.

2. To allow of full advantage being taken of available funds during the remaining five months of the year it will be necessary to arrange for an expenditure monthly of not less than 5.9 Lakhs.

3. The attention of Superintending Engineers is drawn to the necessity of utilizing the funds placed at disposal for the current years outlay, but should it be found that in any case the requisite progress cannot be made owing to causes beyond control there should be no hesitation in at once re-signing assignments in whole or in part with a view to the utilization of the grants on other works for which there are several urgent demands.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

2nd June 1881, No. 1,378 W.

Buildings and Roads.
Military Works.

Read the following papers :—

No. 1. From Brigadier-General H. O'CONNELL, Quartermaster-General, to the Chief Engineer and Secretary to Government, Public Works Department, dated Ootacamund, 9th May 1881, No. 528.

I HAVE the honor, by order, to forward, for the consideration and orders of Government, the correspondence, as per margin, relative to the clearing of channels and other repairs to the Bellary water-supply and the completion of the revetment of the Alipore tank-bund at Bellary.

Letter, No. 72-81, dated 3rd May 1881, from the General Officer Commanding Ceded Districts, with three enclosures.

2. The Provincial Commander-in-Chief trusts that funds may be made available for carrying out these important works.

No. 1-A. From Colonel R. H. SANKEY, R.E., Chief Engineer, Public Works Department, to the Quartermaster-General, dated 19th May 1881, No. 83.

WITH reference to your letter, No. 528, dated 9th May 1881, proposing an allotment of funds for work required in connection with the water-supply at Bellary, I have the honor to suggest, for the consideration of the Provincial Commander-in-Chief, a transfer from the provision for Budget Item 2, New Barracks for Royal Artillery at St. Thomas' Mount, the estimate for which has not yet been sanctioned, there being no funds at the disposal of Government from which the amount required for the Bellary water-supply may be otherwise provided.

No. 1-B. From Lieutenant-Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, First Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 17th May 1881, No. 371.

I HAVE the honor to represent that the Brigadier-General Commanding Ceded Districts lately called my attention to the fact that the Alipore tank revetment has not been completed, whereby the full supply of water for the Bellary Cantonment cannot be stored. The Brigadier-General desired that I would apply for the funds required, viz., Rs. 8,958, the unexpended balance of the estimate of Rs. 1,41,628.

2. I replied that I had entered the work in my budget list for the current year, but that funds had not been provided by the Government in their budget, and that I anticipated the work would not be sanctioned till the Public Works Department

should somewhat recover from its depressed condition and have more funds allotted to it to expend.

3. The Brigadier-General has again pressed the matter upon an estimate which the Sub-divisional Officer at Bellary made recently for the completion of the revetment to be carried out in this season. I am of opinion that it would be a very bad time to commence the work, for a good deal of water may come into the tank in June, and from that month at any time on till October. The commencement of the hot weather is the time that I would propose for the work, that is, about the beginning of March, or earlier in the year if it happened that there was a scanty supply of water and that the tank was already exhausted.

4. I would submit for your consideration, however, now while it is still early in the official year, whether some allotment may be given towards the close of the year to allow of the work being commenced, though, supposing sanction to be given, probably not much money would be disbursed, and the chief expenditure would run into 1882-83.

No. 96.

REFERRED to the Quartermaster-General for remarks in continuation of letter from the Chief Engineer, No. 83, dated 19th May 1881.

(Signed) R. H. SANKEY, Colonel, R.E.,
Chief Engineer, P.W.D.

21st May 1881.

No. 1-C. From Brigadier-General H. O'CONNELL, Quartermaster-General, to the Chief Engineer and Secretary to Government, Public Works Department, dated Ootacamund, 21st May 1881, No. 608-3,554.

IN reply to your letter, No. 83, dated 19th instant, I have the honor, by order, to state that both the water-supply at Bellary and the New Barrack for Royal Artillery at St. Thomas' Mount are important works which the Provincial Commander-in-Chief would wish commenced as soon as possible.

2. If, therefore, funds for the water-supply works at Bellary cannot be made available without intrenching upon the budget grant of Rs. 20,000 for the barracks at St. Thomas' Mount, the Provincial Commander-in-Chief suggests that Rs. 10,000 of that grant be transferred to Bellary for expenditure on the water-supply works there.

No. 1-D. From the same Officer, dated Ootacamund, 23rd May 1881, No. 615.

IN returning letter from the Superintending Engineer, First Circle, referred for remarks with your endorsement No. 96, I have the honor, by order, to observe that in my letter, No. 608, dated 21st instant (which must have crossed your No. 96), it was stated that both the water-supply at Bellary and the new barrack at St. Thomas' Mount were important works, and it was suggested that a portion of the grant in 1881-82 for the barrack (Rs. 20,000) might be transferred to the water-supply works at Bellary.

2. As it is observed, by the Superintending Engineer's letter, that little can be done in the current year to the water-works at Bellary, it is now suggested that the amount transferred may be only what can be efficiently spent on the water-works at Bellary in the current year, leaving as much of the Rs. 20,000 as possible for the barrack at St. Thomas' Mount.

No. 2. ORDER THEREON, 2nd June 1881, No. 1,378 W.

As it appears from this correspondence that work cannot be profitably carried on in connection with the Bellary Water-supply Project till the commencement of the

ensuing hot season, the question of an allotment of funds will be deferred. Should it be practicable to resume work before the close of the current official year, the Superintending Engineer will make timely application for a grant. The unexpended balance of the estimate will in any case be provided early in next official year, and arrangements should be made for carrying on the work to completion during the next most favorable season.

No. 197. From the District Engineer, Tanjore, dated 19th Dec. 1877, No. 2,176.
No. 197-A. From " " " 8th Feb. 1878, " 282.

No. 197-B. From Captain R. R. E. BROCKMAN, R.E., District Engineer, Tanjore, to the Chief Engineer, Public Works Department, dated Tanjore, 1st March 1878, No. 474.

WITH reference to your memorandum, No. 841, dated 16th February 1878, I have the honor to resubmit herewith the plan and estimate for constructing the Sub-Registrar's Office at Combaconum duly revised as directed in the above memorandum.

One plan.
One detail plan.
One sketch.
One abstract estimate.

2. Ventilators $3\frac{1}{2}'$ by $2'$ are provided in the enclosed estimate with reference to the most convenient and economical mode of placing the record almirahs so as to thoroughly utilise all the available space, provision being made for guarding the windows and ventilators with iron bars.

3. Each record-room will consist of eight almirahs according to the dimensions given by the Sub-Registrar, and the sixteen almirahs thus arranged in two record-rooms will hold records for thirty-two years at the rate of one almirah to contain the records of two years as stated in paragraph 8 of the Sub-Registrar's letter, No. 18, dated 30th January 1878.

4. The enclosed estimate as now revised amounts to Rupees 4,580, or Rupees 180 less than the original estimate Rupees 4,760.

No. 198. ORDER THEREON, 15th March 1878, No. 1,341 W.

THE plan and estimate of Rupees 4,580 for constructing a Sub-Registrar's Office at Combaconum are sanctioned.

2. The District Engineer, Tanjore, will apply for funds in his statement of demands against the Provincial Reserve of 1878-79 to be submitted in April next.

3. This sanction has been registered as Provincial No. 305 B of 1877-78.

Read the following paper:—

No. 111. Endorsement of the Chief Secretary to Government, Marine Department, dated 26th September 1881, No. 1,607.

From J. H. TAYLOR, Esq., Lieutenant, R.N.R., Master Attendant, Administrative Department, to the Chief Secretary to Government, Marine Department, dated Madras, 21st September 1881, No. 8,226.

I HAVE the honor to forward the papers as per margin, relative to an estimate amounting to Rs. (3,900) three thousand and nine hundred, forwarded by the Collector of Tanjore, for removing silt in the Koraiyar river, which connects the port of Mutupet with the sea. He states that considerable obstruction is caused to the trade from the accumulation of silt in the river, and as Mutupet is an important port, second only to Negapatam, he considers it absolutely necessary to keep the river free for the progress of trade.

From the Collector of Tanjore, No. 3,232, dated 14th June 1881.
From the Acting Sub-Collector of Tanjore, No. 408, dated 4th June 1881.
From the Executive Engineer, Negapatam Division, No. 2,409, dated 25th May 1881.
Description of work, dated 10th May 1881.
Report accompanying estimate, dated 10th May 1881.
Specification, dated 10th May 1881.
Estimate amounting to Rs. 3,900, dated 10th May 1881.

2. The papers were held over till now in anticipation of the extension of the provisions of the Ports Act 1875 to the minor ports, thus rendering Port Funds available to meet the expenditure involved in the improvement proposed for Mutupet. This has now been done, and I have to solicit the sanction of Government to the sum of Rs. (3,900) three thousand and nine hundred being allotted from Port Funds for the above work.

3. As it is one of a recurring nature, it seems advisable to make some provision to meet it, so that it may not be a burthen on the Port Fund. I therefore suggest that a small toll may be levied on the boats in the Public Works or Revenue Department for the conservancy of the river in either of those departments.

TRANSFERRED to the Public Works Department.

(Signed) R. DAVIDSON,
Chief Secretary.

No. 111-A. From the Master Attendant, dated 8th October 1881, No. 8880.

No. 112. ORDER THEREON, 20th October 1881, No. 2574 W.

THE estimate amounting to Rs. 3,900, for removing silt in the Koraiyar river in front of the Mutupet Sea Custom House, and in places down the river, in the Negapatam Division, is sanctioned.

2. The Accountant-General will be instructed in the Financial Department to place the sum of Rs. 4,972* at the disposal of the Public Works Department from Port Funds on account of the above work.

		RS.
* For Works		3,900
Establishment		975
Tools and Plant		97
	Total ...	4,972

3. This sanction has been registered as Excluded Local Funds (Port Funds) No. 31 W. of 1881-82, and classified as Miscellaneous Public Improvement—Repairs.

4. The suggestion in paragraph 3 of the Master Attendant's letter of the 21st September, No. 8,226, will be considered in the Revenue Department.
