Establishment.

Read the following paper :—

No. 99. Endorsement of the Chief Engineer for Irrigation, dated Chepauk, 20th February 1882, No. 8-E.W.

From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer for Irrigation, dated Chepauk, 14th February 1882, No. 1038.

I HAVE the honor to report that I have authorised the employment of a pensioned Apothecary for three months, at Rs. 60 per month, at the Pelandorai Anicut works.

2. I applied for the services of a medical subordinate under paragraph 492 of the Code on account of cases of cholera reported from the Anicut works. The Surgeon-General told me that medical aid might be had from Vriddháchalam if the Local Fund Board agreed to the Apothecary going out to Pelandorai two or three times a week. The Civil Surgeon at Cuddalore however informed the Executive Engineer that the Local Fund Board would not agree to the proposal; but that a pensioned Apothecary was available on the salary mentioned.

3. I had at first referred the Executive Engineer to your Circular No. 71 of the 21st August 1875, suggesting that he should obtain some medicines and instructions; but upon the Executive Engineer's answer (No. 83 of 31st January), which I enclose for your perusal (and return), it appeared to me that further measures were necessary.

From J. E. PAUL, Esq., Officiating Executive Engineer, South Arcot Division, to the Superintending Engineer, Fifth Circle, dated Camp, Padripoliore, 31st January 1882, No. 83.

I HAVE the honor to bring to your notice that reports of cholera cases are being constantly received from the Pelandorai Anicut, and request that you will kindly reconsider your orders conveyed in No. 778 of 21st January 1882, and ask Government for the services of a Hospital Assistant. If cholera, as it is at present, increases, the work may be delayed, so that it would not be finished before next Irrigation season, and Government will again lose revenue. A skilled man is not required, only some one to look after the cholera sheds.

2. There have been as many as 800 people on the work, and as they come from all villages round, cholera, if it becomes epidemic, will probably spread.

No. 976.

South Arcot, No. 83 of 31st January 1882.

THE Surgeon-General writes that he cannot spare a Hospital Assistant; but he does not object to the Civil Apothecary at Vriddháchalam visiting the Pelandorai Anicut two or three times a week, and engaging a medicine distributor to remain on the spot. The charges on their accounts and the travelling allowances of the Apothecary have to be paid by the Public Works Department. The Surgeon-General is writing to the Civil Surgeon at Cuddalore to make the necessary arrangements.

CHEPAUK,
9th February 1882.

(Signed) H. L. PRENDERGAST, Colonel, R.E.,
Superintending Engineer, Fifth Circle.

To the Executive Engineer.

TRANSFERRED to the Chief Engineer, Public Works Department, for the necessary sanction.
