GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

10th March 1882, No. 613 W.

General.
Account.

Read the following paper:—

No. 83. From Colonel W. S. TREVOR, R.E., Secretary to the Government of India, Public Works Department, (Account—General,) to the Secretary to Government, Public Works Department, Madras, dated Fort William, 3rd March 1882, No. 118 A.—G.

In the Regular Estimates of this Department for the year 1880-81 it was anticipated that the net demands on the Civil Department during February and March of that year would aggregate 170 lakhs, whereas the actual result was a net issue by that Department of only 120 lakhs.

2. From an investigation of the Regular Estimate lately submitted to the Finance Department for incorporation with the general Estimates of the Empire, it is found that the probable net demands against the Civil Department during February and March 1882 will aggregate about 262 lakhs; while from the reports submitted to the Accountant-General, Public Works Department, it would appear that the net demands will fall short of the amount by a considerable sum.

3. I am directed to draw your attention to the apparently excessive demands for funds which have been submitted during the current year, and to request that every effort will now be made to utilise the grants made for expenditure as fully as the limited time available will permit.

No. 84. Order thereon, 10th March 1882, No. 613 W.

Communicated to Superintending Engineers, who will arrange for funds being utilised to the fullest possible extent.
