Read the following paper:—

No. 91. Endorsement of the Acting Secretary to Government, Military Department, dated Fort St. George, 11th March 1882, No. 1168.

From Major D. J. S. McLEOD, Officiating Deputy Quartermaster-General, to the Secretary to Government, Military Department, dated Fort St. George, 4th March 1882, No. 1641 (through Controller of Military Accounts).

In forwarding the accompanying letter from the Officer Commanding Mysore Division, No. 55, dated 31st January 1882, on the subject of proposed measures for temporarily accommodating the 1st Light Cavalry on the Arab Lines at Bangalore, I am desired by His Excellency the Commander-in-Chief to request the sanction of Government for the construction of four permanent latrines at a cost of Rs. 350 for the use of the regiment, the work being carried out under regimental supervision.

2. It is desirable that good latrines should be built for the 1st Light Cavalry at once, as a regiment of Native Cavalry is sure to be stationed at Bangalore, and by erecting good ones now save spending money twice over for the purpose.

From Major-General W. PAYN, C.B., Commanding Mysore Division, to the Quartermaster-General, Fort St. George, dated Bangalore, 31st January 1882, No. 55.

Adverting to paragraph 2 of your No. 584 of the 24th instant, I have the honor to submit the following as the proposed measures for temporarily accommodating the 1st Light Cavalry at the Arab Lines.

2. A site for camp and horse lines has been marked out on the ground, slightly to the northward of that upon which the permanent lines would stand, so that in the event of the regiment being quartered here, work for hutting it will be in no way interfered with.

3. No better accommodation for the sick than hospital tents is available. Cots for those in hospital will be provided on the recommendation of the Deputy Surgeon-General, Her Majesty's Forces.

4. The Commandant of the Corps informs me that he can make arrangements regimentally, by which the families will be very generally housed.

5. For his farriers and trumpeters Lieutenant-Colonel Cherry will also be able to arrange accommodation in the vicinity, and he hopes to house the unmarried troopers also close at hand.

6. There is a small house now vacant, the rent of which is *Rs.* 17 per mensem, which Colonel Cherry suggests should be taken up as a school-house, in which accommodation for the schoolmaster would be found.

7. There is a large set of premises containing about seventy stalls, with sundry out-offices, which can be secured at a monthly rental of *Rs.* 40. These Colonel Cherry reports would prove of very great use, as affording ample space for sick lines, stores, workshops, gram-shed and so forth.

8. These premises were inquired after in anticipation of the move of the 1st Cavalry; owing to the uncertainty of the movement of the 12th Lancers matters were somewhat hurried

as to securing them; and the owner is now unwilling to await the time most suitable to the Military authorities for taking them up, stating that he has another offer for immediate occupation.

9. Rather than lose the premises, which will be of such use to us, I have authorized Colonel Cherry to secure them from the 1st February, should the owner continue to hold out against further delay, in anticipation of the sanction of His Excellency the Commander-in-Chief.

I also recommend that the house suggested by Colonel Cherry as being suitable for a school should also be taken up.

10. Latrines will, under any circumstances, be necessary from the moment the regiment moves out to camp.

If the corps is to be permanently placed here, I submit for consideration of His Excellency the Commander-in-Chief that a great saving would be effected were sites fixed upon and permanent latrines erected without loss of time.

11. Colonel Cherry reports that four such will be necessary, viz., one each for the troopers, followers, male and female, and a small one for the hospital.

The cost of erecting these as semi-permanent structures is estimated at *Rs.* 350, for which expenditure sanction is sought, the work being carried out under regimental supervision.

Structures less costly might be put up sufficient to last for a month or two, should it be intended to build permanent latrines without loss of time.

TRANSFERRED to the Public Works Department with reference to Proceedings of Government, No. 106 W., dated 13th January 1882, and Military Department No. 1165, dated 11th March 1882.
