2. A sum of Rs. 480 (the pay of a Second-class Hospital Assistant) is provided for the salary of the Medical Subordinate of the Pílér Dispensary. It should be reduced to Rs. 420, being the pay and charge allowance of the Civil Hospital Assistant attached to the institution in question.

3. Rs. 120 are entered under the heading "Medical Subordinate" for the pay of a "Midwife now under training at Madras." The item should be provided for under proper heading.

4. A sum of Rs. 360 is entered as the contribution towards the expenses of the Medical College.

2. The regular estimate is accepted as revised by the Board of Revenue. It shows a slight increase under "Land Cess" owing probably to collection of arrears and an increase in the outlay on Public Works consequent on allotments made for incomplete works. The amount reserved for famine adjustment is not included in the charges, and the balance at the close of the year is omitted to be shown in the detailed regular estimate.

3. It is proposed to reserve out of the Road Fund balance Rs. 30,000 for famine adjustments. The Government consider it very unsatisfactory that these payments should be put off from year to year. In paragraph 3 of G.O., dated 16th May 1881, No. 864, Financial Department, they observed that these reservations should close with the year 1881-82. The reasons adduced for not effecting the adjustments in the current year are not satisfactory. If the whole amount provided for could not be paid, there was nothing to prevent the greater portion, say three-fourths, being paid. The state of the Road Fund does not seem to justify a larger grant in 1882-83 than Rs. 20,000 for the purpose. This would provide for an efficient working Road Fund balance in place of the small figure Rs. 320 shown in the budget, and place at the Local Fund Board's disposal sufficient funds for the maintenance of roads for which the grants now made are considered very inadequate. The actual amount of the debt due on account of famine outlay is not reported. The Government await the report promised on the subject by the Board of Revenue.

4. The Land Cess is estimated to yield Rs. 5,800 less than the regular estimate. The current demand for 1882-83 being taken at the same figure as for the current year, viz., Rs. 58,200, and the arrears demand being Rs. 15,100, the anticipated collections allow of only Rs. 7,300 or about 10 per cent. of the entire demand outstanding at the close of the year. The estimate is therefore fair and will be accepted.

5. The Public Works provision is approved subject to further grants for the maintenance of roads, if necessary, from the funds now made available. The educational provision will be passed subject to report from the Director of Public Instruction, whose remarks on the subject should have been submitted ere this. The provision for Hospitals will be revised with reference to the letter from the Secretary to the Surgeon-General submitted with the Board's Proceedings, 21st January 1882, No 543. The other items do not call for remark except that the General Fund reserve is exceedingly small and is only about 17 per cent. of what it ought to be. Only Rs. 600 obtained from the Surplus Pound Fund can be legally spared by the Road Fund.

6. Subject to the above remarks the Right Honorable the Governor in Council passes the Budget Estimates of the Madanapalle Circle for 1882-83.

2. The regular estimate is accepted as revised by the Board of Revenue. It shows a slight increase under "Land Cess" owing probably to collection of arrears and an increase in the outlay on Public Works consequent on allotments made for incomplete works. The amount reserved for famine adjustment is not included in the charges, and the balance at the close of the year is omitted to be shown in the detailed regular estimate.

3. It is proposed to reserve out of the Road Fund balance Rs. 30,000 for famine adjustments. The Government consider it very unsatisfactory that these payments should be put off from year to year. In paragraph 3 of G.O., dated 16th May 1881, No. 864, Financial Department, they observed that these reservations should close with the year 1881-82. The reasons adduced for not effecting the adjustments in the current year are not satisfactory. If the whole amount provided for could not be paid, there was nothing to prevent the greater portion, say three-fourths, being paid. The state of the Road Fund does not seem to justify a larger grant in 1882-83 than Rs. 20,000 for the purpose. This would provide for an efficient working Road Fund balance in place of the small figure Rs. 320 shown in the budget, and place at the Local Fund Board's disposal sufficient funds for the maintenance of roads for which the grants now made are considered very inadequate. The actual amount of the debt due on account of famine outlay is not reported. The Government await the report promised on the subject by the Board of Revenue.

4. The Land Cess is estimated to yield Rs. 5,800 less than the regular estimate. The current demand for 1882-83 being taken at the same figure as for the current year, viz., Rs. 58,200, and the arrears demand being Rs. 15,100, the anticipated collections allow of only Rs. 7,300 or about 10 per cent. of the entire demand outstanding at the close of the year. The estimate is therefore fair and will be accepted.

5. The Public Works provision is approved subject to further grants for the maintenance of roads, if necessary, from the funds now made available. The educational provision will be passed subject to report from the Director of Public Instruction, whose remarks on the subject should have been submitted ere this. The provision for Hospitals will be revised with reference to the letter from the Secretary to the Surgeon-General submitted with the Board's Proceedings, 21st January 1882, No 543. No. 68. ORDER THEREON, 17th June 1881, No. 1,519 W.

THE papers read above give cover to statements of requirements of Superintending Engineers and Superintendents of Works on account of incomplete works of 1880-81 and of new works sanctioned but not yet commenced and which are recommended for execution in 1881-82.

2. The sum of Rs. 10,000 required for renewing the roofs of the north and south blocks of the old barracks at Poonamallee, has, as recommended by the Superintending Engineer, Second Circle, been provided by transfer from the appropriation made in the budget for the barracks for European troops at Poonamallee subject to the approval of the Government of India. A further sum of Rs. 4,573 has also been transferred from the grant for budget item I to admit of the completion of the undermentioned works which cannot be provided for from the Reserve—

(*a*) Additions and alterations to new hospital at Poonamallee.
(*b*) Additions and alterations to old hospital.

3. Under Provincial it has not been possible to provide for any uncommenced works, the balance under Reserve being only Rs. 38,416, which sum is hardly sufficient to provide for the most emergent incomplete works.

4. The Government fully recognize the importance of carrying out several uncommenced works now brought to notice, but regret that for financial reasons they are compelled to postpone them.

5. The Financial Department will authorise the Accountant-General to place at the disposal of the Public Works Department the sum of Rs. 6,052, required for the following works, from the sum of Rs. 50,000 alluded to in G.O., No. 2,168, dated 22nd November 1880, Financial Department:—

	RS.
Sub-Registrar's Office at Kumbakónam...	747
District Registrar's Office at Tanjore	4,000
	4,747
Establishment charges	1,187
Tools and Plant	118
Total ...	6,052

By this arrangement the sum of Rs. 13,107 applied for in G.O., No. 366 W., dated 10th February 1881, on account of the Registrar's Office at Tanjore will not be wanted.

6. The Financial Department will further authorise the Accountant-General to place to the credit of the Public Works Department the amounts required from the following sources:—

	RS.	
Convict Labor Fund	14,874	By transfer to the credit of Provincial Funds.
Cattle Pound Fund	21,837	
Educational Building Fund	5,758	
Port Fund...	4,768	

7. The Revenue Department have already been requested by endorsement No. 1,257 of 20th May 1881 to authorise the Conservator of Forests to place Rs. 11,132 at the disposal of the Executive Engineer, West Coast Division, on account of the Deputy Conservator of Forest's residence at Manantoddy.

8. Column 10 of the annexed statement shows the amount that has been appropriated in 1881-82.

9. It should be distinctly understood that no works other than those for which appropriations are now made should be proceeded with in the absence of the special orders of Government.

10. The attention of officers of the department is called to Rule III under paragraph 1,757 of the Code, from which they will observe that when the amount required to complete a work of a previous year is less than Rs. 500, no appropriation is necessary to cover the unexpended balance in the current year. The statements should not therefore include works of this character. By a little additional exertion towards the close of each financial year, the number of these works should be small.

Please read the accomp -ing correspondence regarding assessment paid yearly for the ground on which the Range Office at Cumbum is situated and inform me whether the charge of Rs1-15-10 may not be debited to Repairs Civil Buildings, unde the general ruling in Code para 1087.

It appears desirable that steps should be taken to take over the land and obviate the necessity for this yearly charge.
