PUBLIC WORKS DEPARTMENT.

27th March 1882, No. 807 W.

General Account.

Read the following paper:—

No. 213. From Colonel H. L. PRENDERGAST, R.E., Superintending Engineer, Fifth Circle, to the Chief Engineer, Public Works Department, dated Chepauk, 14th March 1882, No. 1322.

I have the honor to report that one of the two special boats purchased by the Superintendent of Works, Buckingham Canal, under the sanction given in G.O., No. 2441 W., dated 22nd October 1880, has become unserviceable, the bottom planking of the hull about the centre being unsound and rotten, and the hull itself not worth repairing. The boat was originally purchased and fitted up for the tour of His Grace the Duke of Buckingham in January 1880; at that time the hull of the boat had to be repaired to make it temporarily serviceable, and it was necessary during the tour to use a pump to keep it afloat. I recommend that sanction be given for the sale of the boat by public auction. Its present book value is Rs. 1,410. The furniture and fittings can be transferred to the other special boat.

2. There are also two top-boats and two ferry boats which were purchased in 1875 for the canal and for ferrying purposes in Nellore. These boats were subsequently used for conveying materials, &c., for the canal works carried out during the famine. They have become worn out and unserviceable, and I recommend that their sale may be authorised. The present book values are:—
