GOVERNMENT OF MADRAS.

## REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue, dated 17th February 1882, Miscellaneous No. 1498 :—

*Read*—the following letter from W. R. ROBERTSON, Esq., M.R.A.C., Superintendent, Government Farms, to the Secretary to the Board of Revenue, dated Saidápet, 18th January 1882, No. 1490 :—

I have the honor to submit the report called for in the Proceedings of the Board, Miscellaneous No. 10545, dated the 12th of December last.

2. DISTRICT AGRICULTURAL OPERATIONS.—The cost of the scheme referred to in Board's Proceedings, dated the 1st of April 1881, No. 552, was estimated by the Director of Public Instruction in paragraph 11 of his letter printed in the Proceedings of the Board, No. 2864, of the 18th of November last, to amount to Rs. 2,844 annually until the experimental stations are established. This, however, refers only to a portion of a scheme including the whole Presidency, which was reviewed and approved by the Board in their Proceedings, No. 5223, dated 13th December 1877, the cost of carrying out which, it was estimated, would amount to Rs. 4,000 per mensem, excluding travelling charges and the working charges of the experimental stations.

3. CATTLE DISEASE INSPECTION.—In the Proceedings of the Board, No. 1125, of the 29th of April 1878, proposals were submitted by me for establishing and maintaining a small Cattle-disease Inspection Department for the whole Presidency. The cost of the scheme was estimated at Rs. 1,500 per mensem, excluding travelling charges and the salary of the Chief Inspector. Referring to this scheme, the Board in their Proceedings, No. 2212, of the 9th of August 1878, observed : " The proposals will receive further consideration when funds are available." And in paragraph 3 of their Proceedings, No. 2530, of the 28th of October last, the Board further recommended that this scheme should be inaugurated.

4. AGRICULTURAL EXHIBITIONS.—In my letter No. 570, dated the 4th June last, I submitted a scheme for holding Agricultural Exhibitions in various parts of the Presidency, the cost of which would amount to Rs. 15,000 per annum. These proposals have not yet been disposed of.

5. IMPORTATION OF SWEDISH PLOUGHS.—I submitted an indent with my letter No. 1251, dated the 24th November last, for 250 Swedish ploughs, the cost of which, it was estimated, would amount to Rs. 3,700, which cost will have to be met.

6. THE SCHOOL OF AGRICULTURE BUILDING.—The original approved design is for a two-storied building, but the upper story has not yet been constructed. The Board in their Proceedings, No. 1226, dated the 30th June last, approved of a proposal I made, that a portion of the upper story should be constructed at once, in view to afford me office accommodation. I venture to urge strongly the advisability of the whole building being completed at once. The cost of completing the structure finally will be very little more than must be incurred for putting up the portion to be used as an office. Next October we admit an additional class of students when the College will be full, and it will then be very inconvenient to carry on the work of instruction while building operations are proceeding, and there is now ample time to complete the whole of the upper story before October next.

Note by Honorable W. Thole-
-ston

I think P. W. Deptt: has better be requested to esti-
-mate approximately the com-
-parative cost of the 2 rooms on upper story and of comple-
-ting the upper story. Mr. Robertson advocates carrying out the latter at once.
