852/1

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

31st March 1882, No. 852 W.

General-Account.

Read the following papers :—

No. 230. From Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Workshops, to the Chief Engineer, Public Works Department, dated Madras, 14th March 1882, No. 3167 W.

With reference to your memorandum No. 528 C. of 2nd instant, I have the honor to forward a statement showing when and from whom the machines were purchased, and how they are charged on the Workshops books.

2. I would suggest that when the machines have been handed over to the Storekeeper of Machinery, that officer should be instructed to arrange for their sale by advertisement, or if that should prove impossible, by public auction.

No. 678 C.

MEMORANDUM.

As the machines, &c., seem to belong to the Workshops and their sale is contemplated, the General Superintendent is requested to state why they cannot be sold by the Workshops without reference to the Storekeeper of Machinery.

(By Order.)

(Signed) ROSS THOMPSON, Lieut.-Col. R.E.,
Dy. Chief Engineer, P.W.D.

22nd March 1882,

To the General Superintendent, Public Works Workshops.

No. 230-A. From Lieutenant W. L. C. BADDELEY, R.E., General Superintendent, Public Works Workshops, to the Deputy Chief Engineer, Public Works Department, dated Madras, 24th March 1882, No. 3276 W.

With reference to your No. 678 C. of 22nd March 1882, I have the honor to point out that the machines form part of the capital of the Workshops, and in common with the rest of the capital they must be looked upon as borrowed ; for 5 per cent. interest has yearly been paid upon the machines and 2 per cent.* has been deducted from the yearly profits on account of their depreciation. When sold these machines will not realize their book prices, and if sold direct from the Workshops the difference would have to be deducted from the profits of the year, which would be unfair to the Workshops.

* On their value.

No. 231. Order thereon, 31st March 1882, No. 852 W.

The proposal of the General Superintendent of the Public Works Workshops is not approved. If the articles in question are not required by the Workshops they should be sold by that establishment and the sale proceeds adjusted in the usual way.

(True Extract.)

Lieut.-Col., R.E.,
Ag. Under Secy. to Govt., P.W.D.

852/2

Sir,

I must admit that I cannot get on much to this matter.

If the Workshops want to get rid of the machines they had all them directed instead of transferring them to the Store Keeper of Machinery. As it technically an officer under the Public Dept.

In this case it happens to be Mr Baddely himself.

It occurred to me in the first instance that the articles were originally obtained from the Store Keeper, and that the present proposal was simply a

Statement Shewing when and from whom the Machines Specified below were purchased and how they are Charged on the Books of the Workshops, Macao.

Description of Articles	Number or Quantity	Value	When Received	From whom Received	Remarks.
Lathe foot 6 feet in complete	1	200 - -	29/6/68	P. W. Store	The Workshops have been debited with the Value of these Machines from date of purchase and has yearly to pay for their deterioration and Interest from the profits of the Year.
