CONTENTS.

No. 1. Quinine Pills, 2½ Grains, 6 Dozen.	No. 2. Cough Pills, 6 Dozen.	No. 3. Colocynth and Henbane, or Aperient Pills, 4 Dozen.	No. 4. Opium Pills, 1 Grain, 6 Dozen.	No. 5. Calomel and Opium Pills, 4 Dozen.	No. 10. Laudanum, oz. ½. " 11. Sal Volatile, oz. ½. " 12. Cholera Pills, 100. " 13. Simple Dressing, drs. 6. " 14. Adhesive Plaster, drs. 6. " 15. Lint, drs. 6. " 16. Scissors, No. 1.
No. 6. Blue Pills, 4 Dozen.	No. 7. Lead and Opium Pills, 6 Dozen.	No. 8. Gallic Acid and Opium Pills, 6 Dozen.	No. 9. Tartar Emetic Powders, 1 Grain, 3 Dozen.		

- No. 1.—Two and a half grain quinine pills—one for a dose twice or thrice a day in the interval of fever. If the bowels are confined, give two aperient pills before commencing the quinine.
- No. 2.—Cough pills—Compound squill pill gr. ii., ipecacuanha gr. i. in each—one to be taken three or four times a day when the cough is troublesome.
- No. 3.—Colocynth and Henbane or Aperient pills—one or two for a dose to produce a mild action on the bowels. Repeat the dose in three or four hours, if required.
- No. 4.—One grain opium pills—To relieve pain as in griping or colic—One for a dose, to be repeated in four hours, if required.
- No. 5.—Calomel and opium pills—Each contains two grains calomel and ⅔ grain opium, given in fever, inflammation, and dysentery; also in early stage of cholera or sudden diarrhoea.
- No. 6.—Blue pills—One at bed-time and a colocynth pill in the morning when bilious, head-ache, or out of sorts, as after drinking.
- No. 7.—Lead and opium pills—Each contains three grains lead and one grain opium, for diarrhoea and dysentery—one for a dose every time the bowels are loosely moved.
- No. 8.—Gallic acid and opium pills—Gallic acid three grains, opium one grain, in each pill for milder cases of diarrhoea—one for a dose two or three times a day.
- No. 9.—Tartar emetic powders—One grain each—one dissolved in a glass of warm water to be given as an emetic. For fever and colds—dissolve one powder in a quart bottle of warm water and take a wine-glassful every second hour till perspiration or slight nausea is produced.
- No. 10.—Laudanum—Give to an adult forty drops in a little brandy and water in a sudden attack of diarrhoea, or when cholera is threatened; twenty-five drops may be given to procure sleep.
- No. 11.—Sal Volatile—A tea-spoonful a dose in a little water in faintness from effects of the sun, or when the extremities are cold in cholera.
- No. 12.—Cholera pills for Natives—Assafoetida, black pepper, opium of each 1 grain—give one cholera pill every hour for four doses while the purging continues (none after it has stopped), and repeat small quantities of brandy and hot water every half hour. Should the extremities become cold, administer thirty drops of Sal Volatile in half a wine-glass of water every quarter of an hour, and rub well the extremities with powdered ginger until warmth is restored. Apply hot bricks to the hands and feet, and a mustard poultice over the region of the stomach. Twelve hours after all symptoms of cholera have ceased, give one or two of the colocynth and henbane pills to produce a mild action on the bowels. Repeat the dose in three or four hours, if the first does not act.
- No. 13.—Simple dressing for sores.
- No. 14.—Sticking plaster for cuts.
- No. 15.—Lint.
- No. 16.—Scissors, No. 1.

M. H. 935/74.
M. H. 132, 27/15
Aug 1874.

Proceedings of the Madras Government, Judicial Department,
23rd May 1874.

No. 145. Read the following letter from Surgeon-General E. G. BALFOUR, Surgeon-General, Indian Medical Department, to the Honourable D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Fort St. George, 6th May 1874, No. 203:—

I have the honour to acknowledge receipt of the Proceedings of Government, No. 776, of 27th April 1874, in which I am authorized to make up a camp medicine chest, and to meet all indents which Captain Caulfeild's party may indent for through the Inspector-General of Police or Board of Revenue.

2. I have the honour to mention that there are, already, as per margin, available in the Depôt of Medical Stores, four medicine chests of sizes, suitable for parties of Europeans and Natives of different strengths, and I have directed an additional quantity of quinine to be added to scale of G. O. G., No. 241, of 6th October 1871, and two of the boxes to be sent to Captain Caulfeild, whose wishes for any modification of the boxes or their contents will be attended to.
3. As it is probable that the existence of these medicine chests may not be known to the services generally, I subjoin printed copies of their several scales of medicines, and would suggest that they be communicated to each department and branch of the service.
- A. For Native troops moving by rail and by sea, in a tin box, 8 inches $\times$ 5 inches $\times$ 3 $\frac{1}{2}$ inches.
D. P. W. For Public Works Department, Vaccine Establishments, and Ordnance Department, in teakwood boxes of three sizes:—
- | In. | In. | In. |
|------------------|---------------------------|--------------------------|
| 19 | $\times$ 15 | $\times$ 11 |
| 14 $\frac{1}{2}$ | $\times$ 14 $\frac{1}{2}$ | $\times$ 11 |
| 13 $\frac{1}{2}$ | $\times$ 13 | $\times$ 7 $\frac{1}{2}$ |
- G. O. G., No. 241, of 6th October 1871, for detachments of Europeans unaccompanied by a Medical Officer, in tin box, 8 $\frac{1}{2}$ inches $\times$ 4 $\frac{1}{2}$ inches $\times$ 3 inches, and weighing 2 $\frac{1}{2}$ lbs.
B. For European detachment below 75, and for Native detachment, 150 to 300 strong, moving by rail, in a tin box, 12 inches $\times$ 10 inches $\times$ 6 inches.

No. 146. ORDER THEREON, 23rd May 1874, No. 931.

Communicated to the Inspector-General of Police, with reference to G.O., dated 27th April 1874, No. 776.

2. Ordered, also, that copies of the several scales of medicines be struck off and furnished to all Heads of Departments for information.

(True Extract.)

D. F. CARMICHAEL,
Acting Chief Secretary.

To the Inspector-General of Police.
„ the Surgeon-General, Indian Medical Department.
„ all Heads of Departments.
„ the Public Works Department.
